☞ On Monday of last week, Mr. Gifford, the conductor who since lost his life at the disaster on the Central Railroad, was conversing with a friend in Syracuse, in regard to the death of Mr. Bowen, when he remarked, "It is a mere matter of time with all of us," and added, "When I go I hope I shall go quick."

Show attracts more notice than substance. A proposition to investigate an unsubstantial, imaginary spiritualism, which can only make feeble knocks on pine tables, will call out a crowded house, while the investigation of a real, serious, heart-rending, bona fide spiritualism, which destroys table and owner, which is widowing wives, and orphaning children, has to be done before an array of half-filled seats.—*Bath Times.*

☞ The New York Supreme Court on Friday was thronged with United States recruits, seeking their discharge on *habeas corpus.* The *majority* claimed to be released on the ground of *minority*, while the others soberly alleged they had been enlisted when drunk.

A lazy, over-fed lad, returning from his dinner to his work one day, was asked by his master, "if he had any other motion than that?" "Yes," replied the youth, drawling out each letter, "but it is a little slower."

☞ An Illinois paper states that the late lecturing tour of Henry Ward Beecher has resulted in collecting about $1375 for the re-building of the church edifice of the First Congregational church in Galesburg, Rev. Dr. E. Beecher's.

"Charlie, my dear," said a loving mother to her hopeful son just budded into breeches, "Charlie, my dear, come here and get some candy." "I guess I won't mind it now, mother," replied Charlie, "I've got in some tobacco."

☞ Hon. John J. Crittenden of Kentucky, and lady, were at Vincennes, Ind., on Friday. Mr. C. had not visited the "Old Post" since 1812, when he was there for several weeks on the sick list as a soldier.

The only pious way of performing the important duty of sleeping in church is, to sit bolt upright with the face to the minister, eschewing nodding, snoring, and depressions of the head.—*True Flag.*

☞ The Cincinnati Gazette says that Isaac Trumbull, Esq., now in his ninety-fourth year, has been cashier of the Farmers' Bank, of Delaware, for *fifty-five* years.

J. Scott Harrison, son of ex-President Harrison, is an independent candidate for Governor of Ohio, and it is said both democrats and know nothings will support him.

Query—Will that be a coalition? And if so, will the foreign born citizens vote for it?

LIES.—Dr. Beecher says: "Never chase a lie. Let it alone, and it will run itself to death. I can *work* out a good character much faster than any one else can lie me out of it."

☞ I. G. Jordan, Berwick, has a heifer calf, nine months old, weighing 644 lbs., and girting four feet and elven inches.

Dean Swift, hearing of a carpenter falling through the scaffolding of a house which he was engaged in repairing, dryly remarked that he had got through his work promptly.

LIVE WITHIN YOUR MEANS.—Whoever stretches himself beyong the sheet, his feet go bare.

Intemperance builds watch houses, court houses, jails, penitentiaries and scaffolds—and may be truly called a parent of crime.

The day on which idle men work and fools reform is—to-morrow.

FIRE! FIRE! FIRE!
Clothing at Great Sacrifice!
E. GREEN & CO.
For want of a place of business, on account of the recent fire, are compelled to rush off their remaining stock of CLOTHS, CLOTHING & FURNISHING GOODS, for a short time, at a great sacrifice, at
J. E. ADAMS' AUCTION STORE.
We take great pleasure in announcing to our numerous customers, friends, and the public generally, that it will be greatly to the advantage of the purchaser to call soon, as we cannot and shall not stay here but a short time, under such great expense and sacrificing sales. We intend to wind up business for the present, until our former store is rebuilt. We wish for all those having claims against our firm to present them soon; and those indebted to us, will confer a favor by coming forward and settling with us immediately.—We are to be found at J. E. ADAMS' STORE.
EPHRAIM GREEN,
JACOB AUERBACH.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Main street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN:
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cankers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

SATURDAY, MAY 28, 1859.

THE COURTS.

A legal gentleman, in the Independent Democrat, says of "The Judiciary:"—The present system is an improvement on the old. But it is the opinion of many that this can be improved, and we hope that some well matured amendment may be brought before the next Legislature, and passed into a law, if, upon due consideration, it shall be deemed an efficient and practical improvement of the present judiciary system.

His plan is—

1. Provide *for Trials by the Court* in all cases where one party or the other does not elect a trial by jury at the first term.

A trial by a single judge is always cheaper and more speedy than a trial by jury. The court might be opened a few days before the juries are called in, and try all cases in which a jury is not wanted.—Most of the cases present no dispute as to facts, but result in questions of law, and the time of both juries is wasted in laying before them facts which nobody disputes. The jury fee of five dollars, now paid in each trial, would be saved to the parties, and the court would sit at very little expense to the public, without juries. The right of trial by jury would be preserved to all who prefer it. Cases would be tried by the judge, much in the same manner they are now tried by the Probate Courts. It is believed that one half of the expenses of our terms of court might be saved by this change.

2. Take away the right of *appeal* from the decision of the Court of Common Pleas. This right is now used merely for delay.—The judiciary act now provides for entering judgment open to review by agreement of parties or by order of court, and also for granting new trials in case of injustice or accident. This is privilege enough for a tecond trial.

The same writer objects to Town Courts, because—first, the Constitution limits the jurisdiction of Justice of the Peace to $13.33—so that they cannot hold the courts. Second, if judges of less reputation and ability than first class lawyers were appointed to try cases in the different towns, nobody would respect their decisions, and their courts would become contemptible. Third, if first rate men were appointed, the expenses of court rooms, officers and other charges, with the salaries, would be greater than under the present system. Fourth, as parties often do not live in the same town, they would not be accommodated better than now. Besides, there would be great inconvenience in the use of records, which are now kept in one place. In Vermont jury trials are had before justices, if either party elects a jury trial. Sixteen names are placed in a box, and six drawn out for jurors. An officer is sent for them, and they are compelled to attend forthwith, often taken from the hayfield or plow without notice. The trials are usually in the night, because it takes all day to get ready, and the whole proceeding is a sort of dogfight by lamp-light, which is deservedly unpopular in that State.

Finally, he says, "they who advocate *cheap* courts, without carefully providing for their deserving and receiving the confidence of the community, are in danger of bringing our State into anarchy as well as disgrace. The decisions of our courts have always held a high rank in the country, and it is hoped no changes will be made, but on wise deliberation. It is believed no more economical system than the present can be adopted, except by dispensing, *in part*, with trials by jury."

SECESSION FROM THE SOUTH AMERICAN TRACT SOCIETY.—The Congregational Association of Michigan has just closed its session at Detroit. The Association, after a full discussion, adopted resolutions seceding from the American Tract Society, because that body refuses to recognize the sin of slavery in its publications.—The Association also passed resolutions denouncing the persecution of the Oberlin "rescuers," expressing the warmest sympathy for them, and recommending the churches to raise subscriptions for their benefit.

☞ The Virginia election took place Thursday. The excitement was intense throughout the State. We have returns from many of the principal cities, in nearly all of which, Goggin, the opposition candidate for Governor, against Letcher. has a large majority. It will be impossible however, to judge at this time with accuracy the result.

☞ Jacob Rundlett committed suicide at Laconia, N. H., on Tuesday, by throwing himself, face downward, into a stagnant pool of water. He was found senseless, and all efforts at resuscitation proved useless.

BALTIMORE, May 26. The Democratic primary election, in this city for a City Convention resulted in carrying eight wards out of twenty for Douglas.

Correspondence of the Chronicle.

CONCORD, May 27, 1859.

Messrs. Editors:—We have had two annual meetings of railroad corporations in this city, the present week—those of the Concord and the Northern roads. The time occupied was very short, as the old boards of officers were re-elected without opposition, and no other business was introduced in either meeting. The Boston, Concord and Montreal road will hold its annual meeting, at Laconia, next Monday, when it is expected there will be quite a contest as to who shall control that important corporation next year. There will be a full meeting of the members of that corporation, it is to be presumed, and a pretty close contest.

Last Wednesday the corner stone of the new church which the Episcopalians are erecting in this city, was laid in a religious form, and the attendance of clergymen of that order was very large, and all the exercises went off well. St. Paul's Church will be a well' located, spacious and elegant structure, and the number of the members of the church is constantly increasing. Indeed, all, or nearly all, of the churches in this city are annually increasing, and the houses of worship are well filled every Sabbath.

As we are now close upon the commencement of the annual session of the Legislature, we are guessing what will be the leading matters to engage the attention of the law makers, between the first and the twenty-fifth of June, as the session is about as sure to close on the 25th as it is to commence on the first.

Here all men of all parties are certain that a remodeling of the Judiciary is sure to be accomplished, and the only thing in doubt, as to that matter, is, what system is to be adopted? I believe the Court of Common Pleas is to be abolished, and a Judge in each county will be appointed to hold courts once in three months about the county, the same having been properly divided in small districts for the purpose of having trials in the districts. Some favor the appointment of a Justice of the Peace as a Trial Justice, to reside within the district and preside in the courts, while still others favor the Town Court system. It is thought the number of Judges upon the bench of the Supreme Judicial Court will be reduced from five to three, and perhaps the salaries of the three be reduced 25 per cent. from what they now are, fixing that of the Chief Justice at $1500, and those of the Associate Judges at $1350, as it will require about twenty weeks each year to discharge the duties devolving upon them, leaving them some thirty-two weeks to devote to farming, gardening, or some other healthful and useful avocation of their own.

Reform and retrenchment will receive some attention, and something may be done in this line that will meet the approbation of the people.

Railroad matters will occupy a considerable portion of the time of the short session, and their one hundred and one appliances will be too powerful to be resisted by the incoming Legislature, and, of course, all they ask will be granted. Among the appliances will be free tickets to a few leading members during the session, and free rides to Manchester and elsewhere occasionally to all the members.

As there will be no U. S. Senator to be chosen, and no new candidates to be talked up for Governor or for members of Congress, there will be less party manoeuvring than usual, although something will be done to indicate how the current is setting in relation to the next National Presidential Conventions. But the less politics we have about the Legislature the better, and generally speaking the less legislation the better.

I think the so called "Peddler Law" of last session will be repealed; and if anything shall be done in the way of amendment to the law for the suppression of intemperance, it will be to furnish means to defray the expenses of securing the enforcement of that law.

It is expected that the President of the Senate and the Speaker of the House of Representatives will be selected from Concord members of the two branches, while the Clerks and the Doorkeepers will be from abroad, as will be, most likely, the Chaplain.

☞ At the Manchester & Lawrence Railroad meeting, held at Manchester Friday, the old Directors were re-elected, and the routine of business pressed off quietly.

FROM MEXICO.—Vera Cruz dates of the 27th and Mexico of the 19th.

A movement was initiated in the capital in favor of Santa Anna's return to power. Gen. Wall, with one thousand men, was marching upon Tampico.

A conducta, with several millions of dollars was to leave Mexico 24th for Vera Cruz.

NEW YORK, May 26.—A report has obtained some currency that the Erie Road had suspended but it can be traced to no other source than its well known trouble in obtaining money to meet its pressing payments. A meeting of the stockholders will be called soon.

THE GRIFFIN AIR-LIGHT.

We respectfully announce to the public that we are now prepared to sell State and County Rights for the sale and vending of the abovenamed light. The Chemical from which the gas is produced was patented March 9th, 1859, and the machine for keeping up a supply of gas was patented March 1, 1859. We will simply say that it is practically one of the *greatest inventions of the age*.

The Light is the

Most Brilliant and Cheapest now known.

The Machine is simple, compact, and can be managed by a child. It is kept in operation by the power of a fall footstep, and will run 15 lights 12 hours, with once winding.

Persons purchasing Rights can be supplied with Chemical and Machines without delay.

To remove all prejudice, and counteract false rumors, we unhesitatingly say that the Chemical is

PERFECTLY HARMLESS

CAN BE USED WITH PERFECT SAFETY.

These Machines can be furnished, ready for use at $35 each, and the chemicals can be had for 21 per gallon. Each Machine will supply from 15 to 20 burners, at a cost of three mills to each burner per hour.

The light and machine may be seen at the Shoe & Leather Exchange, Hanover Street, Boston.

All communications for State or County Rights in the New England States, addressed to LORINO MEIGS, Office No. 17, Shoe and Leather Exchange.

Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY OF VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America, and established the claim of the discoverer, that they are a SURE REMEDY, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *facsimile* signature is upon every bottle.

SPECIAL NOTICES.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a widespread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic and is very common afflicted with indigestion, it affords a complete remedy. There is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug 18, '58.*)

Knowledge is gained by experience, and, though we have therefore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Roots and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be induced to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to DR. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street, consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

N. B.—I do not charge any more for good Pictures, than is paid every day for poor things.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Street, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiorumenot.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become inoculated with any malignant disorder, will find the R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in the city, testifying away their time, and suffering the most severe torture for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its positive efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators, at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the supervision of Messrs. Charles Eccles, is delicately flavored with a tincture of the Italian Juniper Berry; and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the medical profession, the purest and safest stimulant or diuretic thing in use.

It is a glorious tonic, of a soft and delicate flavor, differing entirely from the Holland Gin, and devoid of that harsh, acrid taste, which renders the artificial imitations as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GENERAL DEBILITY, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, &c. &c. BLOATEDNESS and the BOWELS, NERVOUS DEBILITY, and all those peculiar weakness will find, by its adoption a sure relief from those harassing annoyances which frequently attend their delicate complaints.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., Cornhill; S. E. Pocker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Doyle & Co., 57 Blackstone st.; R. Smith & Co., 20 Exchange st.; Geo. Abbott & Co., 78 Broad st.; Deland & Snow, 34 Elm st. and others. In Portland, Me., of H. H. Hay & Co., C. W. Abbott, and C. C. Mitchell & Son.

LOCAL.

☞ The clock on the Old South Church was observed to stand at twenty minutes of 8, for a great part of the day on Wednesday; and when the clock-maker who attends to it was walking by, he at once set it agoing, but could see no reason for its stopping. In fact the *reason* had gone off then. The U. S. ship Dale, just arrived from Africa, brought home a lot of parrots, some of very large size. One of these had flown across the harbor, and lighted on the hands of the clock, which, not being constructed to carry a load, stood still. The bird seemed not to know how to get away, till late in the day, when some sailors from the Dale came there, climbed the lightning rod, and took down their feathered shipmate from his elevated perch.

☞ It will be seen that the veritable, original, inimitable Peak Family, Swiss Bell Ringers, give one of their unique entertainments, Saturday night, at the Temple.

Though their entertainment has not existed one whit in merit and attraction, yet they have reduced the price of admission to 15 cents. Tis too bad for a first class exhibition to be rated at this low figure, when circuses and nigger concerts (which, no matter how good of their kind, yet must always be, comparatively, of a low, inferior character,) charge a quarter and get large houses.

When we saw the announcement of Miss Fannie Peak's marriage to Mr. Fitz, a few months since, we supposed her lost to the company and the public. But "J. D. Fitz" happens to be the active and gentlemanly "agent" of the Family—and Fannie, tho' she has "caught Fitz," yet sails under the same colors—carries the same flag at the *Peak*—and will appear before the old admirers of this troupe to-night. Success to the Peak Family, say we.

Burning of Moscow.—It will be seen by an advertisement, that Mr. W. Gallagher will exhibit the celebrated Diorama of the Burning of Moscow. There will be four exhibitions, and we have no doubt Mr. Gallagher will send each audience away well pleased with his entertainment.

☞ The History and Description of New England, general and local; volume first, royal octavo, containing upwards of one thousand pages, embracing Maine, New Hampshire and Vermont. (Volume second will embrace Massachusetts, Rhode Island and Connecticut.) By A. J. Coolidge and J. B. Mansfield. Illustrated with views of most of the cities and important places, and interesting historical events; and accompanied with a township map of each of the New England States. Price in cloth, including the maps, $3 per volume. Sold only by subscription, and to be had only of the agents in their respective counties and districts. S. Gilbert, agent for Portsmouth and vicinity.

A Queer Look.—The Bath Times says, "It does look queer to see the large shipbuilding city of Bath have to go abroad to find vessels to bring home ship timber with which to build her ships, and the corn and flour to feed the men while building them. Why not have some small class vessels built and owned here, suited to such trade as corn and flour, lumber, coal, &c."

Something like this might have been said of Portsmouth. But it seems there has been one fisherman built here this year, and one coaster about to be built. There may be others.

☞ The building in Kittery, where the accident happened on Wednesday, is designed for an Armory and Hall, only; and is in part erected by State money, for military purposes. The bowling saloon building is another building, not far off, and is private property.

We learn that a train will be run from Portsmouth to Concord early Thursday morning and return in the afternoon. The delegation of our citizens are appointed a place in the procession next to the escort; and it will doubtless be large, and accompanied by the Portsmouth Band.

☞ We learn that the crew of the sloop-of-war Dale are to be paid off to-day.—About $25,000 will be distributed among them.

☞ See Auction column, for sales of all sorts of articles to-day.

☞ We were much refreshed yesterday by some good small beer, made and sent in by Capt. Clark. Call and try it, at No. 67 Market street.

☞ On Election Day, at Concord, says a correspondent, the citizens of that place propose to celebrate the day in the old fashioned style. The Amoskeag Veterans, with Manchester Cornet Band, are to perform escort duty to Gov. Goodwin, and there will be a large cavalcade in connection with the procession.

The several railroads connecting at Concord will run accommodation trains at half fare, and a good time and a large crowd are expected. The fire companies, with bands of music, will turn out in full force.

Wolfe's Schiedam Aromatic Schnapps.

GOOD FOR RHEUMATISM.
GOOD FOR DYSPEPSIA.
GOOD FOR GRAVEL.
GOOD FOR GOUT.
GOOD FOR FEVER & AGUE.
GOOD FOR KIDNEY AND BLADDER COMPLAINTS,

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spirituous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

UDOLPHO WOLFE,
Sole Manufacturer and Importer,

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatoria of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice. I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 67 per cent of ammonic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deutjen (of Bremen) after spontaneous evaporation by steam, a substance almost insipid and very slingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Tracher have furnished me with a very small quantity of a greenish substance of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

A BRILLIANT NOVEL.

WE SHALL PUBLISH JUNE FIRST,

S E A C L I F F ;

OR,

THE MYSTERY OF THE WESTERVELTS.

BY J. W. DEFOREST,

Author of "Oriental Acquaintance," "European Acquaintance," etc.

This is a story of American Life, embracing some features of society and traits of character that are as new as they are striking and natural. The personages introduced are very few in number; and the interest centres in the family upon whom the hero makes a call, in the first chapter. The plot is remarkable for its ingenious simplicity. The reader's curiosity is aroused at the outset by the appearance of a mystery. Each step in the development of the story seems about to disclose the dreadful secret; but the true solution will not be guessed, even by the most inveterate readers of fiction, until the catastrophe comes. The style of the narration is full of spirit, and the various *dramatis personæ* are finely sketched and contrasted. "SEACLIFF" will be, without question, the most fascinating novel of the season.

In one handsome volume, duodecimo, 468 pp., beautifully printed. Price $1.25.

The Trade supplied on the usual terms.

Copies sent, post-paid, upon receipt of price.

MUNICIPAL.

In Board of Aldermen on Thursday evening:—The committee on the new School House in Dist. No. 2 reported plans for a house costing, if brick, $10,000; if wood, $8,000. Laid on the table.

Applications to relay Sidewalks.—C. C. Jackson and others, west side of Fleet street from State to Congress—granted. S. Cleaves & Son, Elm street—referred to com. on Streets, with power to act.

The com. on purchasing the lot next west of the Haven School House, reported the purchase inexpedient at present—adopted.

The com. on Burying Grounds were directed to make any repairs at Point of Graves rendered necessary by the late fire.

The City Marshal was directed to cause all obstructions to be removed in State, Pleasant, Church and Warren streets.

The Common Council (adjourned from Monday evening) on Thursday evening were occupied with the appropriation ordinance, and adjourned without completing it.

The next lecture of the Young Men's Christian Association's course, will be on Sabbath evening next, at the Temple, by Rev. Thomas Holmes.

India-Rubber Pens.—Many of the good qualities of the old fashioned goose quill are revived in this new invention, which may be found at Mr. J. H. Foster's.

Swimmers and Bathers—Attention!—The Piscataqua Bath Co. have put their House in good condition for the season. See advertisement.

Mr. Joseph B. Smith, the blind music teacher, died at his residence, in Louisville, Ky. on Friday morning, May 13. He was a native of New Hampshire, though he had resided in Louisville for the last fifteen years. He was the organist in the Unitarian Church, and music teacher in the blind Asylum. He was well known and highly respected in the city, and will be remembered with sincere affection by a large circle of friends.—*Christian Inquirer.*

THE LEGISLATURE.

The Legisture meets on Wednesday of next week. Politically, says the Manchester American, the Senate will stand eight Republicans to four Democrats. John M. Parker, Joseph A. Gilmore, and John G. Sinclair, were members of last year's Senate.—The other nine are new members. Mr. Gilmore will probably be chosen President. The most experienced debaters will be Messrs. Harriman and Towle.

The House consists of 325 members, the largest number ever chosen, although towns entitled to seven members failed to elect. Last year the number was 315; in 1855 it was 311; in 1826 (thirty-three years ago) it was 213. The rate of increase is about three and a half members per year. In twenty years, it would, at this rate, reach 400. The next Constitutional Convention will be likely to adopt the district system and reduce the number to 160 or less.

Politically, the House stands 199 Republicans to 126 Democrats—giving the former a majority of 73, or 4 less than that of 1858. Mr. Bryant will be re-elected Speaker, Abner Greenleaf, of Portsmouth, will be the oldest Representative, both in age and in membership, having been a member of the House 33 years ago, and President of the Senate thirty years ago. The more prominent of the Republicans will be Messrs. Pattee of Antrim, Cragin of Lebanon, Bell of Exeter, Faulkner of Keene, and McFarland of Concord—of the Democrats, Quincy of Rumney, Greenleaf of Portsmouth, Briggs of Hillsborough, Stark of Nashua, and Wheeler of Newport. Coming together on the first day of June, with less of business than is usual, the Legislature will doubtless adjourn before the close of the month.

The Approaching Legislature.—The letters from Concord to Boston papers are full of wisdom and philosophical speculations. The last of this kind we find in a recent number of the *Traveller* We quote:

Our Legislature will be in session on the first day of June, and a very important session it will be as to its influence upon parties in coming years, as certain reforms and retrenchments in public matters and expense, promised more than four years ago, have not been made, but must now be made, or there will be trouble ahead. The party out of power in this state, are maturing plans of reform, and are about to take a stand against class legislation, and many members of the party in power sympathize with them in these matters, while many very selfish men are bent on accomplishing their selfish ends at any and all risks to the party with which they are identified.

Arrangements are making to secure the costly services of a large number of lobby managers, mostly of the legal profession, to aid in obtaining certain railroad monopolies, and thus giving great power to a few high salaried officers in those corporations, who grow wealthy fast, while stockholders and those who pay fares and freights are less prosperous.

There is a strong probability that there will be a pretty thorough remodeling of the State Courts, as the present system has fallen into great disfavor with the people of all parties. The last years' "Pedlar Law," of which you must have heard something, will undoubtedly be repealed, and some Boards of Commissioners will probably be abolished. The law for the suppression of intemperance will remain, and may be improved.

Petitions are in circulation in Grafton county, to be presented to the Legislature, for an extension of the term of residence previous to acquiring the right to vote, to one year in the State and six months in the town, instead of six months and three, as now required. The longer term is the rule now in most States.

District No. 6.—The official vote for Senator, as given in the Statesman and Patriot, says "no return was received from Brookfield." The Democrat says nothing about the vote of that town, but elects Emerson, the Democratic candidate in No. 6, by the same vote, viz: Emerson 4083, Stevens 4054, scattering 4; majority for Emerson 25. As there were some sixty votes cast for Stevens in Brookfield, and none against him, the Senate will have it in its power to give him his seat if the vote of that town has not been included in the official count.—*Dover Enquirer.*

The Effect of War upon Business.—The New York Economist concludes an article upon this subject as follows:

"If we are guided by these facts of history, in addition to the more recent experience of the Crimean war, we shall come to the conclusion that the benefits to be derived by war have been exaggerated. There is little room to look for any increased business for exporters, as a consequence of the calamities of Europe, but on the other hand, partly by reason of our loss of credit, we shall feel the influence of demand for money which actuates governments, bankers and merchants at such a crisis."

Flour, the price of which went up one dollar and a half per barrel some days ago, is coming down again. The last news from Europe makes it probable that the demand for flour and corn will be small during the summer. The price in Boston has declined fifty cents per barrel.

Fire.—A dwelling house belonging to Mr Jacob B. Smith, of Tamworth, was burned on the 27th. It had been for sometime used as a shop for the manufacture of axe handles.

Morning Chronicle.

☞ What a passion the human race have for gambling!—and the more risky the better, it would seem. There was a great sale of unclaimed baggage at New Orleans, the other day, which created much excitement. Trunks, &c. were sold unopened—and one fellow getting a gold watch and chain for a few dollars, all similar appearing packages brought great prices—one, purchased for $13.50, contained a small daguerreotype of a sentimental young gent, which cost about fifty cents. Many other even more ludicrous bargains were made. One party expended something over one hundred dollars, obtaining for it about four dollars in value. Shaking props or investing in lottery tickets is safe business, compared to this blind work.

☞ B. Vanhouten of Brooklyn has been in the habit of abusing his wife, both by neglect and by actual blows. The other day, having beaten her severely, he left home. Her brother learned this fact, armed himself with pistols and a club, and went in search of Vanhouten. Finding him in a grocery store, the brother began to hammer him with the club. Vanhouten retaliated as well as he was able, and the fray went on till an officer arrested both and took them before a magistrate. Moore, the brother, stated to the judge the whole story. The magistrate decided that, under the circumstances, he should probably have done the same thing himself, and the assailant was discharged.

☞ The war between the two factions of the Democracy of Maine is getting to be amusing. The Belfast Journal thus shakes up Col. Smart:—

"We have felt some solicitude for the denizens of the vicinity about 'the Camden Mountains,' since Smart's paper, 'the Free Press,' assured us that those 'mountains would be shaken to their very base if the hard-fisted yeomanry could have an opportunity to vindicate him.' We have not felt the shake yet, and should be very sorry if the denizens about Old Megunticook should be swallowed up by an earthquake. We really hope the mountains won't 'shake.'—Don't, Colonel, we pray you, don't get up an earthquake in 'me own native town.'"

☞ The people of Rahway, N. J., are having a ghost excitement. A certain house there is said to be haunted. A double-fisted fellow, fearing neither man nor Satan, lately took his gun, and repairing to the house, soon had an opportunity of seeing the ghost. He fired, and when the smoke cleared away he fled for his life. An Irish family had tried living in the house, but were soon frightened away. A Dutchman also tried it, but soon fled, leaving a barrel of sour krout which he dare not go back for.

☞ An old resident of Washington, D. C., a Swiss by birth, rich, of indomitable courage, left his house on Thursday noon, and arrived in New York Saturday night, whence he sails for Europe. He takes with him a son of 18, and over $100,000 in gold, determined to use his money, and blood if needed, in the contest now waging in Sardinia, and having for his motto, "Death or triumph." He commanded a regiment during the French Revolution of 1830, and on one occasion surrendered with 240 men, all that were left out of 6000 at the beginning.

☞ "Occasional," the Washington correspondent of the Philadelphia Press, says:

"Quite a sensation is being created in the departments at the news from New York that the office holders in that quarter are preparing to let the Administration slide, and are setting their houses in order for the future. In New York the leaders know little, and care less, about Democratic principles; they look to success, and as the Administration has not much success in its *repertoire* to offer to its dependents, you may look for such a stampede, before long, as has not been seen in many a day."

☞ The Douglas men and the adherents of Buchanan, in Lucas county, Ohio, have called rival conventions to appoint delegates to the Democratic State Convention. The war between the two factions rages with great fury. The leader of the Douglas faction is James B. Steadman, printer of the late House of Representatives. The leaders of the Buchanan party are the Post Master and Collector of Toledo.

☞ A German paper, entitled *Gotts Frennd der Pfaffen Feind;* (God's friend, the Pope's enemy) has been started in St. Louis, published by L. G. Besell, which has undertaken to publish, in successive numbers, sketches of all the Popes who ever occupied the Pontifical throne. It pursues a novel way in ridiculing Popery, which is its sole object.

☞ Mrs. Abigail Center, wife of B. L. Center, at Manchester, committed suicide on Tuesday, by taking strychnine, in presence of her husband, who was jealous of her, and who had found fault with her for keeping improper company, going out, &c. She was 31 years old, been married 16 years, and leaves two children, aged 7 and 11 years.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; makes it soft, glossy, and *beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who have the same prejudice without my reasons for acting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. Yours respectfully, HENRY TURNER,

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, ALA., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite young. I feel free to bring your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, so I do not think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

YOURS, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but half a pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more than one bottle of the small, retail for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPARED BY DR. SANFORD.

COMPLEXIONS RENDERED ENTIRELY BY GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy bile, which invigorating the stomach, causing food to digest well, invigorating the BLOOD, giving tone and health to the whole machinery, removing the cause of DYSPEPSIA, and effecting a radical cure.

BILIOUS ATTACKS are cured, and what is more, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NEURALGIA.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, and that from the fear or the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, with full and the true description of the disease be sent by letter and directed as above.

A full and plain directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and upon a careful examination of the number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and enclosing fifty cents, in the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be led astray by quack, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal opinions given in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below, give proof that none BUT MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would claim that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved to inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MAGSON,

Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the evidence of his large practice, obtained TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

The New Muddle.

If it be the prime object of this Administration to keep the public mind in a continual agitation upon the subject of slavery in the Territories, to distract the Democracy with conflicting and irreconcilable theories, and to disgust and dishearten all the decent white men in the party by absurd and dangerous experiments upon their capacity to swallow and digest copious doses of Southern mud; if this be the object, then has Mr. Buchanan and the servile herd whom the love of public plunder and official pap has drawn around him, succeeded most admirably, and the present Administration well deserves the high-flown eulogies which it contrives to secure at a high price from a small and contemptible portion of the Democratic press.

From the time when Buchanan in his Inaugural address first hinted the forthcoming decision and *dicta* of the Dred Scott case, and declared, that in his opinion the proper time for the people of a Territory to decide the question of slavery was not till they were ready for admission into the Union as a State, thus scattering to the four winds the doctrine of popular sovereignty solemnly enunciated in the Cincinnati Platform and emphatically endorsed by him in his letter of acceptance, acknowledged on all hands as the true meaning and intent of the Kansas Nebraska Act, and argued from the stump and by the Democratic press in every part of the Union;—from the time that Buchanan thus turned tail to all his professions, and boldly violated his plighted faith to the party which elected him, he has been constant and persistent in his efforts to go from bad to worse, to deepen the party disgrace, and to bring upon his Administration and entail upon the Democracy all the disastrous effects of this great treason.

It is not necessary that we should revert to the past to find evidence of his political apostacy and administrative imbecility. We need not allude to his Lecompton scheme; his proposed Bankrupt Law; his Central America boggle; his Mormon War; his stupid and slightly infamous 30,000,000 Cuba humbug; his proposed specific duties for the sole benefit of the Coal and Iron interests; his dastardly attempt to destroy the faithful Democracy of Illinois and their gallant leader; his proscription of the personal and political friends of Gen. Pierce and his Administration; his general disregard and ill-concealed contempt for the expressed will and wish of the people in the appointments which he has made;—no, we need not allude to these matters in detail, they have made their proper impression, and generations will pass before the humiliating record will be obliterated. These blunders, or crimes, (call them as you choose, they answer to either name) are of the past, and are at present of no especial moment. We have to do now with the creed making and platform breaking business in which the President is engaged, backed by the whole force of his immense patronage, and the army of disinterested patriots who "keep step to the music of" *federal sop*, and follow bravely where *plunder* leads the way! Of course, the President is not very consistent in his notions of what he would force upon the party. Consistency is not to be expected from one whose schemes for the distraction of the party would suffer were he to advocate for any great length of time the same doctrine, however false it might be. Had the President stuck to the Slave Code theory advanced by his late organ, the Washington Union, and echoed by all the little Custom House and Post Office organs in the land, the muddle would not have been complete. Having tried that doctrine for a year or two, finding that the voting Democracy of the North, including that of the conservative slave-holding States of Kentucky and Tennessee, repudiated it,—finding that it *would not go down*, the President changes the performers upon his grand cathedral organ, calls the organ itself by a new name, and gives the wink to the little fellows who grind the local hand-organs, and away they go with a new tune, a piece of negro minstrelsy called "The Dred Scott." Slavery is no longer entitled to Congressional protection, (chiefly, we presume, because it can never get it) but "it is to be protected by the Judiciary." This is the oil on the waters which is to calm the storm and soothe the tumult, according to the new organ.

We should gladly welcome any honest extrication from the labyrinths of error into which the Administration has plunged, but we don't see any light ahead attained by this feeble attempt to dodge out of the difficulty. We regard the proposition of a Congressional Slave Code as completely infamous, and if enacted, would advocate its immediate overthrow by the means which God and nature have put into the hands of freemen; we regard the doctrine of a Judicial protection as too absurd to be worthy of serious consideration. It starts upon premises which are false and undemocratic.—According to the President's organ, slavery is carried into the Territories by the Constitution which recognizes negroes as property, and no municipal recognition of the right of the master to hold the slave is necessary, the Constitution securing him in that right; and the Territorial Legislature, though competent to regulate all other matters within the scope of legislative action, is in some way forbidden to meddle with *niggers!* The Territorial Legislature may pass laws to regulate the relations of husband and wife, parent and child, guardian and ward, master and apprentice, either of which is just as much a subject of Constitutional recognition as the relation of master and slave; but some how, property in niggers is more sacred than all other property, and the preservation and encouragement of that institution is the chief end and object of the federal government.—That's the argument plainly stated.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, MAY 30, 1859.

☞ The Democratic Standard says, in speaking of the various compromises about slavery, ending with that of 1850,—

None of these compromises led to a settlement of the vexed question of the rights, relations, and duties of the General Government and the States, growing out of the vexed question of slavery. *The great doctrine of the equality of the states, had been overlooked, or had not been broached.* Perhaps we should say it had received no authoritative exposition and settlement, by the parties interested,—the States, and the General Government.

It is undoubtedly true, that this doctrine *of state equality*, by which they mean that slavery has equal rights with freedom, or rather superior to it,—and that the *preponderance* of political power must be held by slave states, is a *modern* humbug. The fathers of the country never dreamed of it.

The Standard says, further,—

As in the case of private individuals under the laws of all civilized communities which profess to recognize the principles of justice and equity, *they must agree to occupy jointly and peaceably, or they must partition the property.*

That is to say, in plain English, if slavery cannot *rule* the Union,—then it may *dissolve* it.

Again, hear the Standard:—

Such a question has at length arisen, and such an interpretation has been given. We allude to the recent Dred Scott decision.—In that case the true relations, rights and duties of the States and the General Government with regard to the Territories, have been interpreted and explained. In that case the philosophy of the problem has been discovered and expounded. *It is, that all the states, under the Constitution, have equal rights in the public demains of the Union; and consequently, have a just claim to protection in the enjoyment of those rights.*

Here should be found a panacea for the distractions of the public mind upon the subject of slavery in this country.

This is the very plain platform of the Standard's democracy, viz: slavery paramount. Northern democrats, however, do not *all* agree to it.

To the South, the Standard says:—

Back down from this position—say you tolerate the demagogism of the North—say you make no distinction between the heresies of Douglas and your true rights—say that the Democracy may display one face—as abolition face—at the North and another face at the South—say that the Democracy of the North may continue to win Democratic victories upon abolition grounds, and that you will aid them in such hypocrisy,—do all this, but then, bid adieu to all your pretensions about your rights under the constitution.

Lastly, see what the Standard says of the present Administration:—

Administrations owing their existence to the Southern Democracy, have not sustained their *friends* in the North. The countenance and the patronage of the democratic administrations have been given almost exclusively to the demagogues, and to the demoralized Democracy of the North. It is so, *now*, as it has ever been. While holding out *measures* to the South, where Democracy is strong and does not need friends, it attempts to secure the support of corrupt demagogues of the North by *patronage*, for ulterior purposes—perhaps, to purchase *renominations*, or to secure the succession to a *favorite*. Thus have the Administrations established by the South, encouraged the demagogism of the North, and scattered the seeds of demoralization among its Democracy. We do not except the *present*.

☞ A day or two ago, we printed the following dispatch from Washington:

The War Department have added an *armed escort* to the trains with the army supply, from apprehended attacks by the returning Pike's Peakers, information having been received of the necessity of such protection.

The Boston Journal says—These dying men appeal for bread, and they are given bayonets. The pensioned agents of the government see in their starved condition nothing but a source of danger to the army supply trains: and so they call for an armed escort, which will probably cost more than would the transportation of additional food sufficient to relieve all the sufferers.

☞ The Kentucky and Ohio organs of the administration quarrel. The Louisville Courier, for example, speaks of the Cincinnati Enquirer as an "insidious sheet, owned and edited by a Northern Abolition wolf in Southern Democratic sheep's clothing;" and says that "its Black Republican editor, now disguised as a Democrat, on the 15th day of February, 1847, voted in Congress with the notorious abolitionist, Joshua R. Giddings, for the odious Wilmot Proviso." The editor of the Cincinnati Enquirer is Mr. Buchanan's postmaster in that city.

☞ The latest news from the seat of war is just as indecisive as ever; that is to say, no battle has taken place. But upon any rational conjecture, battle, and that speedily, seems totally unavoidable.

☞ New Hampshire is going into shoe manufacturing fast. An establishment employing fifty hands has just been opened at Nashua.

Mrs. Littlefield, at Wells, Me., the mother of the seducer at North Adams, has gone crazy in consequence of her son's conduct. —*Boston Jour.*

PRODUCE AND BUSINESS AT THE WEST. Horace Greeley, who has passed over the great Western route of travel, writes that:

In Chicago the country was never so bare of food for man or beast. Flour is higher, and wheat and corn scarcely lower than in New York or Liverpool. Oats are nearly the same. Thousands of cattle throughout the prairie States have died this Spring.—Minnesota is buying flour in Chicago by the thousand barrels. In Illinois, Iowa and Missouri, whole neighborhoods are destitute of bread, and of the means to purchase it. At Quincy, however, 268 miles from Chicago, the farmers are resolved to look starvation in the face, and are busy putting in all sorts of grain.

In Illinois and Iowa, they are doing their utmost to grow more grain than ever. They are, however, out of money, out of credit, and in debt, and hardly able to keep the sheriff from the door. Despite the hard times, Illinois is growing. New blocks are being erected in her cities, and new buildings in the villages. Cultivation is being generally extended, a great deal of the work being done by oxen. The State is rich in coal, far more so than any other State, but lacks timber, which is obtained chiefly from Michigan and Wisconsin.

☞ Sickles is showing himself to an unadmiring world. He takes the fashionable side of Broadway, bold as brass. He does not appear to be going abroad in a hurry. Perhaps he wishes to show that he is not afraid of that "injured husband," with whose wife he solaced himself, and diversified the cares of a st.tesman's days—and nights—at Baltimore, and who, it is said, would have shot him in open court, had the lady's name come out in evidence.

☞ Mr. S. P. Hanscom, the energetic reporter and active agent, has gained not only reputation but money, by the passage of the Massachusetts Claims bill through Congress. The Boston Advertiser says:

The amount allowed by Congress was $227,176, of which we pay one-third to Maine, leaving $151,451 for Massachusetts. Mr. Hanscom receives five per cent. upon the latter sum, viz: $7572.

It was understood from the beginning that the agent was to receive nothing unless successful. No sane man would have offered to buy the claim for half its face at the beginning of the session of Congress, so improbable did it then appear that it would be allowed at all. The commission allowed by the Governor and Council is only half that usually allowed by States which have had similar claims, and only one-quarter that paid by Virginia in a recent instance. We believed that Maine promised beforehand to her agent 25 per cent. upon all that should be allowed.

BURNETT'S KALLISTON.—The merits of this article as a refreshing wash for the complexion:—the facility with which it removes tan, and the uncomfortable sensations of sunburn, gives it great popularity in our community, especially with those who value purity and bloom, and appreciate the worth, both as to health and comfort, of a thorough cleanliness, and a free action in all the minute pores of the skin.

☞ The Episcopal Convention in New Jersey, are balloting many times, without making a choice. Candidates, Mahan, Littlejohn, Odenheimer and Hoffman.

The New Jersey Episcopal Convention have elected Rt. Rev. Dr. Odenheimer of Philadelphia, Bishop to succeed the late Bishop Doane.

☞ The spirited little pamphlet, "Ultimate Objects of Napoleon III, considering the future in the light of the past, and judging it by light of the present," of which we spoke in commendation several months ago, is receiving wider and more particular notice just now, than ever before. Published by Mansfield & Co., Boston, and sold for one dime by book and periodical dealers.

TERRIFIC HURRICANE.—SIXTEEN PERSONS KILLED. — At Jacksonville, Ill., a most terrific tornado occurred Thursday.—The violence of the whirlwind is described as exceeding anything of the kind ever witnessed, except in the West Indies. Sixteen persons are reported killed, and many others seriously injured. Houses, barns, &c. were torn to atoms. The names of the killed are not yet ascertained.

AN INCIDENT.—At a missionary meeting at Tremont Temple, Boston, a pompous individual stepped upon the platform and inquired if a certain clergyman was in the audience, stating that one of his parishioners had very suddenly deceased and *desired his immediate presence!* The announcement so mingled with solemnity and ridiculousness, created quite a sensation among the audience.—*Boston Journal.*

☞ The English are buying the best American fire arms, but so long as they do not train their people to the use of the rifle, they might as well contract with some of our broom-makers for a few myriads of *their* articles.

The Pike's Peak emigrants have found out that they were rather fast in putting in their "*ore*." Their hopes have been undermined and their anticipations "crushed."—*Post.*

☞ Paris letters say the Empress has already transacted business, and was to hold weekly reviews of the National Guard.

The New York Post—er says—"Young ladies, with pretty eyes, are allowed the use of the lash, so long as it has no *not* on the end, and is not 'snapped' too often."

SAVANNAH, May 28.—Capt. Townsend, of the slaver Echo, is acquitted.

☞ The letter of our Boston correspondent was superseded and rendered rather effete, by being a day too late. We can hardly credit that Wendell Phillips invoked the Almighty to *damn* the Commonwealth of Massachusetts—it must be a mistake.

☞ About 600 young ladies were confirmed and partook of their first communion at a Roman Catholic Church in New York, on Wednesday morning. They went in procession to the church, all dressed in white, and enveloped in long white veils.

☞ A woodshed belonging to the Concord, Manchester & Lawrence Railroad, at Bow, was destroyed by fire Thursday night. From nine to ten hundred cords of wood were burned. Insured.

☞ Flora Temple and Ethan Allen trot on the Fashion Course, on Tuesday next, to wagons, for a purse of $2000, mile heats, best three in five. Each have trotted to wagons in 2:28.

☞ The attention of dealers in Skirts is called to the advertisement of a new woven Skirt, for sale by Messrs. C. E. King & Co., 245 and 247 Washington street, Boston.

☞ The Pope is for taking up his residence at Minorca, and wishes the Spanish government to protect him with ten thousand men.

☞ An Irish Judge said, when addressing a prisoner: "You are to be hanged and I hope it will prove a warning to you."

☞ A dairyman at Louisville lost eighteen valuable cows on Wednesday night. They broke into a field of clover, and gorged themselves to death.

☞ There was an extensive fire at Key West on the 15th inst.; 110 houses were burnt, involving a loss of about $250,000.

☞ The Milwaukie News says that since Sickles shot Key, no less than thirty-four men have been shot or shot at by injured husbands.

☞ Rev. C. F. Foster, of the Baptist Society at South Amesbury, has received and accepted a call from the Baptist Society at Biddeford, Me.

☞ The body of young Abbott, the missing student of Bowdoin College, was found in the Androscoggin river on Wednesday.

BOSTON NEW ADVERTISEMENTS.

THE GRIFFIN AIR-LIGHT.

We respectfully announce to the public that we are now prepared to sell State and County Rights for the sale and vending of the above-named light. The Chemical from which the gas is produced was patented March 8th, 1859, and the machine for keeping up a supply of gas was patented March 1, 1859. We will simply say that it is practically one of the *greatest inventions of the age.*

The Light is the

Most Brilliant and Cheapest now Known.

The Machine is simple, compact, and can be managed by a child. It is kept in motion by the power of a Coil Spring, and will run 15 lights 12 hours, with once winding.

Persons purchasing Rights can be supplied with Chemical and Machines without delay.

To remove all prejudice, and counteract false rumors, we unhesitatingly say that the Chemical is

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending on a DEFICIENCY OF VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in the Europe and America, and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, NINETY HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SPECIAL NOTICES.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a widespread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all parts of the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and, though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

POISONOUS INFOCULATION.—Persons who, by accident or otherwise, become inoculated with any malignant disease, will find R. R. R. Radway's R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from current humors, whether the same be generated within the system from neglect or ill-treatment, or inoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering to be poisoned, who have for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe pains in from twenty minutes.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic for public use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by the physicians among cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles's rapidly approaching, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the North-ern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-five cents, by all Druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

CANDIA BRANCH RAILROAD

Is the most important topic that will come before the Legislature this season. It is one to which not merely and Manchester and Portsmouth and the towns between attach great importance, but may give a great direction to much of the business of the State that connects itself with railways. The *cheapest* way of reaching a *seaport* is *the* important point now with the farmers, the mechanics and manufacturers of New Hampshire. If this branch was built, it is probable, and almost certain that all the heavy articles, coal, cotton, sugar, molasses, lime cement, moulding sand, iron, machinery, used in Manchester, and the manufactured goods returning, would come or go through Portsmouth, instead of Boston, giving such a surety to the merchants and shipping interests of that wealthy city that they would be enabled to furnish all these articles as low as they can be bought in New England's metropolis, for the trade over the Northern, Montreal, Central and Contoocook railroads, and others connecting with them to the Canadas.

The distance between Portsmouth and Manchester is only three-quarters as great as between Manchester and Boston, and, of course, the Portsmouth road could *afford* to do it *cheaper* than the lower roads. Besides, at Portsmouth, 25 cents a ton would be saved in trucking. If heavy freights would naturally come by Portsmouth, the question arises why the united roads, Concord, Manchester & Lawrence, for they are by lease virtually united, favor the branch, which is to take away some of their business? The answer is plain enough to all posted in the matter. These two roads have a lease of the Portsmouth road, for a trivial sum—they have to run the road, and if the branch was built they could have the whole benefit of the business, without paying away a part to the lower roads. They would be deprived of no business, but do it another way at a larger profit.

Moreover, it would benefit the roads in another way, and every far-seeing stockholder knows it. It would immensely increase the business of the united roads and the Portsmouth. It would make the means of transit cheaper, open new lines of communication, make the most direct route from Portland to New York, and tend to double the population of Manchester and Nashua, and greatly benefit all the towns along the line. Railways must help build up the places through which they pass, and those in the interest of the lines here are aware of that fact. In the long run the lower roads would have no reason to complain, for Boston is the great centre to which all New England travel tends, and what is lost on heavy freight would be more than made up by passengers and increase on lighter freights. A shrewd business man resorts to no temporary expedients, but looks well to the future. So it should be with railroads.

In this flood-tide of success of the Concord and Manchester & Lawrence roads, they should guard well their metes and bounds, and when a good opportunity presents, as it now does, it is proper that they should take an independent position and have a free outlet. There is trouble now between them and the lower roads, and without looking at the merits of the case, it is unquestionably their interest to build the nine miles of road, and give them a level of power that will benefit them and all New Hampshire.

The insinuation that those roads have a sinister motive in pretending to favor the branch, seems to us without foundation.—These two roads are demonstrating what it would cost the friends of the new road thousands of dollars to do, that the thing is practical. They say they want it, will build it if they can get a charter—will help get a charter. With their opposition we have not been able to get a charter lately, and if we could, who would build it? Let us take them at their word, get a charter and see if they will build it. Then we shall have a charter any way, what we all so anxiously seek. But there are many people who are like the dog in the manger, who would neither eat hay nor let anything else eat. They have a chronic dislike of corporations, look with an evil eye on every new move, believe verily, that whatever is started by a man or corporation in their midst is all wrong. If the Maine or the Montreal road should propose to build the Branch, they would fling their hats high in air in exultation, no matter how absurd the idea, but when every mill in Manchester, every business man and the railroads centering here want it, they shake their wise heads and cry out "a snake in the grass!"

Let New Hampshire look to her present interests, from present stand-points, and not wail over Sodom and Gomorrah. The Nashua, Lowell & Boston and the Boston & Maine have joined hands, and Manchester and all New Hampshire are at the mercy of roads beyond our control. A Candia Branch makes competition, and competition is what we want. We have not time to tell how or why. Let us take these roads at their word, and not only let them have the charter, but encourage them.

THE CANDIA BRANCH.—Speaking of it, the Great Falls Advertiser says:

If that would be of any advantage to Portsmouth or to other towns in this State, let it be done, although Portsmouth has forfeited all claim to sympathy by rejecting opportunities long since, when she might have "made her Jack" and been in the front rank of New England cities. But if there are any descendants of those old fogies who would embark in any enterprise that would redound to their benefit, we bid them God speed.

☞ Is it a fact that we are to have a large delegation of citizens to escort our honored and honorable fellow-townsman to the Governorship, at Concord, next Thursday? And is the Band to go? It is time these questions could be answered definitely, in the affirmative. There are plenty who will go, if proper arrangements are made. Who will see to it?

☞ We are authorized and requested to announce that the crew of the U. S. ship Dale, will be paid off and discharged this (Monday) morning, at 10 o'clock, in the Purser's office at the navy yard.

☞ Remember the exhibition of the Burning of Moscow, with other attractions, is to open at the Temple this evening.

WASHINGTON NEWS.—*New York, May* 28.—If was decided in the Cabinet to-day to supercede Postmaster Westcott of Philadelphia. Mr. N. B. Browne will be his successor.

There are but $5,000,000 subject to draft in the Treasury, which is barely the margin required for working monthly. Large sums in Treasury notes are coming in and being reissued. The amount over due now held by New York would absorb every dollar in the Treasury and require $2,000,000 more.

It is understood here that Jerez, the Nicaraguan Minister, has received intelligence of Walker's meditated foray upon Central America, and that the English and French Admirals upon that coast have instructions to seize him and his followers either ashore or afloat.

CHICAGO, May 26.—A destructive and fatal tornado visited Iowa City on Tuesday last. Houses, barns and everything movable were swept off. The track of the whirlwind was in a southern direction, and it extended 10 or 12 miles before its force was spent. As far as heard from four persons were killed, and twelve badly injured. A family named Morgan, father, son and grandson were instantly killed. The loss by the calamity has not fully been ascertained.

FROM THE PLAINS.—*St. Louis, May* 26. A Mr. James Maginnis, of Lockport, N. Y., who has just returned from the Plains, publishes a statement in the morning papers, denouncing the Kansas gold mines excitement as the most stupendous humbug ever perpetrated upon the American people. He says it was gotten up by land speculators, and sustained by parties interested in frontier towns, and merchants with heavy stocks of goods on hand. The statement of Maginnis is corroborated by another—Mr. Van Ness, of Jackson, Miss.—who positively asserts that, after prospecting throughout the whole county, and visiting all the claims and diggings, he saw no man who had made more than twenty cents per day, or found dirt yielding more than one cent per pan.

DUBUQUE, IA., May 27.—Odd Fellows' Block, which included the Post Office, U. S. Land Office, the Odd Fellows' and Masons' Lodge Rooms, the People's Theatre, and several stores and offices, were destroyed by fire last night. Everything in the Post Office and Land Office was saved.—All the property of the Odd Fellows and Masons was destroyed. Loss $50,000; insured $10,000.

FROM UTAH.—*St. Louis, May* 27.—The Utah Mail of the 6th inst. has arrived. Superintendent Forey had reached Fort Fillmore with sixteen children, survivors of the Mountain Meadows massacre.

The death of Lieut. Potts is announced.

There was no further disturbance among the Mormons.

THE KIDNAPPERS.—We noticed, on Thursday, that two men—the captain and mate of the brig Robson—were held in the Police Court of Boston, in heavy bonds, to answer to the charge of kidnapping.—The facts as reported in the Boston papers are these.

Shortly after the brig left Pensacola for Boston, Orlando, the mate, (the captain had left the vessel and came to Massachusetts) found that a fugitive was secreted in the cargo and supplied with food by the crew. He had him brought forth, when he gave his name as Columbus Jones, and said he never would go back into slavery alive. He was put in close confinement; but in a few days was missed, and the idea given out that he had jumped overboard. Thinking him still in the hold, Orlando caused the hatches to be fastened down, so as to shut him off from food and water, when at the end of one day he made a noise and revealed his place of confinement. A second time he was put in irons; and these being broken, he was chained to the caboose, and there remained till the vessel touched at Hyannis, when he attempted to escape, but befor he could get away, or the people discover his condition, he was put on board another vessel and hurried back to slavery.

Such action is punishable in Massachusetts with confinarment and hard labor in the State Prison. The case will be tried in Barnstable county, in September.

☞ The story goes that Napoleon III. means to demand the remains of his cousin, Napoleon II., which sleep in Austrian earth. He ought to have been thankful to the Austrians for having disposed of that cousin, for where would *he* have been had Napoleon II. been alive and flourishing in 1848?

GOOD FOR KIDNEY AND BLADDER COMPLAINTS,
and as a Beverage it has no super in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.
D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatory of Madrid, and of Practical Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present M. M's Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometer. By the distillation in a balnium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometer; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not coil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of pure alcohol of 20 degrees of graduation in Cartier's alcohol weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifling aromatic, with flavor of vanilla, but is so wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracher have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so.
JOSE LUIS CASASECA.

Continued from First page.

If it be true that slave property is by any fundamental law placed above other species of property, to the extent that an organized Territorial Legislature cannot abolish or modify it, and if the people of the Territory seek to do by indirect means, (such as a refusal to afford the special protection which it must have,) what they cannot do by direct legislation, then it is certain that Congress should pass laws, and take all needful measures to secure protection to that species of property. Where there is a right there is a remedy. If it be a constitutional right to hold niggers in Territories where neither public sentiment nor local law authorizes the act, then it is imperatively the duty of Congress and the National Executive to interfere, and apply the remedy by securing it that protection which the interests of the institution require. This is a logical and a legal deduction from the premises now assumed by the Administration organs. It is idle to talk about slave protection by the Judiciary, the favorite scheme of "The Constitution" newspaper. In the event of slavery destruction by non-legislation, that branch of the government can grant no aid; it may decide, or rather the Judges may argue that the Territorial Legislature ought to pass a Slave Code, but it could not convict for contempt of court the free citizens who might snap their fingers at the learned gentlemen in long robes. Even in the event of positive laws modifying or forbidding slavery under pains and penalties, taxing two-legged animal property at such rates as to discourage it, discriminating against slaveholders in the bestowal of the elective franchise and eligibility to office, or in a thousand other ways which readily suggest themselves, rendering all attempts to introduce and successfully establish the obnoxious institution, a dead failure;—even in this event, what could the Supreme Court do to conquer the will of the people? Very little, indeed. Its protection would be a ridiculous farce Nothing short of federal bayonets could overthrow the practical operation of Popular Sovereignty. If the people of a Territory do not want slavery, *they won't have it*, and the sooner the Administration, the Southern Democracy, Supreme Court, and all concerned give up the game, the better for the party and the country. And especially, the sooner James Buchanan comes to the conclusion that he has sufficiently punished and prostrated the Northern Democracy, and calls off his noisy dogs, and puts them in the dirty kennels where they belong, the sooner will the prospects of Democracy begin to brighten. If the old gentleman has no further regard for the party which has given him its highest honors, "a decent respect for the opinions of mankind" in general, ought to be sufficient to restrain him from any further inconsistencies and absurdities upon the African question.

From the N. H. Gazette.

Turn to the Fathers.

We hear a great deal of late from the eulogists and apologists of an attempted treachery to the Democratic creed, about the binding effect of the "Dred Scott decision," and what an awful thing it would be for the Democratic party to fail of obeying all the mandates of the Supreme Court, & endorsing all its political decisions, without discussion. We have a pretty high respect for that tribunal while it confines itself to its legitimate work, but when James Buchanan or any lesser light would sacrifice the platform of the Democratic party, and erect in its place the idle and gratuitous *obiter dicta* of the Bench, we are not quite so much of a Pagan as to bow down and worship the graven image. When the Supreme Court tells us that the right of self-government is a gift from Congress to the people, or that the Constitution legalizes, establishes and enforces slavery in any portion of this Union against the will and despite the efforts of the people thereof, then we shall be satisfied that the time has come to wipe out "the sappers and miners of the Constitution," or, at least, to check their audacity by a wholesome discipline.

If we remember right, there was a man in the olden time named Andrew Jackson, who was a member of the Democratic party in good standing. We are not aware that he got himself "outside of a healthy political organization," notwithstanding he never counselled violation of Democratic faith, and the substitution of Supreme Court arguments, opinions, and rulings in place of popular principles. To show that this old Democrat did not go quite so far in his idolatry of the Supreme Court, as Democrats in good standing at Washington are now expected to go, we present an extract from his veto message of the United States Bank, which institution the Court had pronounced constitutional:

"If the opinion of the Supreme Court covered the whole ground of this act, it ought not to control the co-ordinate authorities of this government. The Congress, Executive and the Court, must each for itself be guided by its own opinion of the Constitution. Each public officer who takes an oath to support the Constitution, swears that he will support it as he understands it, and not as it is understood by others. It is as much the duty of the House of Representatives, of the Senate, and of the President, to decide upon the constitutionality of any bill or resolution which may be presented to them for passage or approval, as it is of the Supreme Judges, when it may be brought before them for judicial decision. The opinion of the Judges has no more authority over Congress than the opinion of Congress has over the Judges; and on that point the President is independent of both. The authority of the Supreme Court must not, therefore, be permitted to control the Congress, or the Executive, when acting in their legislative capacities, but to have only such influence as the force of their reasoning may deserve."

It is said that this tribunal will pronounce Popular Sovereignty unconstitutional. Well, what of it? Will the Democracy yield the point, and accept political instruction from seventh rate politicians in silk gowns, or shall we do as our fathers did, elect men who will "swear to support the Constitution as *they* understand it," and so preserve our liberties from the fell designs of the "sappers and miners of the Constitution," as Jefferson so appropriately termed them? We trust the Democratic party is not yet so thoroughly *Federalized* as old Sarcophagus imagines.

FIRE IN ALTON.—The dwelling house occupied by Mr. David Bennett, at Stockbridge's Corner, in Alton, was burned down, on Friday night 13th inst. The fire was discovered about ten o'clock, and spread with such rapidity that only a part of the contents of the house were saved. It is supposed to have originated from a defect in the chimney.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed exclusively for females. It has prepared from an Indian plant, which from time immemorial has rendered *parturition* among the native so easy, and is now for the first time offered to the public. The same and virtues of the wondrous plant was recently obtained from *Sheanah-ah-ah*, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours*. This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times. ☞ *Remember! This is the only medicine of the kind that is warranted in all cases; nine other is worthless and confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.

PREPERED BY DR. SANFORD, *COMPOUNDED ENTIRELY FROM GUMS*, is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well. PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve a stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and gives easy operation.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & FOWL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty and mildness, and are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony to its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 585 Broadway, N. Y.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to be known their situation, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are pronounced by them as quite incurable.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

The medicines can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in curing all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name, they are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

The Dr. would caution the public against the purchase of any of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

☞ Pamphlets sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—Ladies can be accommodated with kind and attentive nurses if they wish, at a reasonable rate. j3 diy

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything transacted with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send money for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State. All Lotteries will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after receipt of order.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,

Wilmington, Delaware.

Or to WOOD, EDDY & CO.,

Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT SEALED ENVELOPE," with STAMPED ENVELOPE, or the Express Company cannot receive them.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads. Removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop the hair from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week; it will never fall of turning gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of those who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial all I have to add, other proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to call for further proof, who are in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance; my scalp is free from dandruff and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for some years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find I shall have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself wonderfully beneficial to my hair, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever; and think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar a bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES in curing Piles and the agony of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generosity in placing upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the Forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with Bleeding Piles, Inward RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportion, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck, BURRILL & HUNTING, SOLE PROPRIETORS,

No. 6 Tremont Street,

(Two doors south of Court st.,) BOSTON.

Will be found at all Apothecaries and Family Stores in the country. o15 1y

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH.
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!
The use of the Hypophosphites in CONSUMPTION, Scrofula, Imperfect Nutrition, Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE and a
SPECIFIC REMEDY FOR CONSUMPTION.
Dr. Churchill says: "In no single instance have I found the remedy fail to produce every thing that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into consideration the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases in the *third or last stage*, treated at my Dispensary during the past year, NINE HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."
BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY PREPARED and *chemically pure.* My *fac simile* signature is upon every bottle.
☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. Sold wholesale, at the lowest discount for cash, at the Sole General Depot, in the United States, by J. WINCHESTER, American and Foreign Agency, 49 John street, New York.
Also, of F. H. NILES, No. 3 Arch street, Boston, Mass., Agent for the States of Mass., N. H., and Vt., to whom all orders must be addressed.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, as well as in Great Britain, France, and other foreign countries, Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research will be made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE THAN THIS AGENCY; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON.
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proofs of his talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twenty-seven separate applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
R. H. EDDY.
Boston, Jan. 1, 1859. 1yeod

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Anodyne Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those afflicted with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proper form, and at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ills, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M. Beck.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, MAY 31, 1859.

☞ A *Free Trade* correspondent professes not to agree with us on several items about the Pedler law, and says—"But I can agree with you in altering the law so as to make it both liberal and constitutional. I would exempt rather every legal voter and tax-payer, resident at least two years in our city, and license out of State persons at $20 a county, exempting farm produce, neat stock, agricultural implements, fish, and State manufactures. In this way advantage may be realized, and the great evils of pack pedlers might be prevented. The subject is is of some importance, and it affects the interests of many sellers and many more buyers, all of our public houses, and indirectly our traders and farmers."

☞ A schooner of about a hundred tons was launched by Thomas H. Cushing at Dover, a few days since. Fifty years ago, ship-building was an important branch of business at Dover, and vessels of large size were annually sent down the river; but since the establishment of manufactories, and the disappearance of timber from this section, little has been done at it. The last vessel of any size, a ship of some 400 or 500 tons, was launched there twenty-five years ago.

☞ John Langdon was chosen Governor in 1810, (for the 5th time) and in his message that year he recommended a change in the courts, because of delay and expense. The Exeter News Letter, in mentioning this circumstance, remarks that although the courts have been remodelled many times since, no form of them has been quite satisfactory for any long time.

In the English County Courts, 97 cases in 100 are tried by a single judge, though *either* party can get a trial by jury, if he demands it.

☞ The English government has issued a proclamation of neutrality of a most comprehensive character. Meantime, it is taking very decisive measures to place its army and navy on a war footing, and volunteer rifle corps are to be formed all over the kingdom, whether to defend it against an invasion that nobody threatens, or to prepare the way to invade some continental country, the English themselves would be puzzled to say.

☞ The blacksmith shop at the Mare Island (California) Navy Yard, is one of the finest buildings for that purpose in the United States. Its form is an E, the front being 300 feet long, and each wing 200 feet. It will cost when done about $220,000. It will be furnished with 62 forges of the most modern construction. Twelve furnaces have already been put up and are now in use.

The shop has been supplied with a steam hammer, planing machine, lathe, drill and other tools necessary to an establishment of that kind.

Growth of Illinois.—The population of Illinois is estimated by the Chicago Times at 1,720,000. The Times thinks that at the Presidential election of 1864, Illinois will have nineteen electoral votes. She has now eleven. There is no doubt that, in population, Illinois is now the fourth State in the Union. It will be a close run between Indiana and Virginia for the fifth position.

☞ Mr. Burritt Arnold, of Centreville, Warwick, R. I., was shot and instantly killed in his store on Friday, by some person unknown, the ball entering his back between the shoulders. He had just returned from Providence. The perpetrator of the murderous deed is not known. A Providence dispatch of Sunday says:

It is supposed that the reason of Mr. Arnold's murder was his activity in enforcing the law against the sale of spirituous liquors. The coroner's inquest has adjourned to Tuesday. The evidence so far is unimportant, and does not point to the perpetrator.

If the above supposition be well founded, it is one of the strongest possible arguments against that which tempts and drives men to deeds diabolical.

☞ In the Gloucester Police Court, on Monday last, a man named John Tuttle was ordered to pay a fine and costs, amounting to $26, for giving notice of a panorama in four of the public schools of that town, contrary to law, without permission of the teacher or any other person having authority to grant said permission.

☞ Cynthia Sanford, a young female equestrian of eleven summers, from Goffstown, attracted considerable attention by the daring feat of riding a horse at a trot up and down Elm street, Manchester, she *standing* upon the horse's back with as much grace and apparently as much ease as the most expert circus performers.

The real use of all knowledge is, that we should dedicate that reason which was given us by God, to the use and advantage of men.

☞ We have London dates to May 17, via New York.

No battle had been fought in Italy up to the 6th.

The Emperor Napoleon and the King of Sardinia had fixed their headquarters at Alessandria, and had already arrived there.

All Sardinian vessels in Austrian ports are to be seized. All Austrians were withdrawn from Bobis.

The inhabitants of Canobia had resolutely refused to supply the Austrian frigate Adeski with provisions, and she was obliged to sail without them.

Many failures are reported on the Continent and London Stock Exchange. Messrs. Creswell & Co., Birmingham, have failed.

The large firm of Dutterforth & Co., which has stopped payment at Trieste, is wholly unconnected with a house of a similar name at Hamburg.

The Birmingham iron trade, notwithstanding the recent symptoms of resuscitation, continues much depressed. Greswill & Sons of Tilton, stopped payment, and their obligations are said to be to a large amount.

An American review of the probable effects of the present European complications on the shipping trade, is given in the following extract of a circular, issued a short time back, by Oakford & Co., a firm in London, connected with the United States:

The effect of the Italian war upon the shipping interests is anxiously discussed, and it is admitted that American ships will have a decided preference on long voyages, especially for return cargoes from India, China, and Australia. The wisest and best informed are powerless to predict whether three months hence England will be at peace or war, and as cargoes shipped from India under orders transmitted to-day cannot reach Europe in less than six months, the risk of sending them in British bottoms must be considerable. The return trade from Australia, must for a time pass into the hands of Americans, especially for shipments of gold. Many inquiries are already made for American ships to load in the East Indies.

The Paris correspondence of the London Times says the confidence in the success of the army in Italy is so great that preparations will soon be made at Notre Dame for the Te Deum, in thanksgiving for a great victory. It is expected to be announced next week.

☞ Derby & Jackson, New York, will publish June 4th, two new books by Henry Ward Beecher: "Plain and Pleasant Talk about Fruits, Flowers and Farming;" neat 12mo, $1.25; It will no doubt be news to many that, to Beecher's wide reputation as an orator, preacher and writer, must be added that of a practical farmer, gardener and fruit-grower; for such he is and has been—but *the book speaks for itself.*

Also, "Views and Experiences of Religious Subjects; or New Star Papers." Neat 12mo, $125. This volume contains, among other interesting matter, the celebrated "Theodore Parker" articles on total depravity, and the now famous speech before the (Boston) American Tract Society, in answer to Daniel Lord, Esq., thoroughly revised by the author.

Legacies.—By the Will of the late Charles F. Hovey, his estate is to be appropriated as follows:—To his wife, $50,000; to each of his four children, $17,000; to William Lloyd Garrison, Henry C. Wright, Parker Pillsbury and Stephen S. Foster, $2000 each. The balance of the estate which is supposed to amount to $40,000 to Wendell Phillips, Francis Jackson, to William Lloyd Garrison and others, for the benefit of the Anti Slavery, Woman's Rights and Non-Resistant Societies.

Some of our officers are about to visit Europe, for the purpose of seeing the warlike actions of the French, Austrians and Italians, and so improve themselves in the grand art of scientific slaughter, the oldest of all arts, and not likely to be a lost art so long as human nature shall remain what it is—a rampant, fighting, destructive nature, with a decided tendency to evil.—*Ex.*

THE GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

Celebrated Family Machines,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Portsmouth, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher comfort, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never know a Grover & Baker to be discarded or found wanting.

Frank W. Miller.

Portsmouth, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. Allen & Paine.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

Hostetter's Bitters.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and, though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

Charles's London Cordial Gin.

The Original and only London Gin Imported.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, has declared that Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—None other is Imported.

WANTED

A Lady of good recommendation would like a situation in a Store where other ladies are employed. Please address Greenland P. O. P. M.

LOCAL.

☞ We learn that a half-fare train will run to Concord and back on Thursday, leaving the depot in Portsmouth at half past 7. Fare only $1.50 for both ways.—We hope the Portsmouth Band will accompany the delegation from this vicinity—which should be large. Besides the courtesy due to our worthy, public-spirited and distinguished fellow citizen—this affords a rare opportunity to visit the interior of our State, on a most interesting occasion.

A large delegation from Epping and Exeter will attend, accompanied by the Epping Band.

BAD MANNERS.—*Messrs. Editors*:—A remark of the Great Falls Advertiser, on the Candia Branch, seems to me in very bad taste. The remark is this:

If that would be of any advantage to Portsmouth or to other towns of this State, let it be done, although Portsmouth has forfeited all claims to sympathy by rejecting opportunities long since, when she might have "made her Jack" and been in the front rank of New England cities.

The editor who flippantly wrote such things as these probably does not know that Portsmouth people, and others along the route invested very large sums of money in the capital stock of the Portsmouth & Concord Railroad, for which they never received any dividend, and now can never receive any!

That monied men here (as well as elsewhere) have made mistakes in investing their funds, is quite probable. Indeed I have heard that some of them invested money in factories at Dover, Great Falls and elsewhere, which did not turn out to be profitable. I never supposed this mistake would deprive them of editorial sympathy in a quarter so important. A. B.

Messrs. Editors:—The Journal of Saturday last has the following notice under the head of "The Legislature."

"Abner Greenleaf of Portsmouth will be the oldest Representative both in age and in membership, he having been a member of the House 33 years ago, and President of the Senate thirty years ago."

There is a trifling mistake of ten years in regard to Mr. Greenleaf's membership. He was a member for the first time in 1816, which is 43 years ago. Whether his age exceeds that of any other member elect, the writer of this has no means of knowing. Mr. Greenleaf is now in his seventy-fifth year.

☞ The Bridewell at the end of the Brick Market is undergoing repairs; which were much needed. To accommodate an increased number of patrons, two spacious and substantial cells have been added, making in all, seven cells in the building. It will also be thoroughly cleansed and white-washed, which will probably diminish or destroy the unwholesome effluvia that has formerly characterized the place.

☞ We have a final letter, before the Legislature meets, from our Concord correspondent, reiterating his assertions of the insincerity of the Railroads in talking of building the Candia Branch—and arguing in refutation of the articles we have published from the Manchester Mirror and our correspondent "A. B." We have given both sides a pretty full hearing—and prefer to wait and see what we shall see, rather than discuss the matter further at this time. Facts are what we want—opinions, however well matured, are comparatively of little value.

☞ Thursday of this week, June 2d, is Ascension Day—and services will be held in the Stone Church on Thursday evening, to take the place of the regular monthly Friday evening lecture. On this occasion, Rev. Dr. Burroughs will preach the sermon.

☞ The Rockingham Conference of Congregational and Presbyterian Churches will meet on Tuesday, June 7, at 10 o'clock, in Derry, with the first Congregational Church (Rev. E. G. Parsons) and continue two days.

☞ The sun shone brilliantly into the room where Humboldt died, and it is reported that his last words, addressed to his niece, were: "How grand these rays: they seem to beckon Earth to Heaven!"

Avarice in old age, says Cicero, is foolish; for what can be more absurd than to increase our provisions the nearer we approach to our journey's end.

Honesty, supported by firmness, is respectability, and whether it appears at the farmer's plough or in the Senate chamber, is as easily recognized and as much respected.

☞ On Sunday, at Exeter, a lad from Canada, named Fisset, aged 19, was drowned in the river while bathing.

THE DOG SLAUGHTER.—So far, 229 dogs have been killed in Boston under the dog law.

Small debts neglected, ruin credit; and when a man has lost that, he will find himself at the bottom of a hill he cannot ascend.

The man who plants a tree little knows what he is conferring on posterity—especially if it is a birch tree.

Lord Brougham defines theology to be, the art of teaching what nobody knows.

☞ Let us have all the light we can get. The Manchester American says, in an article on the pedler law:—

No law of human origin ought to claim perfection. The Pedler law is not an exception; but as it is, it is better than the old one which stood as a dead letter upon the statute books. The new law will no doubt receive the attention of the Legislature the coming session. We would suggest to amend it by simply relieving it of any doubt as to its application to the sale of produce and those articles which enter into the every day necessities of life—and fixing the *License rates* lower. That we need a law restraining the hawking and pedling business within the proper limits, fixing *certain* conditions and imposing adequate penalties for its violations, has been endorsed by our own legislature and the laws of other States upon this matter. We understand that there is a petition in this city that will contain a thousand names of men of both parties *against the repeal* of the Pedler Law.

CAMPHENE AND BURNING FLUID STATISTICS.—E. Meriam of Brooklyn Heights has kept a record of the accidents and deaths in the United States from burning fluids, since 1850, from which it appears that 379 persons have thus met the most distressing and agonizing deaths; and in the same time 477 persons have been so injured by burns, that reports said they were not likely to recover. This makes 856 in this period of time that have come to his knowledge, and it is not likely that he heard of more than half the cases

The losses by fire from camphene and other burning fluids of kindred preparation, within the same term of time, exceeds a million of dollars! A greater sum than all the pecuniary profits ever derived by all the manufacturers engaged in the making of those life-destroying fluids. When we take into account the small number of persons engaged in the manufacture of burning fluids, and compare their number with the great number of deaths these manufacturers have caused, each one's share in the work of death, will be found to have been fearfully great.—*Ex.*

Mr. Douglas has gone South. He has been looking North for some time, but has changed his view. The President is coming to Massachusetts, to visit one of his heart of oak friends at New Bedford. We shall then have a Northern man with Southern principles. We hope he'll visit Boston, where he could have a nice time, and see where Burns was caught, and Shadrach was not.

☞ The Alumni and students of Gilmanton Academy are to have a celebration at Gilmanton, on which occasion Prof. E. D. Sanborn, of Dartmouth College, is to deliver an Address, and William C. Fox, Esq., of Wolfborough a Poem.

☞ The Grand Trunk Company are to transport 2000 hhds. of sugar and molasses from Portland to Montreal, before the first of June, when the new tariff upon sugars and molasses goes into operation.

FISHING.—But one vessel, the schooner Leader, has gone from Newburyport for southern macherel catching, this year. On the first day she reached the grounds, she took forty barrels.

☞ The New York Central Railroad has 220 locomotives, 2000 freight and passenger cars, and takes in $38,000 per day. It is 400 miles in length.

☞ The sloop-of-war Decatur and the steamer Saranac are to have extensive repairs at Mare Island Navy Yard, Cal.

☞ The American frigates Mississippi and Germantown were at Japan, at the latest dates of the news via the New York.

SUSPENSION BRIDGE, May 30.—Cliff Folsom, clerk of the Grand Trunk Railway, was found dead yesterday on the river bank, having fallen from the precipice, a distance of 200 feet.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all the subjects for which I have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN McGAHEY.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR, by the Commissioner of Patents.

"CURE YOURSELF."
DR. GAY'S SPECIFIC MIXTURE, is warranted to cure Gonorrhœa, and other complaints of the urinary organs. In most cases one bottle is sufficient to effect a cure, but when the case is very obstinate, it may require a second bottle to make the cure permanent. The price is only one dollar per bottle.

DR. GAY'S Specific Mixture is a purely vegetable compound, perfectly mild in its operation, pleasant to the taste, and although so powerful medicine, the weakest invalid can take it with perfect safety.

PARTICULAR NOTICE. The only place in Boston where my medicines can be obtained, is at the drug store of GRANVILLE M. CLARK, 180 Hanover street, corner of Salem. Orders by mail or express, sent to the above address, promptly answered.

Spermatorrhœa Rings, for Seminal Weakness, kept constantly on hand.

GOOD FOR FEVER & AGUE.
GOOD FOR KIDNEY AND BLADDER COMPLAINTS,
and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.
UDOLPHO WOLFE,
SOLE MANUFACTURER AND IMPORTER,
DEPOT 22 BEAVER STREET, NEW YORK.

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.
D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsaum maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is indebtedness due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved, contain a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residuum after evaporation by steam, a substance almost insipid and very trifilingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Tresher have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.
HAVANA, JANUARY, 1859.

YOUNG MEN.—At the Universalist Reform Dinner in Boston last week, one of the toasts was—

Our Young Men—May they be true to themselves, true to humanity, true to God.

Rev. A. J. Patterson, of Portsmouth, N. H., responded. He said he realized in part the responsibility of the class alluded to in the sentiment. He then set forth what the young man should be. Such, he continued, sought to make himself wise, upright and good in every particular, guiding himself by conscience and reason. The true young man pursues that course which best secures his self-purification and a righteous life. His motives are good and his aims high. He disciplines himself in all those ways which will best develope his nature, and best subserve his fellow men. The world needed true and faithful young men; those who are active, and can go forth with courage to the labors before them. It is to the young men that society looks for its regenerating power. Let us see to it, said he, that we, as young men, take that course which will ensure the greatest good to all mankind; and regard such as our brethren. It is the duty of young men to thus be true to themselves and to humanity, for they would thereby be true to God. He further remarked that the young were soon to take the place of those that were passing away, and should therefore consider with all the more concern, the necessity of preparing themselves for their responsibilities. He concluded by exhorting the young men to be true to themselves, to humanity, and to God.

A VERY MILD SENTENCE.—In the Municipal Court, Boston, the case of William P. Roach, the keeper of a low groggery in Richmond street, who was tried at the April term for manslaughter, in causing the death of Samuel V. Hunter, was called up for final disposition, Roach having been convicted of assault and battery with a weapon. The circumstances connected with the assault are fresh in the minds of many citizens, who believe the assault to have been one of a very aggravated nature. Judge Morton sentenced Roach to three months hard labor in the common jail, with which the defendant appeared perfectly satisfied, he having evidently expected a much longer term of imprisonment.—*Boston Journal.*

COL. THORNTON'S YOUNG ROMEO.—Last week on Wednesday, this young colt broke one of his fore legs while playing in the agricultural fair grounds, at Lowell, Ms. He was doing well until Monday, when he got out of his gearing and damaged himself beyond hope of recovery, and on Wednesday he was killed. Col. T. was offered $1500 for him a few weeks ago, but would not part with him. He was one of the most promising colts in that region.

☞ The Pope is virtually a prisoner at Rome. He wished to remove to Ferrara, but was politely informed by the French General Goyon that if he was not satisfied with French protection at Rome, the French government would be happy to protect him either in France or Algeria, but did not think it was for his interest that he should trust himself to Austrian bayonets.

☞ Mayor Tieman, of New York, having in vain endeavored for some months to get the Aldermen to approve any of his candidates for Street Inspector, has assumed the duties of that office himself, and resolutely set about cleaning the streets of that peculiarly filthy city. Success to his Honor, and may he escape the cholera.

☞ A law has been passed in France that Protestant churches shall receive no aid from abroad, and Protestant ministers must not only be natives, but educated in France. They are two of the most infamously prescriptive laws ever passed against freedom of religion.

☞ Mr. Lincoln, who made so stout a fight with Senator Douglas, last year, is in favor of fusion, provided it can be made on Republican grounds. He is willing to support a Southern man, but he must be a Republican.

☞ Henry Ward Beecher has purchased 27 acres of land in Westchester County, N Y., paying for it at the rate of nearly $500 an acre, which is pretty large for a divine. Paul could not have done it, by considerable.

☞ The two mesmeric professors at Turin, who advertised to cure all diseases by mesmerism, have been tried, convicted and imprisoned. One of them endeavored, in court, to mesmerize his own counsel, and failed, amidst the laughter of the audience.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females.* It is prepared from an Indian plant, which from time immemorial has removed *parturition* among the natives so easy, and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from *Shawanda*, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours.* This may seem incredible, but if it fails in any case, the price will be refunded.—☞ Purely vegetable and perfectly safe at all times.

☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.

PREPARED BY DR SANFORD.

COMPLETELY CONTROLLING THE LIVER.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

Three Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease and feeting a radical cure.

One dose often repeated will cure CHRONIC DIARRHŒA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

BILIOUS ATTACKS are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One bottle taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One bottle taken after a long sickness will DISPEL by exciting the stomach.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who see it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and inclosing a fee, will receive the medicine by express, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivaled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best pill ever offered.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some pompous or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl2 d1y

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the nutriment of the hair, thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by young men or children times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reason for getting it aside, are not willing to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair has gotten darker and much improved in appearance every way, being glossier and thicker and much more healthy looking. I remain, respectfully, HENRY REEKENS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, ALA., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other patents known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $6 a bottle.

THE RAIN.

"The rain it raineth every day;"
Pleasant words to sing in a song;
But in real life we are forced to say,
It maketh the days seem very long.

This is the merry month of May, [white,
When fields are green, and blossoms are
But the roads are mud, and the skies are
gray;
For it rains by day and it rains by night.

Tulips fresh and hyacinths blue
Side by side on the wet turf stand;
No one stops their beauty to view—
They look like belles in a beau-less land.

And as for the bonnets of pink and green,
They are waiting for sunshine to take the
And many a face of sweet sixteen [field,
Has its heaven with thick clouds veiled.

A TERRIBLE GHOST.—Some years ago, there was a lone house standing by itself, near a plantation, not far from Guildford. This house nobody would ever take because it was haunted, and strange noises heard in it every night after dark; several tenants tried it, but were frightened away by the noises. At last, one individual, more courageous than the rest, resolved to unravel the mystery. He accordingly armed himself *cap-a-pie*, and having put out the light, remained sentry in one of the rooms.

Shortly, he heard on the stairs, pit-pat;—a full stop, then pit-pat; a full stop again. The noise was repeated several times, as though some creature, ghost or no ghost, was coming up stairs. At last the thing, whatever it was, came close to the door of the room where the sentry was placed and listening; his heart, too, chimed in the tune pit-pat, rather faster than it was wont to do. He flung open the door—hurry skurry, bang; something went down stairs with a tremendous jump, and all over the bottom of the house the greatest confusion, as of thousands of demons rushing in all directions, was heard. This was enough for one night.

The next night our crafty sentry established himself on the first landing with a heap of straw and a box of lucifer-matches; soon all was quiet. Up the stairs again came the pit-pat, pit-pat. When the noise was close to his ambush he scratched his match, and set fire to his straw, which blazed up like a bonfire in an instant; and what did he see? only a rabbit, who stood upon his hind legs, as much astonished as was the sentry! Both man and beast having mutually inspected each other, the biped hurled a sword at the quadruped, who disappeared down stairs quicker than he came up.

The noise made was only the rabbit's fore and hind-legs hitting the boards as he hopped from one stair to the other. The rabbits had got into the house from the neighboring plantation, and had fairly frightened away, by their nocturnal wanderings, the rightful owners thereof. The more courageous sentry was rewarded for his vigil, for he held his tongue as to the cause of the ghost. He got the house at a reduced rent, and several capital rabbit pies made of the ghosts' bodies into the bargain.—*Buckland's "Curiosities of Natural History."*

WOMAN'S MISSION.—At the Universalist festival in Boston, last week, one of the regular sentiments was:

Woman's Mission.—That's the question; what is it?

Rev. John G. Adams of Worcester, (a son of Portsmouth,) responded. He said there were some duties he could readily meet; there were others which he could not, because of the magnitude of the subject. Of such was that now placed before him to perform. He should as soon think of answering this important question as of answering the text, "prove *all* things, and hold fast to that which is good." Woman, he continued, was one of the peculiar institutions. Wherever a good work is to be done, there is she needed. The names of Mary, Lydia, Priscilla, Phebe, and Dorcas were venerated in scripture; and in our Revolution what a noble position did the women occupy.

The presence of woman we always need. According to the signs of the times woman is to occupy a much higher position in the future than she has in the past. Whether she shall pay taxes without going to the ballot-box, whether she shall pursue this profession or that calling, whether she shall seek her "affinity" (which she ought before being married) were all questions which it was important to discuss. But whether we are inclined to talk on these matters or not, the progress of woman would go on.

He proceeded to say that no faith addressed itself to woman like that which they, as a denomination, professed. Woman would not be satisfied with any faith short of that which filled the heart with love. It was only in the clear light of Universalism that woman's true destiny could be seen. If our fathers deserve praise, so do our mothers and daughters

The speaker next alluded to the talents of woman in literature and art—to Browning, Fry, Hosmer and others—and said that there was little which they could not achieve when they were allowed the proper opportunities. Their denomination, he said, had a blessed list of women—in our homes, our Sabbath Schools, our seminaries of learning.

He then read from the Ladies' Repository, as showing the high tone and mental muscle the women among us possess. Let us, he said, understand the mission of woman at home, in literature and art, and in the other spheres where her talents can be made productive.

WEDNESDAY, JUNE 1, 1859.

"DUTCH SWILL."—The American contains a notice of the Brewery recently erected in Manchester by W. B. Waite & Co., (Messrs. John Yeaton and W. B. Waite of this city,) and says:

It is a very innocent and healthful drink, made purely of malt and hops. It would be well for this community if this could take the place of the poisonous compounds which are so largely used.

It is bad enough for old fogy and foreign doctors to recommend beer-swigging in respectable families, without having papers like the American following suit. We don't believe a bit in the vile slops—show us any chemical or scientific reason for its use—or the endorsement of a single eminent physiologist or medical practitioner.—Beer turns a man all to pulp—fats him, bloats him—but never increases his muscle, or adds to or improves his brain. Neither do we believe in any morality which is gained by swapping one bad habit for another—any temperance promoted by changing distilled liquor for fermented. The best drink is what Adam used, "without anything in it." Leave ale to go with pipes and sour krout.

☞ In relation to the murder of Mr. Burrill Arnold, at Warwick, R. I., on Friday evening, it appears that a man named James Crowcraft called and presented a paper to Mr. A., requesting him to sign it. This, upon examination, proved to be a petition for the pardon of David Blakey, confined in the jail at East Greenwich for the non-payment of a fine and costs, he having been convicted of a violation of the "nuisance act." Mr. Arnold refused, peremptorily, to sign it, and Crowcraft left. Mr. Arnold took a seat directly in front of a window facing the street, and leaning back, his head was brought within eight or ten inches of the glass. He was thus seated, and had hardly begun talking with a gentleman before the explosion of a pistol was heard, fired by some one from the outside, the balls or slugs with which it was loaded breaking the middle pane of glass and entering the back of Mr. Arnold, between the shoulders. The murderer must have approached from the street close up to the window, and within not more than two or three feet from where Mr. A. was sitting; standing literally over him, and pointing the barrel of the deadly weapon downward.

Gov. Dyer has offered $500 reward, and the Town Council of Warwick has offered $1000 for the arrest of the murderer.

Perhaps Mr. "James Crowcraft" may get the reward, as he doubtless knows to whom he made known the fact that Arnold would not sign the petition. Mr. Crowcraft should be well sifted before the coroner.

Mr. Arnold is represented as a worthy man, charitably disposed, and enjoying the general esteem.

A Providence paper of Monday evening says that on Sunday evening three officers arrested a well known resident of Centreville on suspicion of being the murderer.—He was lodged in jail. Of course the evidence against him, if there be any, is not developed, and his name is therefore withheld. He has been engaged in the liquor traffic until a very late date, and has been very loud-mouthed in his threats against the man who was murdered. It is confidently believed by those best acquainted with the facts, that although he may not have fired the fatal shot, he was certainly accessory to the atrocious crime.

PAY OF THE FRENCH SOLDIERY.—The allowance granted to the French soldiers is no: sumptuous. A recent letter says:—Speaking of the army pay, it is not amiss to mention that the allowance for the keep of French soldiers is six cents for two meals a day. Some of our friends seem to think that these gallant fellows are fed on *pate de foie gras*—or, at any rate, that the barrack cooking is quite artistic and delicious. Now the fact is simply this: French soldiers in garrison have, every day of their lives, two basins of soup, with the strings in it which they call meat, and perhaps a few bits of onion or vegetable by way of giving it a flavor. Besides this, each man has 1 1-2 lbs. of coarse bread—nothing more. When on service they have a little wine; but otherwise, except on grand occasions, such as a review, they have none, nor any spirits, beer or coffee.

☞ A letter from Rome, dated April 26, says that "our countrymen and other strangers sojourning temporarily in Rome, have become very much excited and alarmed by the news of the war, and are scampering away as fast as they can. The Grinnells went on April 25; Mr. Harry Stone on the 26th; and ex-President Pierce departed on the second day of Holy Week."

☞ Rev. Mr. Wood, now in China, writes to the N. H. Patriot that a laboring man in the interior of China can live comfortably on food costing *one cent per day*.

THE ZANESVILLE RESCUE CASE.—A writ of habeas corpus having been granted in the case of the negro Johnson, concerned in an attempt to rescue a fugitive slave at Zanesville, Ohio, a short time since, the Cincinnati Gazette says the following instructions have been received from Washington by the marshal, from United States Attorney General Black, directing him to retain possession of the body of the prisoner, *at all hazards*; that if a writ of habeas corpus from the State Courts is served upon him, to obey it so far as to appear in court with all the papers connected with the case, showing by what authority he held the prisoner, but *not* to take the latter before any of the State Courts, upon an order made by them. The Marshal is advised that if he should be attached for contempt, to report at once to the Department at Washington, and ample protection will be afforded.

And so we have "nothing to do with slavery,"—have we? And the *finality* of 1850 lasts a long while—but it brings many more finalties with it.

☞ In Boston, on Sunday evening, a Scotch sailor aged 19 years, named Michael Caffrey, stabbed an English sailor, William Hodge, aged 23 years, and the wounds are likely to prove fatal. They boarded together in Moon street, and had been on good terms; but Hodge being badly intoxicated assaulted Caffrey, when the latter stabbed him in self-defence.

☞ Thursday night a large barn and its contents at Epsom, N. H., belonging to Mr. William Goss, was consumed, together with one fine yoke of oxen and seven cows.—John Emery, an intemperate man and an inveterate smoker, is thought to have gone into the barn and accidentally communicated the fire to the hay with his pipe.

☞ In the Court of Common Pleas at Newburyport, on Monday, William P. Shute, Alonzo M. Shute, and William A. Snell of Haverhill, were brought into court upon a capias, and plead not guilty to an indictment found against them for being connected with the bogus Art Union Lottery. Wm. P. Shute was ordered to recognize on two indictments in the sum of $12,000. Snell in the sum of $7,000—Alonzo M. Shute in the sum of $4000.

Martin Wayland plead guilty to keeping a disorderly house, and was sentenced to six months hard labor in the House of Correction at Ipswich.

William H. Thompson of Newburyport, for a violation of the liquor law. Sentence deferred in consequence of sickness.

John P. Boynton and Charles L. Parker of Salisbury, plead guilty of larceny.

DEATHS FROM JOY.—Mrs. Young, an English lady of high social position, died under the excitement produced by receiving the joyful intelligence of the election of her nephew to the House of Commons.

The wife of a sea captain in England lately died from joy, in consequence of the return of her husband after an absence of seven years.

☞ J. E. Tilton & Co., of Boston, have just published two new books, viz:—"Lectures on Theology, by Rev. Dr. Bennett Tyler, D. D.," and a work entitled "Eschatology; or, The Scripture Doctrine of the Coming of the Lord, the Resurrection and the Judgment, by Samuel Lee."

Dr. Tyler's lectures, eighteen in number, are accompanied by a memoir by Rev Nahum Ga, D. D. Pres. Tyler is well remembered in New Hampshire, as President of Dartmouth College.

Mr. Lee's book, as we learn from the Transcript, presents novel views on the resurrection, judgment, &c.—corresponding, as we think without seeing the book, in some respects with Rev. Dr. Bush, and in others with Prof. Crosby. The Transcript says:

Mr. Lee, basing his positions on a strictly critical and exegetical use of the original text, (the Greek being printed in parallel columns with the English, for the convenience of the scholar,) takes the ground that death is but the natural transition from the animal to the spiritual world; that the investing with the spiritual body, or the resurrection, takes place at death, and that the judgment is an associate event. These positions are maintained with ability, and conflicting, as they do, with long established opinions, will undergo severe criticism.

Thinkers will want the book, and give it a thorough reading.

☞ The American Unitarian Association, Boston, are about to publish a valuable book entitled, Studies of Christianity, or, Timely Thoughts for Religious Thinkers. A Series of Papers, by James Martineau. Edited by William R. Alger.

The Introduction, from Mr. Martineau's writings, is already printed, and contains many valuable thoughts.

Mr. J. H. Foster will have the work, as soon as published.

☞ The Phrenological Journal for June, contains portraits of Burns, of Charles F. Hovey, the benevolent merchant who lately died in Boston, and of Major Serrell, the distinguished engineer and bridge builder, with appropriate sketches of biography.

THE GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

SPECIAL NOTICES.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't. Get the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. W. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m22

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenoe.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of CASES—fancy and and plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the R. R. R. Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humours, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent date—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of Imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pocker, 20 Elm st.; J. Morton, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Deland & Snow, 24 Elm st. and others In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

A Lady of good recommendation would like a situation in a Store where other ladies are employed. Please address Greenland P. O. P. M.

LOCAL.

☞ A special train on the C. & P. Railroad, is advertised for Concord, Thursday morning. We learn that some public-spirited citizens are making arrangements to take the Portsmouth Band, which we trust will be done. Nothing but foul weather will prevent a very large gathering at Concord; and Portsmouth ought to be well represented. See to it, Republicans—see to it citizens, all.

☞ The Messrs. Goodrich are digging and cleaning away the rubbish of the late fire at the corner of Hanover and Market streets, and are laying the foundation of new storest o replace the former McIntire block.

On Tuesday the workmen dug out a human skull, well blackened by time or otherwise, which has probably lain there for many years,—but exactly when or how it came there, is not known.

☞ Exhibition of the 'Burning of Moscow, and other attractions, at the Temple, this (Wednesday) afternoon and evening. Last chance. Don't miss it, and be sure and take or send the little folks.

☞ Five whaleships returned to the port of New Bedford on Saturday, after an absence of from four to five years each, all of which have made losing voyages, amounting to an aggregate of $75,000 to $80,000. This ill success is owing to the small catch, heavy expenses incurred in fitting and recruiting during the voyage, and the reduction in the price of oils. Another whaler arrived Sunday has had no better luck, the whole six ships having made losing voyages.

☞ Lawrence Bauman and Miss Banuts, Germans, living at Edwardsville, Ill., were engaged to be married. They went to a ball, where Miss B. danced with other parties. Bauman expressed displeasure at this, and Miss B. started for home. Bauman followed her, and on getting into the house, told her that she must die, and grasping her by the throat, choked her to death, as he supposed. Then he got a pistol and shot himself dead. The girl revived, and will probably live.

☞ Parisians notice a difference between the males and females of the numerous Chinese who have lately migrated to the gay capital. While the *men* pertinaciously adhere to their unsuitable and inconvenient costume, the *women* adopt curls and crinoline, after a very short residence in the strange country.

☞ The Boston correspondent of the New York Tribune says that of the 15,000 votes against the Two Years Amendment, probably 9000 were cast by Republicans who were opposed to it on principle or for political reason; from 2000 to 3000 were cast by native-born Democrats, and the remaining 3000 to 4000 by Irishmen.

☞ In Bath, Me., notes and demands to the amount of $18,300, a portion of the assets of an assigning debtor, were sold at auction, for $112. None of the demands were barred by the statute of limitation, though probably a very large proportion are barred by the more unbending law of inalidity.

☞ A Turin letter asserts that Kossuth is secretly at work in Sardinia, holding communications by means of emmisaries with a Hungarian portion of the Austrian army—one-third of the whole, and the very troops which formerly defeated the Austrians under his authority.

☞ On Sunday night last, Mr. Rufus Holmes, of Ipswich, accidentally fell into the cellar way, the door of which was open, fracturing his skull. He died at six o'clock Monday morning. He was a single man, 25 years of age.

☞ The son of Mayor Jewett, of Portland, who was injured by falling from the steps of the High street Church, died on Friday afternoon from the effect of the injuries received. He was a bright and promising lad.

Why don't you aim more shots at the republicans and say less of the errors among Democrats? said a friend to us the other day. Why don't a good farmer take more pains to find fault with his neighbor's operations, and less pains to keep his own field clear of weeds? *This* will answer *that.*—*Bath Times.*

☞ On the 7th and 8th inst., there arrived at Liverpool fifty-five cotton-ladden ships from the United States, and ten ships from Bombay. This is said to be the largest number of "cotton-droghers" that ever arrived at that port within twenty-four hours.

☞ On Monday evening, in Boston Dr. Ticknor, who is said to be the strongest man by his weight, was delivering a lecture on the favorite theory of physical training—when he fainted and fell. He began to speak again, but faltered, and the audience dispersed with their tickets or money.

☞ The U. S. ship Minnesota went up Boston harbor, on Tuesday, anchored off Long Wharf, and saluted the town.

CONTROVERSY.—The New York Journal of Commerce has an ultra-orthodox correspondent in Boston, who is quite an able writer. He says:—

Prof. Park is charged with teaching Arminianism, by Rev. Parsons Cooke, a Congregational pastor, and one of the editors of the Boston Recorder. In addition, a series of tracts have been commenced by a company of ministers, in which the new Arminianism held and taught by Prof. Park and others is reviewed. The first tract undertakes to prove that Prof. Park has no right to call his thology that of New England, or of Jonathan Edwards, as he does; and to show this, it quotes from Edwards against the Arminians, Chauncey and John Taylor, and also from Prof. Park's theological lectures, and comes to the conclusion that Prof. Park agrees not at all with Edwards, but almost entirely with the Arminians, Chauncey and Taylor, whom Edwards opposed. The end of this controversy is not yet: and as much as I deplore controversy, and especially in the church, I cannot but believe that it is necessary to promote evangelical truth, that has become greatly endangered in New England.

☞ Auguste Belmont, late Austrian Consul, of New York, has contributed two hundred dollars to the Italian Fund, and accompanied the gift with a letter expressive of sympathy for the oppressed liberals.

☞ The London Illustrated News mentions a rumor that the King of Naples had been dead for several days, but the announcement was withheld for political reasons.

☞ The first lot of new crop wheat was sold in St. Louis, Saturday, for five dollars per bushel. It was raised in Mississippi.

☞ Dr. S. S. Curtis, of Hartford, Conn., has been expelled from the Hartford county Medical Society, for holding consultations in a case of life and death, with "irregular" physicians.

They have no old maids in Japan.—When the girls don't get married, voluntarily, the authorities hunt up a husband for them, and make them marry, willing or not willing. The Japanese know a thing or two if they have been walled in for centuries.—*Ex.*

The Bangor Union has a mortal dread of free negroes, but clamors for free rum until his throat is sore.—*Bath Times.*

A party recently went up Mount Washington, to the Tip-top House. The snow was six feet deep, and the temperature 50 above, higher than at the foot of the mountain.—*Atlas & Bee.*

Why shouldn't the mercury be *higher* on the summit than at the foot—everything else is. Don't you remember the prices last summer?—*Lowell News.*

R. R. R.

A young lady at Stephentown, New York, in the month of June, 1953, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. As a *styptic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent Bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN P. ROBERT.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
R. H. EDDY.

"CURE YOURSELF."

DR. GAY'S SPECIFIC MIXTURE, is warranted to cure Gonorrhœa, and other complaints of the urinary organs. In most cases one bottle is sufficient to effect a cure, but when the case is very obstinate, it may require a second bottle to make the cure permanent. The price is only one dollar per bottle.

DR. GAY'S Specific Mixture is a purely vegetable compound, perfectly mild in its operation, pleasant to the taste, and, although a powerful medicine, the weakest invalid can take it with perfect safety.

PARTICULAR NOTICE. The only place in Boston where my medicines can be obtained, is at the drug store of GRANVILLE M. CLARK, 160 Hanover street, corner of Salem. Orders by mail or express, sent to the above address, promptly answered.

Spermatorrhœa Rings, for Seminal Weakness, kept constantly on hand.

GOOD FOR KIDNEY AND BLADDER COMPLAINTS,

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spirituous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casabeca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsimmaria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 34 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to dilution in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterward becomes very aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Decjet (of Bremen,) as residum after evaporation by steam, a substance most insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Traeber have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with sulphate of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

INDULGENCES.

It is well known to most protestants that the Roman Church grants indulgences, and even publishes or advertises them. But it is not so generally known what they are exactly. The following extract from the Pilot will disabuse many a mind of a prejudice against Romanism, by a plain statement of facts:

In answer then to the inquiry, "What these indulgences are which Pope Pius IX. granted to the members of this society," we say that they are like all other similar favors granted by the Sovereign Pontiffs, to whom alone belongs the power of granting them. And we say that they are neither *permissions* to commit *sin*, nor *pardons of sin* committed or about to be committed;—and we are but repeating a truth which every Catholic believes as firmly as he does the existence of Almighty God, when we say that there is *no power on earth or in heaven which can give leave to commit sin.*—We trust that this will make it sufficiently clear what an indulgence is *not*.

As to what an indulgence *is*, we must premise a few words concerning the Catholic doctrine of sin. The Church teaches us that in sin there are two things—the *guilt* and the *debt of punishment* due to God.—Repentance and confession remove the *guilt*, and likewise the liability to *eternal* punishment; but our contrition is seldom so perfect as to release us from the *temporal* punishment due to sin, which we must discharge by way of penance. Now, an indulgence is simply a remission to the truly penitent, of temporal punishment which remained due to their sins, after those sins (as to their guilt and their eternal consequences) have been remitted by the sacrament of pennance or by perfect contrition. Indulgences are either "plenary" or "partial." A *plenary* indulgence is that which, when duly obtained, releases the whole debt of temporal punishment due for all the sins of one's past life. A *partial* indulgence—that is, an indulgence of forty days, three hundred days, or seven years—is a remission of the *canonical penance* (or of some portion of it) *attached to sins by the Church.* Perhaps we ought to add that the doctrine of indulgences is intimately connected with the doctrine of purgatory, and that the Church teaches that indulgences may be applied (by way of suffrage) by those who gain *them*, to the souls of the *faithful* in that *state of preparation* for the joys of Heaven.

To gain an indulgence it is necessary that a person be in "a state of grace;" that is, he must have been cleansed of his sins by a worthy confession—and a worthy confession implies a sincere sorrow on the part of the penitent for all his sins, and a firm resolution to avoid those sins and the occasion of them in future. Without this condition, there is no such thing as gaining an indulgence. To gain a plenary indulgence, it is likewise necessary that a person should worthily receive the Holy Communion, and make a visit to some church to pray for the advancement of religion, according to the intention of the Sovereign Pontiff.

This is the doctrine of indulgences, set forth as plainly and in as few words as we know how to do it.

MASTERS AND SERVANTS.—When objects are brought too near the eye, we cannot distinguish their just proportions: which we apprehend to be eminently the case with regard to the moral view which we take of our servants. We are so much accustomed to consider them relatively to their and our own respective situations, in that sophisticated convention termed the social system, that we almost lose the power of contemplating them in the abstract as fellow creatures, entitled to the same rights as ourselves, according to the primitive constitution and original intentions of nature; and many there are who look down upon them as an inferior race, expressly created, like the beasts of burthen, that they may perform the drudgery of the upper class.

So deeply is this notion interwoven with the texture of their minds, that men who can divest other matters of their accidents, and look at them elementally, are never startled at the strange anomaly presented by the daily life of a servant. It appears to them part of the established order of nature that beings, often more worthily gifted, both mentally and corporeally, than their masters, should be brought into the world for the use and abuse of an individual whose whole talent is in his pockets; that they should perpetually stand between such a creature and his fastidious wants, render his limbs and faculties almost useless by taking upon themselves the performance of their respective functions; obey his commands by night and day,—however capricious and fantastical; brave the stormy elements in his service while he is either enconsced by his fireside, or lolling in his chariot; stand in his presence prepared to render him a silent obedience; and to be summoned into it whenever he thinks proper to pull a tassel that is kept suspended at his elbow; or sound a tinkling hemisphere of metal that lies ready upon the table to solicit his listless idleness.

This is strange relationship for one fellow creature to bear to another; but it is near and familiar, and therefore it excites no wonder. For our part, we would rather be the sufferer than the perpetrator of such heartless arrogance. The fewer our servants, the fewer are the offenses of this nature for which we have to answer.—*New York Ledger.*

☞ It was supposed that there would be a great battle between the Austrians and the Allies about the 15th of May. That part of Italy where it must have been fought, if the Austrians did not retreat, is one of the most famous fighting grounds of the world, on which have appeared Hannibal, Eugene, Napoleon, Suwarrow, Moreau, Radetzky, and other famous warriors. It is a capital place for fighting and seems destined to witness a battle that will rank, in future times, with those of the Trebbia, of Novi, and of Marengo, whether its incidents or its political consequences.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females.* It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the native so easy, and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from Skowhedo-ook, an Oneida Chief, now residing in Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours.* This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times.

☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the fraudulent pretends of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all, who may order them, provided the true description of the disease be sent by letter and all fees paid.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by regular practitioners, which he cured, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Persons at a distance can be cured by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the risk of destroying what is the great jewel of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and their curative effects are sure and speedy. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impostorious pills now being practiced by designing and spurious artic under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the virtues of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, tetter, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will cool, quiet and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others, I feel it my duty to say as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof if they call on or write of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being soft and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and find that I have a head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $5 a bottle.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females.* It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the native so easy, and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from *Skenan-do-ah*, an Oneida Chief, now residing at Syracuse, N. Y. It is nearly pure vegetable, and free from all injurious properties, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours.* This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times. ☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is equal to it in confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY OF *GUMS.*

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

THOSE GUMS remove one dose often repeated monthly or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the stool, giving one all health to the whole machinery, removing the cause of the disease—dyspepsia, and fleeting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents Nightmare.

Only one dose taken at night, loosens the bowels gently and cures Costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves Colic.

ONE DOSE removes all sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other Foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials herewith given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IN THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, or the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure to them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications on all but one of which patents have been granted, and that one is now pending. Such is mistakable proof of great talent and ability on his part; leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

THURSDAY, JUNE 2, 1859.

ANCIENT MINES IN NEBRASKA.—An interesting discovery of ancient mines has been made in Nebraska, about seven miles from Wyoming. They are the most extensive operations of miners ever discovered on the continent. For miles in extent the whole country is literally torn up and thrown into the most fantastic ridges, hillocks, gutters, trenches, shafts, &c. There are remains of churches, chimneys, stone walls and earth houses, fragments of jugs, glass bottles, and many other things too numerous to mention. Rocks have been drilled and blasted, evidently with some explosive material, stone dressed with the hammer, and every evidence of the operations having been carried on by civilized men. Old California miners, who have visited these mines, say that it would perhaps cost millions of dollars to do the work which has been done there, and the appearance of the surface is similar to the placers of California where the miners have been at work.—What the mineral was has not yet been fully ascertained, but is soon to be tested by parties skilled in metallurgy. It is generally thought that the metal was gold or silver. The mines are so ancient that there are large oak trees growing upon them.—When was this done, and by whom?

ALLEGED ILL-TREATMENT OF U. S. SEAMEN.—The crew of the U. S. frigate St. Lawrence, which arrived at Philadelphia several days since from a three year's cruise, have not yet been paid off, because, says the North American, about half the men refuse to receive their money from the ship, and have gone to lay before the Secretary of the Navy a statement of very serious alleged grievances committed upon them.—They state that revolting punishments have been inflicted—some of their heads were shaved, and that, while suffering from delirium, resulting from the broiling sun upon their unprotected heads, numbers of them jumped overboard. They also complain that they have been unjustly fined in sums which seriously diminish the amounts so hardly earned. For this reason about half the crew have gone in a body to Washington, to appeal to the Secretary for redress.

THE NAHANT HOTEL.—This celebrated hotel will be open for the season on the 15th June. The Nahant Hotel is not surpassed if equalled by any other hotel, similarly situated, in the country. It is of gigantic proportions, and possesses the most liberal accommodations for nearly a thousand guests. The steamer "Nellie Baker" will make four daily trips from Boston to Nahant; or for land conveyance, take the Eastern Railroad, stop at Central Depot in Lynn. The Lynn Bay State says — "Mr. Charles E. Rand, of the firm of Thomas Rand & Sons, of the Sagamore House, Lynn,—a gentleman of courteous and attractive manners and rare accomplishments in his line of business,—will devote his entire personal attention to the Nahant Hotel, aided by the good judgment and experience of his father."

SUNDAY LAW.—On Sunday, Oct. 4, 1857, Charles D. Bibelga, a cigar pedlar, was killed by the falling of an embankment on the Eighth Avenue, near Seventy-seventh st., New York. His administrator brought a suit against the city for the statute penalty, but on trial it appeared that the deceased was on a pedling tour when he was killed, and the Court, holding that he was not engaged in any work of "charity or mercy," dismissed the action after due consideration.

☞ Paul Morphy is the lion of Boston at just this time. The room of the Chess Club on Monday night was crowded with ladies and gentlemen to see him play. Among the spectators were Josiah Quincy, Jr., President Sparks, Prof. Longfellow, Mayor Lincoln, R. H. Dana, Jr., and others; and on Tuesday evening, at the Revere House, a party of 180 guests partook of an honorary banquet with him. The Autocrat of the Breakfast Table (Dr. Holmes) presided and made a speech.

☞ Mrs. Abigail Putnam, wife of Stillman H. Putnam, of Wendell Depot, Mass., recently shot a fish hawk, which measured five feet six inches from tip to tip of its wings. The hawk was fifteen rods from her when shot, and it was the first time she ever "took sight across a gun."

☞ Capt. Hillsburgh, whose recent suit against Commodore Chauncey for libel has gained some notoriety, was arrested in New York, two or three evenings since, for insulting some respectable females in the street.

☞ The New England Female Medical College corporation have purchased, for $50,000, a square of about an acre, on Springfield street, Boston, with a building thereon, which cost $51,000. It will, when improved, be a beautiful place.

A MURDERER RESCUED FROM SLAVERY.—Felix Sauchey, a Cuban, accused of the murder of his father-in-law, Harman Cuman, in New York, on the 6th of January last, has been brought to that city from New Orleans. It appears that after the murder Sauchey fled to Mobile, and was taken to New Orleans as a slave by a man named Nicholas Prieto. Here he was placed in a slave pen for exhibition and sale, but proving unmanageable was sent to prison for punishment and safe keeping. He here asserted that he was no slave, but a white man, and had been kidnapped and sold by Prieto. He was taken before Recorder Wilty, and made a deposition as to these facts, and also that he belonged in New York, and had had a difficulty with his family and had run away. Subsequent investigation proved the truth of Sauchey's statement, and he has been brought home to take his trial for murder. Prieto has been arrested, and at last accounts was in jail at New Orleans, awaiting trial for kidnapping.

PAUPERISM IN LOWELL.—It has been felt as an evil for many years that the out door paupers in Lowell were many of them impostors—and the present Board of Overseers determined to put a stop to it. Upon an investigation of cases, it was found that some of the applicants were not in needy circumstances, some were in the habit of using intoxicating liquors, and other still had money in the savings banks, and nine-tenths of all were aliens, and had no settlement in the city. At a regular meeting of the Board, and after a full discussion of the whole subject, the following resolutions were adopted:

Resolved, That the Committee of this Board on out-door relief be, and they hereby are, instructed to be governed in the discharge of their duties by the laws of the Commonwealth, especially as they relate to the support of State paupers.

Resolved, That the Board of Overseers of the Poor will furnish no out-door relief to those persons who have no legal settlement in this city, unless the circumstances of the applicant have been *examined* and *reported* upon *favorably*, by one or more of the overseers of the poor, or by the master of the almshouse.

☞ Intelligence has been received from Bombay of the death of Sir Jamesetjee Jeheebey, the celebrated Hindoo philanthropist, on the 14th of April, at the age of 76. He was at the head of the native mercantile body of India, and was created a baronet by the British government a few years since. He was also presented the freedom of the city of London. His donations to public objects during his mercantile career amounted to about £300,000, and he bequeathed a large fortune to his family.

RAILROADS.—The Philadelphia Ledger reports the following figures, exhibiting the losses of the great lines of railway that connect with the West during the month of April, as compared with April of 1858.

New York Central loses	$181,000
New York and Erie loses	$177,000
Pennsylvania loses	88,000
Baltimore and Ohio loses	114,000
Total loss	$560,000

These figures show badly for the railways. The losses have two causes; first, the undue competition that reduces freights below a living rate; and second, the reduction of freights, the west having little produce to send east, and the east having a small market for goods west. When the crops come off, if they should be large, business will revive, and the railway receipts increase.

☞ Sentences were passed in the Court of Common Pleas, at Newburyport, on Tuesday:

Stephen T. Call of Gloucester, for an aggravated assault upon Hugh McDonald with a halibut knife, on board the schooner Golden Rule. Sentenced to two years in the House of Correction.

Abraham Norris, for nose biting, five years in the State Prison.

Samuel T. Whitaker of Lawrence, violation of the liquor law. $10 and costs, House of Correction 30 days.

Catherine Egan of Salem, common seller. Six months in House of Correction.

Catharine Lehigh of Salem, violation of liquor law, Fine $10 and costs, and House of Correction 20 days.

☞ In the case of Capt. Townsend, of the slaver Echo, recently tried at Key West, the government failed to prove by competent evidence, in the opinion of the judge, that the Echo was owned in whole, or in part, by a citizen of the United States, or navigated in behalf of a citizen of the United States, and therefore the indictment could not be sustained.

SUMMER CLOTHING.—J. W. Smith & Co., Dock Square, corner of Elm street, Boston, have in store the largest and best stock of ready-made thin clothing to be found in that city; all manufactured from the best materials, in the latest styles, and expressly intended for first class retail trade.

☞ Tristram Silloway, a man about 30 years of age, committed suicide near the the residence of his father in West Newbury, on Tuesday afternoon, by shooting himself with a musket.

☞ The recent letter of Gov. Wise is very bitter upon the President. Gov. Wise, it is known, is an aspirant for the democratic nomination to the Presidency; and in this letter he goes the full length of the new Southern doctrine—a national slave code for the Territories. He says he is for protecting the South "from abolitionists and protectionists, and from land jobbers and treasury robbers," and adds:

And from the treachery of sons of her own, and from the folly of her sincere friends, too, I mean to try to protect her, as I have tried of late in vain. I would protect her from the authors of Kansas-Nebraska bills: from the Freesoilism of Badger amendments; from the effects of repealing laws establishing and protecting slavery in the Territories; from the false protection of non-intervention, withdrawing all pretensions to protect all persons and property equally alike on the common territory of joint settlement; from Lecompton policy that had not the wisdom even of Æsop's cock in the fable; from the compromise of English bills, which stripped us of every particle of prestige we had left; from the wickedness of "force and fraud," and the folly of a minority attempting to establish a rule of *fas aut nefas* in the face of an unscrupulous majority.

☞ A tradition now current in the papers tells us that Washington, when a youth, was rejected by the beautiful Mary Cary of Virginia, because, as her father phrased it, "she had been accustomed to ride in her own chariot." When Washington married the young widow Custis, who resembled Miss Mary as much as one twin sister ever did another, and after he had won fame for himself and liberty for his country, he met his old love, then a young widow, on a public occasion, and bowing profoundly, in recognition, she fainted.

NEW YORK, May 31.—The Sun alludes to a heavy swindle by a clique of Wall street operators through which one of the Western roads has been victimized to a large amount, and one of the oldest of our city banks defaulted of $200,000. One of the parties has been arrested and full developments may be expected soon.

There was a severe fight last night at the St. Nicholas between Col. Titus, the Kansas and Nicaragua hero, on one side, and Capt. Anderson, Gen. Wheat, together with several other Walker fillibusters on the other. Titus it is said was set upon by some half dozen with loaded canes, and very badly beaten.

A despatch from Washington says that the securities of Mr. Johnson in the California Mail contract, have not been received, and a new arragement has been made. It is said the contract has been hawked about New York without finding a purchaser.

PROVIDENCE, May 31.—The General Assembly met at Newport this morning.

There being no election of Lieut. Gov. and General Treasurer by the people, they were elected in grand committee. For Lieut. Gov., Sanders, Am. rep. had 76; Brown, dem. 11; Hill. straight rep, 3. For General Treasurer, Parker, Am. rep. had 76; Newton, dem. 13; Carr, straight rep. 3.

☞ Mr. L. Roberts, a planter living near Elliston, Miss., was waylaid and shot by a man named Holloday, who then fled. The murderer was pursued, captured, taken back and hung by the citizens on the 15th inst.

☞ The Newburyport Submarine Company have another windfall in money for past services allowed them in Portland.—This company is in a good pecuniary condition, the surplus funds on hand to-day being about equal to the whole capital.

☞ It is now certain that Letcher is elected Governor of Virginia by a majority of from 2000 to 5000. The opposition gain two or three Congressmen. The State Legislature is Democratic.

☞ The Catholic Church at Lynn, Ms., was burnt on Sunday night. Insured for $6000, which is about a fair price for it. A stable and shed were also burnt.

☞ The prospects for a large harvest in Oregon are good.

From the Boston Trumpet.

A LETTER TO CLERGYMEN, on the Preservation of Health, and the use of the Peruvian Syrup; or Protected Solution of Protoxide of Iron, as a Medical Agent. Boston; N. L. Clark & Co.

From the statements in the form of certificates contained in this pamphlet, and the names thereunto appended, we feel assured we have in the "Peruvian Syrup" a medicinal preparation to which the world has seen few equals and no superior. For if anything outside of exact science can be proved true by human testimony, the wonderful, the almost miraculous, efficacy of this medicine is established. Private individuals and public functionaries, American, French and Spanish, in both South and North America; clergymen of all sects and denominations, Physicians of the different and hostile schools, engaged in both private and hospital practice; sufferers of both sexes and from many forms of disease—unite in their testimony to the wonderful cures effected by the medicine, the power of which it is the design of this pamphlet to set forth.

We neither know nor care to know, as journalists, the *rationale*, or the *modus operandi* of this medicine—*how* it does its work, or the *reason* why it does it. It is enough for us, who are neither doctors nor patients, to know—as any man may and must know, who will read this pamphlet—that the Peruvian Syrup is no humbug and no sham. Indeed we happen to know this from other sources than this pamphlet. We recommend attention to the pamphlet.

Sch T. R. Jones, Gatcomb, hence, arr at Machiasport 24th.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

Postponed on account of the weather, to Saturday, June 4th, 1859.

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

SPECIAL NOTICES.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a widespread and well merited celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and, though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq Weeks & Potter, Boston, General Agents for the New England States.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandyspeptic, &c., all so compounded as to act in concert with Nature, and their effects is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION, COSTIVENESS, DIZZINESS, HEADACHE, HEARTBURN, PILES, FLATULENCY, WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. S. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

N. B.—I do not charge any more for good Pictures, than is paid every day for poor things.

R. R. R.

A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs, and bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one teaspoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a stypric*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means had were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R. R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians for use in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, and KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles's London Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; H. Davis & Co., 57 Blackstone st.; R. ELECTION AT CONCORD!!

An EXTRA TRAIN will run over the Concord & Portsmouth Railroad,

On THURSDAY, June 2d, 1859,

to accommodate those who wish to attend the inaugural of GOVERNOR GOODWIN; a *Special Train* will leave Portsmouth at 7 30-A. M., arriving at Concord at 10 A. M.

Returning, leave Concord for Portsmouth at 5-15 P. M., arriving at Portsmouth at 7 15 P. M. Tickets to Concord and back, on this train only,

FARE ONE WAY!!

J. A. GILMORE, Supt.

N. H. LEGISLATURE.

Both branches of the General Court met at Concord on Wednesday, June 1, and organized without delay. Hon. Joseph A. Gilmore of Concord was elected President of the Senate, and Greenleaf Cummings of Lisbon Clerk; Wm. A Preston of New Ipswich Assistant Clerk. In the House, Hon. N. B. Bryant of Concord was chosen Speaker, Henry O. Kent of Lancaster Clerk, and Edward Sawyer of Rochester Assistant Clerk. All Republicans.

Gov. Goodwin will be escorted to Concord by troops of friends, and welcomed there by a great concourse, if the weather shall prove favorable to an out-door display. His address will be delivered this afternoon.

☞ The mystery of the skull, which was found in the cellar of the old McIntire block, has been solved. Mr. Wells, who kept a grocery store there, had a clerk, some time ago, who was a student of phrenology, in aid of which he had two skulls; and as they were not very attractive objects he usually kept them in the cellar where this one was found, and where it was probably left by the forgetfulness or neglect of its owner.

☞ The North Church and Parish in this city, have invited Mr. John E. Todd, of Pittsfield, Mass. to become their pastor, at a salary of $1500.—Mr. Todd is a son of Rev. John Todd, D. D. of Pittsfield.

☞ Thursday of this week, June 2d, is Ascension Day—and services will be held in the Stone Church on Thursday evening, to take the place of the regular monthly Friday evening lecture. On this occasion, Rev. Dr. Burroughs will preach the sermon.

☞ There is to be a fine turn-out at Concord to-day. The Veterans take the Manchester Band; the Epping and Exeter delegations take their Bands; and the Portsmouth delegation theirs. Lively music to-day—fall into the ranks. Cars leave at half-past 7.

☞ Should the Governor's address be delivered in season, the Daily Chronicle will be issued this (Thursday) afternoon instead of on Friday morning.

The Weekly will be printed on Friday morning, as usual.

GOV. GOODWIN'S INAUGURAL.—Should the Message be delivered on Thursday afternoon, the Portsmouth Journal containing it, will be then issued, and distributed a day in advance.

Advertisements should be sent in early on Thursday. C. W. B. & SON.

June 2, 1859.

☞ Rev. Mr. Patterson, of this city, is to preach at Rye, (Chesley's Hall,) on the second Sunday in June, at 5 P. M.

☞ In the trotting match between Flora Temple and Ethan Allen, on Tuesday, Flora won all three heats, winning the first in 2:25, which is the best trotting to wagons on record.

☞ The rise in molasses on account of the war, was a mystery, but now appears to have been caused by the demand for *distilling*. The news creates a brisk demand for New England rum.

A MAN should not allow himself to hate even his enemies; because if you indulge this passion on some occasions, it will rise of itself in others; if you hate your enemies, you will contract such a vicious habit of mind, as by degrees will break out upon those who are your friends, or those who are indifferent to you.

☞ In Wilkesbarre, Penn., on Tuesday morning, fourteen buildings were burnt, involving a loss of $80,000.

☞ After the adjournment of the Southern Convention, a society was formed for the encouragement of the slave trade.

The editor of a denominational paper out West says—"A man needs grace to edit a religious paper properly at any time, &c." An exchange suggests that a few brains also are not entirely unnecessary.

BACKBITING.—John Newton said the Lord was pleased to effect conversions and edification by a variety of means, but he had never known anybody convinced of error by what was said of him behind his back.

Young man, in search of business, first choose an *honest* one. Ask not merely is it lucrative, or respectable, or easy, or even lawful, but is it *just!* And shrink with horror from whatever is not, be its prospects or its emoluments what they may. Seek first righteousness, and all else "shall be added unto you."

AUTHORS AND THEIR WRITINGS.—Mr. Saunders, the author of "Mosaics," names the following illustrations of the striking contrast that often exists between the disposition of authors, and the general tone of their productions:—

Burton, the author of the "Anatomy of Melancholy," was extremely facetious in conversation; and the most ascetic poet of our own day, Lord Byron, was one of the most brilliant and humorous associates when he mingled with the world.

That singular writer, Robert Burton, is said, by Anthony Wood, to have composed his "Anatomy" in in order to divert his own "melancholy." So great was the demand for the book, when first published, that the book-seller is said to have acquired an estate by it. In the intervals of his vapors, he was the most facetious companion in the university. When he felt a depression coming upon him, he used to relieve his melancholy by going to the foot of the bridge, and listening to the course ribaldry of the barge-men, which seldom failed to throw him into a fit of laughter.

"The Comforts of Human Life," by R. Heron, were written in a prison, under the most distressing circumstances. "The Miseries of Human Life," by Beresford, were, on the contrary, composed in a drawing room, where the author was surrounded by all the good things of this world. A striking contrast will often be found to exist between authors and their works, melancholy writers being usually the most jocular and lively in society, and humorists in theory the most lugubrious of animals in practice.

A man of letters is often a man with two natures: one a book nature, and the other a human nature. These two often clash sadly.

Homer had such instictive aversion to music, that it is reported he could not be prevailed upon to walk along the banks of a murmuring brook; yet tradition also asserts that he sung his own ballads.

Seneca wrote a praise of poverty, on a table formed of solid gold, with millions let out at usury.

Sterne was a very selfish man; yet as a writer, excelled in pathos and charity. At one time beating his wife, at another, wasting his sympathies over a dead donkey.

Sallust, who so eloquently, declaims against the licentiousness of the age, was repeatedly accused in the senate of public and habitual debaucheries.

Steele wrote excellently on temperance, when he was sober.

Johnson's essays on politeness, were admirable; yet his "You lie, sir!" and "You don't understand the question, sir!" were the common characteristics of his colloquies.

Young, whose gloomy fancy cast such somber tinges on life, was in society a brisk, lively man, continually pelting his hearers with puerile puns. Mrs. Carter, fresh from the stern, dark grandeur of the "Night Thoughts," expressed her amazement at his flippancy. "Madame," said he, "there is much difference between writing and talking."

The same poet's favorite theme was the nothingness of worldly things; his favorite pursuit was rank and riches. Had Mrs. Carter noticed this incongruity, he might have added: "Madam, there is much difference between writing didactic poems, and living didactic poems."

Bacon, the most comprehensive and forward-looking of modern intellects, and in feeling one of the most benevolent, was meanly and contemptibly ambitious of place; and while teaching morals, we find him taking bribes.

Moore, in his "Utopia," declares that no man ought to be punished for his religious belief, yet is he found to be among the active persecutors of the opponents of his own.

Rosseau with the same pen we find giving versions of the Psalms, and the most infamous of epigrams.

And our melancholy Cowper, who passed so many dark days of religious depression, we find devoting the hours of night to the production of the mirth-moving story of "John Gilpin." "Truly," has it been observed, "that chapter which shall have to deal with all the oddities and anomalies of literary life must be long and curious, infinitely various in its illustration, and deep in its insight and its philosophy.

Kind words are looked upon like jewels on the breast, never to be forgotten, and perhaps to cheer, by their memory, a long, sad life; while words of cruelty or of carelessness are like swords in the bosom, wounding and leaving scars which will be borne to the graves by their victim. Do you think there is any bruised heart which bears the mark of such a wound from you? If there is a living one whom you have wounded, hastened to heal it;—for life is short—to-morow may be too late.

THOUGHT AND BEAUTY.—We were speaking of handsome men the other evening, and I was wondering why K—— had lost the beauty, for which five years ago he was famous. 'Oh, it's because he never did anything,' said B——; 'he never worked, thought, suffered. *You must have the mind chiseling away at the features,* if you want handsome middle-aged men.' Since hearing that remark, I have been on the watch at the theatre, opera, and other places, to see whether it is generally true, and it is. A handsome man who does nothing but eat and drink, grows flabby, and the fine lines of his features are lost; but the hard thinker has an admirable sculptor at work, keeping his lines in repair, and constantly going over his face, to improve the original design.—*Home Journal.*

STRAW MATTING,

WOOLEN CARPERT of all kinds.

Which they will offer cheap to reduce stock.

OUR MANUFACTORIES.

The largest week's sales of Capes, Talmas and Raglans of this season, has been the past week at Allen & Paine's. They have been crowded all the time, and have been compelled to increase their help. They can hardly keep enough made to supply their customers. Those splendid shades of *Water Proof Cloth* can't help selling, at such low prices as they furnish them for. It seems as though everybody must get supplied soon. They have probably made and sold more of these goods the past week than all our other Stores together sell through the whole season.

STELLA SHAWLS VS. CAPES.—There has been for the past three years almost a rage for Stella Shawls, and we are glad to learn from large and fashionable places, such as Philadelphia, New York and Boston that the rush is over; in fact, they are not worn at all this year. The new Ladies' Cloth Capes which have entirely superseded them, being much prettier, costing less, and are suitable (for those who cannot afford two garments) to wear through the winter, by putting in a heavy lining, as is done in many instances.

They are certainly the best garments ever worn by the Ladies. As there are but few days in our summer warm enough to wear the flimsy Lace and Silk Mantillas of the Southern cities, we begin to find that money is thrown away in buying them.

We suppose there are a few in Portsmouth (as is usually the case,) who will buy a Shawl this year, but none who have any desire "to keep up with the fashions" will do so; as next year, even in this place, Shawls will look "awfully behind the times," while the Capes will be in the height of fashion,—and one of the Capes of the new *water-proof cloth* can be worn all this summer and winter, and yet look as good as new for next season. Of course, the ladies all know where to get the *best* garments.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

UDOLPHO WOLFE,

SOLE MANUFACTURER AND IMPORTER,
DEPOT 22 BEAVER STREET, NEW YORK.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not sell the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as residue in the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residues after evaporation by steam, a substance almost insipid and very tringly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracher have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

THE GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,
Having greatly increased their facilities for manufacturing their
CELEBRATED FAMILY MACHINES,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYE MACHINE,
PRICE FIFTY DOLLARS.
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?
TESTIMONIALS.
PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.
PORTSMOUTH, April 12, 1859
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAYNE.
Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."
Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."
Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."
Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who will suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
Dr. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of these, he could not distinguish from his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post-paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.
DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS: These pills are unrivaled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, affording relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions and frauds now practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of having the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with full directions. Remember the number—13 Howard street, Boston.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; and also at the roots, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep from falling off; *makes it soft, glossy, healthy and beautiful*, and if used regularly, one or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves!
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reason for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing Manufactory every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS,
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, ALA., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies then known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

TO MARRIED LADIES.

The "*Italian Emmenagogue*" is a new and elegant medicine, designed *expressly for females.* It is imported from an Indian plant, which from time immemorial has rendered *parturition* among the natives so easy, and is now for the first time offered to the public. The name and virtues of this wonderful plant was recently obtained from Sing-ee-do-ah, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for its use, and is warranted to cure any case of female obstruction in *twenty-four hours.* This may seem incredible, but if it fails to do what we claim, the price will be refunded.—Purely vegetable and perfectly safe at all times.

☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none else is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.

PREPARED BY DR SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

is one of the best TURKAPEWE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose taken at night, prevents the effects of intoxication for the next morning.

One dose taken before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. Its operation with certainty, and thousands are willing to testify to its wonderful virtues.

One dose, often repeated, CURES CHOLERA MORBUS and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of MERCURY after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

A dose taken at night, prevents NIGHTMARE.

Dose, one teaspoonfull.

Price, 50 cents per bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Models of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by all not immeasurably superior to, any which can be offered man elsewhere. The testimonials below given prove that more MONEY IS ACCESSIBLE AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MAGNIN,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such a remarkable proof of great talent and ability on my part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his FAVOR, by the Commissioner of Patents.

FRIDAY, JUNE 3, 1859.

GOVERNOR'S MESSAGE.

Gentlemen of the Senate and
House of Representatives:

Having been called by the suffrages of a sovereign people to the Chief Magistracy of this State, for the ensuing political year, I avail myself of this opportunity to express my profound sense of the confidence thus reposed in me; and pledge myself to discharge, to the best of my judgment and ability, all the duties imposed upon me under the constitution; seeking wisdom from all-wise Providence to guide me in the performance of this high trust, and looking to the Representatives of the people, in this Legislature, for aid and support.

The most official means by which the trustees of power for the people can manifest their gratitude or discharge their duties, is by giving practical effect to the representative principle, by allowing the experience and will of the people to shape the legislation of the State.

A frequent recurrence to the only legitimate source of power, is the best guide to the Representative—the safeguard of the constituent.

Under a popular form of government the facility with which modifications of the laws are made tends to an excess of legislation. If this tendency be not carefully and determinedly guarded against, evils must follow. The representative who successfully resists innovations upon established and well approved laws performs his duty quite as acceptably and as effectually as he who corrects an error of his predecessor, or who procures a change demanded by experience.

I am not aware that any matters likely to engage the attention of the Legislature will require or justify a long session.

Prompt attention to public business, regard to economy in the appropriation of public money, and caution in the modification of the general laws, has usually characterized our predecessors. I trust so commendable and so salutary an example will not be lost upon us.

It is to be hoped that the teachings of the severe financial crisis through which we have passed, and are passing, will not be lost upon our country.—The overwhelming energies by which a free people correct these errors have already begun, and will continue to apply the remedy.

FINANCE.

It is a subject of congratulation that this State and its people, unlike many portions of our common country, are comparatively free from debt.—The voluntary frugality which has made so much more healthful than that compulsory self-denial which must discharge it.

By the report of the State Treasurer, it appears that the State debt, above available funds, June 1st, 1858, was $91,061.61. During the past year the indebtedness has been reduced $19,708.14, leaving the present debt of the State $72,356.47. I would refer you to the report of the State Treasurer for the general financial condition of the State in detail.

EDUCATION—AGRICULTURE.

The cause of education is attracting increased attention. No part of our public burdens are borne more cheerfully by the people, or tend more directly to their elevation, than the support of our common schools. To guard our system of education from hasty innovation, and to provide such modifications as experience shall prove necessary, are among the duties which enlightened law-givers will cheerfully and carefully perform.

Great improvements have been made within a few years in agriculture, the leading and most important interest in the State; and greater improvements are needed, and will be made. He who by diffusing information can abridge the toil, or increase the products of the farmer, is a public benefactor. Agricultural societies, both State and County, have awakened considerable interest, and are convenient channels for communicating information. They have been scarcely less beneficial in their social than their economical bearings.

I am much gratified to know that a plan is now in progress to connect with Dartmouth College an agricultural department, by which young men preparing to be farmers can get a scientific education, fitting them not only to be accomplished agriculturists, but wise legislators.

MANUFACTURE AND COMMERCE.

The facilities afforded by the various and diversified water power of our State have induced the enterprising people to manufacture within the borders of New Hampshire an amount of capital of over sixteen millions of dollars, which requires the fostering hand, not only of the State, but protection, in a national point of view, from the general government. This branch of industry has built up towns and cities, where but a few years ago only the wilderness met the eye; and home must be seen; thus giving a stimulus to all branches of trade, and being especially beneficial to the agricultural interest, affording the home and foreign market for his products. I am happy to say this department of business, which has been much depressed by the great revulsion in financial matters, is again assuming a more healthful prosperous aspect. Still most of our manufacturing and mechanical interests require further protection, to enable American labor to compete successfully with the cheaper labor of Europe; and this protection the revenue laws of the country may readily afford by the simple process of adjusting the tariff on foreign importations that it shall discriminate, not against, but in favor of, our own home industry. In the early establishment of our government, the ship-building interest called for an exclusive American register, the merchant by a monopoly of the coasting trade, and our marine by a monopoly of the ships' timber; and the justice and propriety of these laws has prevented their repeal.

Steam power has brought European labor within a few days of America. Our foreign imports have at times reached a million dollars a day. Is this pressure of foreign on home labor, that requires circumspection; the labor of many nations mingles with our own, and occupies a common market ground; if wise legislation and skillful mechanics, with freedom of choice, do not insure results in our favor, we shall continue to pay interest in Europe.

Although we are not so extensively engaged in commerce as the States adjoining us upon the Atlantic, we feel the depression of that interest, and down this important department of industry and enterprise, Agriculture, manufactures, and commerce, and all branches of a common and general interest, in the success or depression of which all are affected.

COURTS—COUNTY EXPENSES.

The administration of justice is one of the important functions of government. A change in our system of courts has been made and in operation sufficiently long to allow a fair trial of any important defects. If any have shown themselves, it will be the duty of the Legislature to make such modification of the present system as experience shall have proved necessary.

I deem it my duty to call your attention to the expenses of the Counties. Whether their large expenditures flow from a defective administration, or a good system, or from an inherent error in the manner of supporting a large portion of our paupers, or from other causes, it is proper that this subject should receive the consideration and mature consideration of the Legislature. As the law now is, the relief is afforded to the county paupers in the first instance by the towns, to be ultimately reimbursed by the counties; and there is reason to fear that the selectmen of the several towns may not always exercise as high a sense of duty and discretion in these disbursements, knowing that the burden is ultimately to come on the counties; they would do if the towns alone had it to bear. If the expense of supporting these paupers is still to be borne by the counties, it is worthy of consideration to enquire whether it may not be more economically done directly by the counties, by means of county houses and farms, under suitable regulations, than by the present mode. It may also deserve inquiry whether the state of business before the courts in some of the counties is not such as to admit of a discontinuance of some of the terms, without detriment to the administration of justice.

BANKING.

The Banks of this State have generally accomplished and maintained the objects for which they were created. They have furnished within the State a currency for the people, and beyond the State a fund for their exchanges based upon the precious metals. The last returns exhibit an amount of one hundred and twenty-six thousand dollars of specie within the State, and nine hundred and fifty-six thousand dollars without the State, for these objects; which furnishes a currency for domestic use of three millions of dollars; protected and replenished by five millions of capital; and maintained on a specie basis the property of the State at a valuation of more than one hundred and twenty millions of dollars.

This redemption and replenishing fund of nearly a million of dollars, placed at the centres of commerce, furnishes the exchange by which the labors and productions of the State are transferred and made available abroad, and brings also within the State the result of the industry and labor of the rest of the world, and whether this import be from Asia, Europe or America, the exchanges are all adjusted by the universal standard of gold and silver.

These advantages and privileges, to be preserved and transmitted, require the watchful care of wise and intelligent legislation. New charters should only be granted, for the public good, connected with an undoubted local want, to stockholders who lend, and not to those who borrow money, and with special care that charters are not placed at the disposal of those who will allow them to be perverted.

SAVINGS BANKS.

The Savings Banks, holding in trust about four millions of dollars for those who cannot intelligently or conveniently have looked for their interest, have special claims on the guardianship and protection of the State. These investments, withdrawable at short notice, are of the most convenient and available character; and by their steady increase, their appreciation by the people, and their adaptation to a common want, are made manifest.

Those banks are not the banks of deposit, they are the guardians of a specie currency, but stand in common with the people of the State, exposed to the fluctuations of other banks made for the *trustees* for the depositors; for those who cannot, as well as for those who can, observe, the vibrations of the currency. As the *securities* held in trust are brought periodically before the State, its approval of them should give confidence and prevent panic in seasons of commercial revulsions.

Legislation should be careful how it attempts to define investments, which would arrest or lessen the responsibility of trustees. So long as investments are made with the *single* purpose of benefiting those interested, there will be but little hazard of loss. The only misapprehension is, that the honest but mistaken views of trustees may blend personal and local interests into a participation with the depositors.

FIRE INSURANCE.

The Fire Insurance Companies incorporated by the State, have outstanding risks, amounting to more than thirty-nine millions of dollars; if to this amount be added the risk taken by foreign companies, the aggregate of property in this State represented by risks, may not be assumed at less than sixty millions of dollars.

In the absence of legislation, the contracts protecting this property, although assented to by the insured, are made and the conditions prescribed, by the insurers; sometimes involving dispute *after loss*. And it may well be a subject of consideration whether a system of insurance—that *after* loss, if there be no fraud, there may be no indemnification.

RAILROADS.

About seven hundred miles of Railroad are in operation in the State, affording facilities for travel and commerce, without which it would be impossible for us to maintain our relative position to other States.—Have they not have a capital, according to their charters of nearly sixteen millions of dollars, and have probably cost rising twenty millions of dollars. A large amount of this investment is unproductive, or has been a total loss to the stockholders. Could the energetic proprietors of these useful enterprises have been satisfied with the trunk roads, and awaited a fuller development of the resources of the State to maintain them, it would probably have been, in a personal point of view, and have saved many a fortune to the projectors. If they were, however, too sanguine for individual good, in pushing forward this great improvement of the age, no one can doubt that a great benefit has been effected. In developing and augmenting the wealth of the State; and the rising generation are reaping advantages which cannot well be taken from them. Should the entire capital invested be lost to the original proprietors, the value of property in the State would be enhanced more than double the cost of the railroads. Under these circumstances should there not be some discrimination in taxation made in favor of the non-paying roads.

THE INSANE, DEAF AND BLIND.

The Insane Asylum, under the judicious management of Dr. J. P. Bancroft, its excellent Superintendent, and the astronomical position of the Board of Trustees, is in a most prosperous condition, in all its internal arrangements. The number of patients admitted the last year was ninety-six; the number discharged, seventy-one; remaining, one hundred and eighty-one. No institution of the State has effected more good than this has done, and is calculated to do, in mastering to the comfort and relief of an unfortunate class of our fellow beings, who are entitled to the strongest claim upon our sympathies. The income from patients covers the expense of the institution; therefore no appropriation is asked for the present year. I refer you to the report of the Trustees and Superintendent, for an account of its condition and operation the past season.

At the session of the Legislature in June, 1858, a bill passed both branches, appropriating four thousand dollars for the relief of the Deaf and Dumb, and of the Asylum for the Indigent Insane. This bill, by some accident, was lost between the Clerk of the House and the Engrossing Clerk, and failed to receive the approval of His Excellency the Governor. I understand that owing to the loss of this appropriation, it has fallen very heavily on this suffering and deserving class of persons. Many have been prevented from attending from unwilling to remove them from the benefits of the hospital, and have struggled through the year, with great pecuniary difficulty, to meet the expense of much privation. It is for you to determine whether you will make an appropriation to supply the deficiency in whole or in part, in addition to the usual appropriation for this object; I unnecessarily trust from the fact that an accurate account, making an apportionment of the $4000, has been made among the several persons who were entitled to share in the bounty of the State, so that it can be equitably distributed, if the appropriation is made.

You will undoubtedly make the usual appropriation for the indigent Deaf and Dumb, educated by the State at the Asylum for these unfortunates at Hartford; also for the Indigent Blind, maintained at the Infirmary for these persons at Jamaica Plain.

STATE PRISON.

From a personal examination of the State Prison, I was forcibly impressed with the fact that there are at least order and good discipline which seem to pervade every department, much to the credit of the Warden. The proceeds from the labor of the prisoners, after paying all the expenses of the institution, have been added to the credit of the State of about $2300. I refer you to the report of the Warden for full information in detail, respecting the management and operation.

The workshops within the walls are exceedingly inconvenient, poorly ventilated, and above all, in a very dilapidated and even dangerous condition; the ceiling being at any time liable to fall upon the prisoners at their work. I would respectfully call your attention to this matter, and recommend the building of a new workshop, on a more extended plan, and that the excess of income over expenditure be appropriated each year until the cost of renewing these buildings shall be extinguished.

HOUSE OF REFORMATION.

Detailed reports of the officers of the "House of Reformation for Juvenile and Female Offenders," for the information of the government, will be presented, and will contain a statement of the condition, concerns and wants of that institution, to which I would call your attention, as the year has been considered one. Under the judicious management of the Board of Trustees, seconded by the untiring and successful efforts of its President and Superintendent, it continues to fulfil its benevolent purpose for which it was originated.

FIRE PROOF SAFE FOR RECORDS.

I understand an appropriation of $600 was made by the Legislature of last year, for the purpose of having a fire-proof room or safe for the security of the State papers now in the office of the Secretary of State. The appropriation being deemed by my predecessor entirely inadequate, no action has been taken in the matter. I would respectfully call the attention of the Legislature to this important object. These papers, their present standing, are a disgraceful monument of any moment, and we must all feel that it would be a public reproach, should these invaluable documents be lost to the State; many of them being of the most patriotic character, connected with the history and deeds of those who were prominent in our Revolutionary struggle. While in other portions of our country, monuments are being erected to the memoration of the heroic achievements of our revolutionary sires, shall we neglect the *safety of the records* of those heroic deeds?

This subject has been often brought to the notice of the Legislature, without any useful result. I would not advise that a separate building should be erected on the State House, be built for this purpose; but that the room now occupied by the State Treasurer be converted into a fire-proof safe, of sufficient size to hold these records; it is desirable that documents of this nature should be in the State House, as frequent reference to them are required. It is believed that an arrangement of this kind can be easily accomplished without detriment to the convenience or accomodation afforded under present circumstances. To effect this it will be necessary to change the location of the Library; an arrangement which would insure great improvement upon its present accomodation. The alterations now suggested will not incur great expenditure. Walls on this subject I would propose that these papers be properly compiled and arranged, and that at least one volume a year be bound. This in course of time, would put them all in proper order, at a trifling yearly expense.

LIQUOR LAW.

The law providing against the sale of spirituous liquors for other than medicinal, and mechanical purposes, should be disturbed. Although it would be impossible, to carry fully into effect, to the degree desired by the friends of temperance, this, or any other similar enactment, it nevertheless exists as the philanthropic workers in this great reform, to wield a much more powerful influence than would be possible for them, without its aid. I believe it to be great for good, both in the suppression of the great evil of intemperance.

PEDDLER LAW.

I would respectfully call your attention to an act passed June, 1858, in relation to "Hawkers and Peddlers," and recommend its repeal, or a modification of its provisions. A law regulating hawkers and peddlers would seem just, and such laws exist in most of the states; but it should be framed with great circumspection and discrimination, and should not interfere with the sale of any agricultural products from other states.

NATIONAL AFFAIRS—THE UNION.

As functionaries of the state, our primary and our proper business is, to provide for the wants, to watch over the interest, and develope the resources of our own state. We are to make and promulgate laws for New Hampshire. Our duties and concerns are chiefly domestic; but the sentiment of patriotism, and our own interests, forbid us to overlook entirely our national relations, and the policy of the Federal Government. New Hampshire is an integral part of the Union; one of the original *Thirteen* of this now multiplied confederacy of independent States; she adheres, she always has adhered, she always will adhere to the Union and the Constitution. She does not stop to calculate the cost. For her, that problem is already and forever solved, that question, finally adjudicated. She says *they shall be preserved*. I believe I speak the sentiments of the great mass of the people, when I say that New Hampshire knows no patriotism that is bounded by State lines, or sectional limits. All such pretended patriotism, whether appearing in New England or Carolina, she regards as at least spurious, and endangering the permanency of our Republic. Whatever State or section, or party in this country, adopts the doctrine of nullification, or threatens of disunion, does, by that very action, acknowledge its inherent weakness, and the utter hopelessness of its political aims.

But while New Hampshire cheerfully recognizes the rights of all other States, she will firmly maintain her own—while she never will encroach upon the rights of the South, she will be the last to surrender those of the North—while she will never meddle with the domestic institutions of her sister States, she is bound to prevent the extension of the curse of slavery, as of any other great political or social evil, over territory now free, belonging to and under the control of the United States; bounded by the broadest and highest patriotism, by her very attachment to the Constitution and the Union, to prevent it; bound to prevent it by all the power and influence she has under the Constitution, in controlling the legislation of Congress, and the administration of the Federal Government.

New Hampshire will rejoice to see a sectional administration giving way before the triumph of a broad, pure, and truly patriotic national policy. She will rejoice to see the Federal Government acquire more more to the acknowledged principles and ideas of the authors of Independence, the founders of the Union, and the framers of the Constitution.

RICHARD GOODWIN.

Council Chamber, June 1st, 1859.

THE NEWSPAPER PRESS. — Maryland has a newspaper circulation of 224,000—the largest of any of the slave States. Massachusetts, with a population scarcely double that of Maryland, has a circulation of 715,960, or about six to one. Its circulation is nearly equal to that of all the Southern States. New York has a circulation considerably more than double that of all the slave States. At the South, more than one-half of the papers are political; at the North, less than one-third.

The number of copies of independent and neutral papers printed in a year, in the slave states, is 8,000,000; and in the free states 79,000,000; of the religious, in the slave states, 4,000,000; and in the free states, 29,000,000. The number of copies of scientific papers printed in the fifteen Southern States, is 372,000; the number in Massachusetts alone, is 2,000,000. The religious papers in the slave states number 4,000,000 copies annually; in New York alone, 12,000,000. The neutral and independent papers of the South are 8,000,000, in Pennsylvania alone, 21,000,000.

UTAH JUDGES. — Attorney General Black has replied to the joint letter of the Utah Judges on the subject of the military force called for by the Judges to protect the Court during the recent term held at Provo City. Mr. Black says it is the decided opinion of the President that the Governor of a Territory alone has power to call out the army; that there was no apparent occasion for the presence of the troops at Provo; that in case there had been an attempted rescue of the prisoners in custody, it was the duty of the Marshal, not of the Judge, to summon the necessary preventive force; that the troops ought not to have been sent to Provo without the concurrence of the Governor, nor kept there against his remonstrance; and, finally, that the disregard of these principles and rules of action has been, in many ways, extremely unfortunate.

James Noland of Salem, common seller. Verdict guilty. Recognized in the sum of $300.

Jared P. Whitcomb of Salem, violation of liquor law, pleaded guilty. Recognized in the sum of $300 for appearance.

☞ Two aristocratic denizens of the palatial section of Walnut street, Philadelphia, have got at loggerheads in consequence of the propensity of one of them to wash the front of his residence with a hand-hose, by which the other's premises are bespattered with water, to his great annoyance.—So anti-hydropath has built a fence twenty feet high to ward off the effects of t'other's squirt, giving to the two houses anything but an ornamental appearance.

MESSRS. FOWLER & WELLS IN BOSTON. Some of the most prominent and influential citizens of Boston have invited Prof L. N. Fowler, of the house of Fowler & Wells, New York, to deliver a course of lectures to them on his favorite sciences—Phrenology and Physiology—and he has accepted. He will arrange to commence his lectures in that city on or about the first of June, and probably continue till July.

THE WAR.—No fight yet—lots of rumors and hard names mis-spelled in the dispatches. Rather a "slow" affair. The French have taken possession of the Pope; the old fellow wants to meddle off to Austria for protection, and has even tried to run away again, but the French General crossed himself and *parleyvoused* about his devotion to "papa" being too great to allow him to face the dangers of the road, and so hold on upon him.

☞ A Lynn sail boat upset off Egg Rock, about two miles, on Sunday. Two men were in the boat; one named Forbes clung to the bottom and was rescued in about two hours after the accident in an insensible condition; the other named Mills attempted to swim to the Rock, and sunk when about half the distance. He leaves a wife and one child.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Ship Anna Decatur, Parsons, old New Orleans 25th, for Havre.

HOW IT IS TO BE DONE.—A Democratic paper says—"Whatever may have been the difference among Democrats, they will all be buried in a common grave at Charleston. That is the Democratic practice. All prior differences were buried at Cincinnati in 1856, and at Baltimore in 1852, and 1848 and 1844. It is one of the grand purposes of Democratic national conventions to revise and declare the creed of the party, and when declared it is the rule, the *test* of Democracy. It is in this simple, sensible way that Democratic *difficulties* are harmonized."

We find the above in the Boston Post, and in the same Post we find it stated that on Tuesday last, three hundred of "the leading Democrats from different sections of the State of New York, on the invitation of A. Birdsall, Esq., Naval Officer, met at the Astor House to take measures to unite the party. It is the second meeting of the kind—the former having taken place on the 10th ult."

After mature deliberation, these leading men resolved that it was best to postpone the conventions for the presidential nomination until after their general State election in 1859—and then, as the New York News says:

The business of the meeting, having been thus harmoniously concluded, a general interchange of sentiment was had among prominent gentlemen present, who expressed themselves with great unanimity of opinion that the State *could* be carried for the Democratic candidates in November, *if* the *disturbing* question of the Presidency *could* be kept out of the Conventions.

HYPOPHOSPHITES, THE NEW REMEDY FOR CONSUMPTION.—No disease has attracted so much attention as consumption; and no discovery in medical chemistry has created a more profound sensation, than that recently promulgated by Dr. Churchill, of Paris, through the French Academy of Science. No one suffering from consumption, in any of its forms, should delay giving this important discovery a full and fair trial. The Boston Medical and Surgical Journal, the best authority in this country, in a lengthy examination of the merits of Hypophosphites in consumption says, "It is evident that their beneficial effects are not limited to this one variety of disease.—They would seem to be *most appropriate remedies in a large class of affections resulting from loss of nervous force.*" Dr. Churchill says, "the effect of these Salts upon the tuberculous diathesis is immediate, the general symptoms of the disease disappearing with a rapidity which is really marvellous." The advertisement in to-day's paper is well worth perusal.

At the anniversary meeting of the Anti-Slavery Society, last week, Wendell Phillips, Wm. Lloyd Garrison and Parker Pillsbury denounced, in set terms, the republican party, the N. Y. Tribune and N. Y. Independent.—*Black Republican paper.*

Yet every one of these men, and all their special followers, vote the black republican ticket and sustain the N. Y. Tribune, the N. Y. Independent and all the other organs of sectionalism. How? mean, silly and deceptive such talk is!—*Concord (N. H.) Patriot.*

Who are mean, and silly, and deceived? the editors of the Patriot, or their readers, or both? The "special followers" of Mr. Garrison, like Mr. G. himself, *do not vote* any ticket whatever. This we say, with the knowledge of a large number of them in various parts of New England. Political abolitionists, freesoilers, &c., &c., are voters, and earnest ones; but the special followers of Garrison are non-voters.

The Patriot's information about their sustaining certain papers is about as correct as the rest of it, i. e., not true. They sustain "The Liberator," by a great effort—but the Tribune and Independent get but small support from that quarter.

A SLAVE PASTOR FOR WHITE PEOPLE. In Tennessee, there is a hard-shell Baptist Church, who for several years have had their regular pastor, a negro known as "Bentley's Old George," belonging to the estate of one Matthew Bentley, deceased. George is said to be a most excellent man, and a good preacher. The Church wants to buy George, but he is unwilling to be sold out of his master's family, and is, withal, a regular Southern Pro-slavery parson, the "preacher in charge" of a large congregation, nearly all of whom are slaveholders, and who pay him a salary of $600 or $700 for his pastoral services.

☞ Seacliff, or the Mystery of the Westervelts; by J.W.DeForest,—is a new novel, of a high order of interest,—just published by Phillips, Sampson & Co., Boston; and for sale by J. H. Foster in this city. It is an overtrue picture of much modern fashionable life; and it must be popular.

SPECIAL NOTICES.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons who are afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and, though we have repeatedly spoken highly of the medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and most wholesome Spirit ever made.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and deprived of that harsh, acrid taste, so common to the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by eminent physicians in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority in America, says of this Gin, that it is "not only superior to any other, but the best article of the kind he has ever seen."

It is perfectly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by Druggists, Grocers, Confectioners, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS Imported.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Peckem, 20 Elm st.; A. J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

☞ Thursday morning was promising, and the day pleasant, free from dust, and just about the right temperature. The excursion and inauguration train on the Concord and Portsmouth Railroad, with the Portsmouth Band and a good delegation, moved off at half-past 7, and was well filled before it reached Concord.

The places of those who went were more than filled as to numbers, by others who came into the city, as usual, to see the circus, which is an institution here.

The tunes on the Calliope were noisy but not very musical; about as good as those on a third rate hand organ, and six times as loud.

☞ We published Thursday morning from the Philadelphia North American, an account of the "alleged ill-treatment of U. S. seamen of the frigate St. Lawrence," which arrived at Philadelphia a few days since; but Wm. F. Laighton, Esq., of this city, who has just returned from the St. Lawrence, states that the whole account is false, and that the men have been treated as well as they could be, under the circumstances. The accounts of the revolting punishments, he says, are not mere exaggerations, but wholly unfounded. We make this correction at his suggestion, for the benefit of the officers, who have been thus misrepresented.

☞ Mr. Eaton Stone, one of the performers in the circus which was here on Thursday, showed us a very beautiful gold medal, bedecked with precious stones, which he received from citizens of New York, for his extraordinary horsemanship. The medal is a rare specimen of the art of picture engraving on gold.

☞ Governor Goodwin's Message is a business like document, plain and easy to be understood; and will command general attention and approbation.

☞ Several advertisements are unavoidably deferred on account of the message, and the rush of other business.

☞ Rev. Mr. Patterson, of this city, is to preach at Rye, (Chesley's Hall,) on the second Sunday in June, at 5 P. M.

Funeral of Burrill Arnold.—The funeral of Burrill Arnold, who was murdered at Centreville, R. I., a few evenings since, took place on Tuesday, and was attended by three thousand people, including a number of Sons of Temperance organizations and most of the leading temperance men in the state. A sermon was preached by Rev. J. M. H. Dow of Coventry, and in order that as many as possible might hear, it was delivered in the open air. A large procession accompanied the remains to the grave, where further religious exercises took place.

Capron, who was arrested on suspicion of having some cognizance of the murder, has been discharged, there being no evidence to justify his detention.

☞ The New Hampshire Convention of Universalists will hold its next annual session in Enfield, on the third Wednesday and Thursday in June, 15th and 16th.

The New Hampshire Universalist Missionary Society will hold its annual meeting at Enfield, on Tuesday evening, preceding the annual meeting of the State Convention.

☞ Some thirty or forty citizens of Crawfordsville, Ind., were tried at the Boone Circuit Court at Lebanon, on a change of venue, last week, for malicious trespass, in demolishing the groggeries of the former place, and were acquitted.

Notice to Mariners.—Notice is hereby given that the Beacon Lights, at New Buryport and Ipswich, do not serve as guides for entering the harbors, above mentioned, owing to the shifting of the outer bars off those ports.

☞ A young man named Thomas Hyde was killed at Fairmount, near Philadelphia, on Saturday afternoon, while attempting to stop a pair of runaway horses.

☞ The Bridgeport Standard says that Mrs. Wm. B. Hill of that place, who recently offered $100 for the return of her missing husband, has received a letter from him postmarked at Thompsonville, advising her to save her money.

☞ The ladies of California have already remitted to the East for the Mount Vernon purchase, $1885, which is only an installment of what is to follow.

☞ It is said that since the death of his father, Wm. B. Astor has "laid up" $1,000,000 a year. He had nearly $18,000,000 to commence life with.

Failure of a Sugar House.—The failure of a large sugar importing house in Portland is announced.

☞ The Portland city government have authorized the purchase of a steam fire engine.

☞ It is officially announced that the digging of the Suez canal commenced on the 25th of April.

Washington, June 1.—The States says that returns from 129 counties in Virginia show Letcher 3700 ahead of Goggin.

A despatch from Richmond says that the reported and official returns of 128 counties give Letcher 3542 majority, and the remaining counties to hear from gave Wise 1381 majority. Prominent Democrats are confident of a majority of over five thousand for Letcher. There is no truth in the report that Caskie is elected to Congress.—It is reported that Mr. Letcher is very ill at home.

Naval.—*Norfolk, June* 1.—The U. S. ship-of-war John Adams was towed to the Roads, to-day, and proceeds immediately to the West Indies.

The Preble will sale in a few days for the Gulf of Mexico.

Accident—3000 Sheep Killed.—*New York, June* 1.—The down train of the New York and Erie Railroad, when crossing Weil Creek, yesterday afternoon ran into a drove of sheep, killing 3000. The engine was thrown from the track into the Creek. The engineer had an arm broken. There were no passengers on the train. Loss in sheep $5000.

The Slave Trade Flourishing.—*New York, June* 1.—A dispatch to the Secretary of the Navy states that slavers bound to several Southern States, are now on the coast of Africa. They are expected home this fall with slaves for the Mississippi and Texas markets.

☞ Judge Douglas is not received with any enthusiasm—hardly with respect—on his present tour through the South. The Montgomery (Ala.) Mail, of the 21st ult., thus notices his arrival in that city:

The Squatting Giant. S. A. Douglas, the great advocate of Squatter Sovereignty, arrived here yesterday, by the Eastern train, and went down in the steamer in the afternoon. A few persons hunted him up to take a look at him, as they would a grizzly bear, but there was no welcome. Why should there be, of the great assassin of the South?"

☞ There has been made in the small town of Washington, N. H., the present season, 43,175 pounds of maple sugar.—Fourteen persons made over 1000 pounds each.

☞ The wife of John Courtney, Portage, Ky., recently gave birth to three healthy, hearty daughters. These last arrivals make the well-done and well-to-do lady the mother of eleven children, all girls, and the eldest of whom is but 12 years old.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America, and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *fac simile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. Sold wholesale, at the lowest discount for cash, at the Sole General Depot in the United States, by J. WINCHESTER, American and Foreign Agency, 49 John street, New York.

Boston, June 1, 1859. * codly

WE KNOW THE REASON.

The reason why all the Ladies *will buy* their Capes of Allen & Paine is that they take particular pains to select the best shades of fine *Water-proof Cloths* from which to make them—have a large variety of the latest style patterns—make all their garments in the best manner, in their own store—cut them to *fit their customers*, so that all may be sure of a fit, whether large or small. The consequence is, everybody that wants a Cape goes to Allen & Paine's for it. **

Stella Shawls vs. Capes.—There has been for the past three years almost a rage for Stella Shawls, and we are glad to learn from large and fashionable places, such as Philadelphia, New York and Boston that the rush is over; in fact, they are not worn at all this year. The new Ladies' Cloth Capes which have entirely superseded them, being much prettier, costing less, and are suitable (for those who cannot afford two garments) to wear through the winter, by putting in a heavy lining, as is done in many instances.

They are certainly the best garments ever worn by the Ladies. As there are but few days in our summer warm enough to wear the flimsy Lace and Silk Mantillas of the Southern cities, we begin to find that money is thrown away in buying them.

We suppose there are a few in Portsmouth (as is usually the case,) who will buy a Shawl this year, but none who have any desire "to keep up with the fashions" will do so; as next year, even in this place, Shawls will look "awfully behind the times," while the Capes will be in the height of fashion,—and one of the Capes of the new *water-proof cloth* can be worn all this summer and winter, and yet look as good as new for next season. Of course, the ladies all know where to get the *best* garments.

The Effect of the European War on Provisions—Will be, and has already been to advance the price, but at the same time we are happy to state that the sales of Dry Goods at Allen & Paine's continue to increase every day.

M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 30 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not spoil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive or one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable favor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samarian," "Extra Superior." Messrs. Tracher have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relief and cure to thousands of sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"**My Mother's Salve**" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing, and Curative Properties never before combined in a Salve or Ointment.
"**My Mother's Salve**" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"**My Mother's Salve**" is a BURN OF SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"**My Mother's Salve**" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "**My Mother's Salve**" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportion, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub on in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck, BURRILL & HUNTING, Sole Proprietors,

THE GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their
CELEBRATED FAMILY MACHINES,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYE MACHINE,
PRICE FIFTY DOLLARS.
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand!

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

PORTSMOUTH, April 12, 1859
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEY & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, in two-thirds or three-fourths of which number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from prevailing friends.
Be particular in finding Dr. Hughes. Do not be lured from the path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short period of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions and frauds now practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of obtaining the genuine, the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jz diy

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluid, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young twice or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but believing my prejudice without my reason for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing Manufactory, corner of Cortlandt st.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 2, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

RARE CHANCE FOR INVESTMENT
FOR SALE OR TO LET,
SAGAMORE HOUSE,
ON FRONT'S POINT, RYE, N. H.
At the entrance of Little Harbor, 3½ miles by land, 2 miles by water, from Portsmouth. The House commands a view of Portsmouth, New Castle, Kittery, the Navy Yard, Forts Constitution and M'Cleary, Portsmouth Harbor and the Isles of Shoals. The House is nearly new, and commodious, and has been occupied as a Summer Hotel. The out-buildings consist of a barn, corn house and bowling alley, all in good repair. The grounds contain **Six Acres**, bordering Little Harbor and the sea, and are well stocked with Fruit Trees. The facilities for sailing, fishing and bathing are unequalled, rendering it a desirable place for a private residence, a private boarding house, or a public house.
FOR SALE.
The balance of the Sagamore Farm, adjoining the above, containing
ABOUT THREE HUNDRED ACRES OF LAND,
of excellent quality, suitably divided into mowing, tillage, and pasturage, with a fine lot of Pitch Pine Timber on the same, and will be sold as a whole or in lots, as purchasers may desire,—all on liberal terms.
For further particulars inquire of the subscriber, 146 STATE STREET, PORTSMOUTH.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females*. It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the natives so easy, and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from *Skenan-o-ta-ah*, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours*. This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times. ☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.
PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best LIVER and LIVER MEDICINES now before the public.

These GUMS remove all mild or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose prevents CHOLERA MORBUS, and is a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of mercury after a long sickness.

One bottle taken for JAUNDICE or more proves all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive against Every Form of Ague, Chill Fever, and all Fevers of a BILIOUS type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.
Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under date of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or any other point, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents; and in these, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able to render opinion, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
R. H. EDDY.

SATURDAY, JUNE 4, 1859.

PATRIOT GOSPEL.

Uncle Toby remembers the time when some ardent men among the Federalists claimed for that party, "all the Religion, and all the Morality."

Now that claim is set up, or something like it, in the N. H. Patriot of June 1, which contains a "perfect gem" of an editorial, with this imposing caption, "can a Black Republican be a Christian or a good citizen?"

In the argument to show that such a black man *cannot* be a christian or a good citizen, the Patriot says:—

"It is a part of the creed of black republicanism to denounce and defy the Dred Scott decision and the fugitive slave law.—Political preachers do this from the pulpit, and on the Lord's day exhort their hearers to sedition and resistance to the law of the land. Is such deportment in conformity with Christian duty? Can those who thus conduct themselves be Christians? Not if we read our Bible aright. They directly contravene the express commands of Christ, who said to his disciples:—

Submit yourselves to every ordinance of man for the Lord's sake, whether it be to the king, as supreme, or unto governors. * * *

Servants, be subject to your masters, with all fear, not only to the good and gentle, but also to the froward, for this is thankworthy, if a man, for conscience toward God, endure grief, suffering wrongfully.

Such are the instructions of the Savior of mankind."

Unluckily for the Patriot's Gospel, Christ did not say so to his disciples; the Saviour of mankind did not give these instructions: the words quoted are those of Peter, who was neither Christ nor Saviour, though the Roman church does assert that he was the *first pope*.

The Patriot continues:—

"But such is by no means the creed of abolitionism. Its whole "higher law" creed is as much in defiance of the law of God as it is of the law of man. The Scripture everywhere teaches submission in temporal affairs to temporal law. Higher lawism is a device of the devil—wrong because it is condemned by the Bible, and wrong because it is subversive of our free government."

The Patriot here either betrays great ignorance of the "higher law creed," or else wilfully belies it. The higher law creed is simply this: The laws of *God* are *higher* than those of *man*. And when we descend to particulars, the ten commandments are higher than the fugitive slave bill,—the precept thou shalt love thy neighbor as thyself, is rather above the level of Dred Scott decisions, Taney dicta, or Lecompton swindles.

Senator Seward used the phrase "*higher law*" in a speech against the fugitive bill, before its passage, saying, I believe it is "contrary to the Constitution,—but there is a higher law"—in which he alluded to the law of God.

Out of this simple, beautiful, and reverent allusion to man's obligation to obey God rather than man—boobies and ignoramuses have hammered such trash as we have just quoted in the above extracts.

If there were *no higher* law than the fugitive act and Dred Scott decision,—we should certainly have no *free* government to subvert—for these are both *slave* items.

And the man who talks about what is condemned in the Bible, if he knew a little better what is contained there, would not make such blunders as the one above noticed.

THE SIN OF DANCING.—The Rev. James L. Corning, the Presbyterian minister of Buffalo, whose lectures on "The Christian Law of Amusement" have occasioned some comments, is in favor of dancing, at least as it is practiced "on the Highlands of Scotland and the green swards of Switzerland, and in the rural districts of Germany."—He objects strictly to the fashionable suppers and parties, and would seem to speak, in the following passage, not without personal observation:

"Why, I have sat by the side of a professing christian woman in one of the beautiful parlors of a fashionable avenue, whose jeweled neck, and ears and fingers, and dazzling brocade, as much as said to the assembled guests, "none of your dresses cost as much as mine;" then I've seen her go into the supper room and eat enough to make a swine have grips of conscience, and then come out, obese, and panting for breath, made marvelously religious by sandwiches and champagne, and wind up the farce with a pious discourse on the sin of dancing. Now, I think that if she had transported a portion of her conscience from her slippers to her stomach, though she might have an inch or two less of phylactery, the loss would have been compensated by several additional yards of Christian consistency."

SUDDEN DEATH AT AMESBURY.—Mr. Robert Nutall, an operative in the Mills at Amesbury, complained on Wednesday evening, after he had left work, of feeling unwell. He left his house to visit a physician, and in a few moments fell dead in the street. He was an Englishman, and about 43 years of age, and leaves a wife and family.

☞ Rev. C. D. Helmer has declined the call to the pastorate of the North Congregational (Dr. Boshnell's) church, in Hartford.

TEXAS-WARD.—II.

SHAWNEETOWN, ILL., May 26.

Dear Chronicle:—Going down the river from Cincinnati, the first object of interest, aside from the beautiful scenery which lays onboth sides of the river, is Harrison's grave, at North Bend. From the deck of a steamboat the spectator will notice what seems to be a white fence, far up on a high hill, nearly hidden by shrubbery; that is the tomb of the hero of Tippecanoe, which a few years ago was in clear sight.

A number of small towns intervene between Cincinnati and Louisville, those on the Northern bank of the river, showing the difference in favor of free over slave labor by their marked contrast with those on the Southern side of the same stream.

At Louisville, known as the "Falls City," all boats are obliged to pass through the canal, at present, owing to low water. When there is seven feet of water in the Indiana chute, a boat drawing four feet can pass down on that side by aid of a pilot. The canal ends at Portland, 3 miles below, and contains four locks.

Near the upper end of the canal is an artesian well, into the building containing which the visitor gains admission by paying a dime to the ace of spades who is in attendance, and is then entitled to drink as much of the nauseating water as he chooses. The water from this well is said to possess the property of making silver assume the color of gold, but as all my money was in $100 gold pieces (!) I could not ascertain the truth of the statement.

Louisville is well laid out and can boast of many very palatial residences, especially on Broadway. The streets, out of the business portion of the city, are generally pretty well shaded, and the appearance of the Catalpa trees, when in bloom is, according to Keitt, "a joy forever."

Opposite to Louisville is the town of Jeffersonville, while down the river a few miles, is the town of Portland, connected to Louisville by a horse railroad, and emphatically a one-mile railroad, that being the number of the animal attached to a car. Opposite Portland is the town of New Albany, very neat and thriving, with considerable business activity. Further down the river Brandon Bridge and Breckinridge Coal Works, in Kentucky, attract the attention; while at Cannelton, Ind., the traveller will find one of the finest looking buildings used for manufacturing purposes in the United States.

All along, on both sides of the Ohio, are great numbers of lime kilns, and immense quantities are annually burned. The banks of the river are generally very high and thickly wooded.

Opposite Cannelton is Hawesville, the scene of considerable excitement last spring. A man, whose temper, it is supposed, was sound, and who was thought to have worn a coat of mail, went about the village shooting at whoever he might meet. The residents tried their shot guns on him for some time to no effect, but when they commenced to use his carcase as a target at rifle-shooting, he said it was too hot for him. He was at last secured in jail, where a mob shot him.

Evansville, 200 miles from Cairo, is a place of considerable business, but nothing extra in the way of beauty.

At all the river towns the larger portion of the buildings which face the levee bear signs of "Bar Room," "Liquors, Foreign and Domestic," "Gast Haus," "Bakery and Lager Bier," "Ale House," "Restaurant," or some other, all of which are equivalent to the first. JON.

GOOD ORDER, AND THE REASON FOR IT.—The Concord Daily Patriot of Friday June 3, says "the programme for the reception of Governor Ichabod Goodwin, was carried out by our black republican friends, in a very creditable manner. The proceedings were witnessed by a very large crowd of people, larger than we have had here upon "Election Day" for many years; and although there has been the usual amount of noise and confusion, yet up to the time we write we think the crowd has been more orderly than usual upon such occasions. This result is in part due to the fact that rum was less freely sold than usual. The City Marshal, the day before, gave notice that he should station a police officer at the door of every place were it was supected liquor was kept."

☞ Mayor Tiemann has been riding all about New York, seeing its filth with his own official eyes. No mayor was ever known to do it before; and such an act of gracious attention to his duty is considered as entitling him to an unobstructed re-election.

☞ The Indianapolis Journal says that Mr. Frederick Rasch, of that city, who went to Europe six or eight weeks since, on a visit, immediately on his arrival in Prussia was claimed as a conscript, formed into the army, and is now held there to serve out his three years as a Prussian soldier.

☞ Rev. Martin S. Howard was installed on the 19th inst., over the Congregational church in South Dartmouth, Mass.

NEW BOOK.

THOUGHTS ON EDUCATIONAL TOPICS AND INSTITUTIONS, by George Boutwell, Boston, published by Phillips, Sampson & Co.—Sold in this city by C. C. Harvey.

This book is a valuable series of Lectures, dedicated to the Teachers of Massachusetts. In an address or lecture delivered at the opening of the State Industrial School for girls at Lancaster, Ms. Mr. Boutwell says:

It may be well to remark, that every reformatory school in Europe, even those altogether penal,—as Parkhurst in England, and Mettray in France,—have had some measure of success. Eighty-nine per cent. of the colons, or convicts, at Mettray, have become respectable and useful; while, of the youth sent to the ordinary jails and prisons, seventy-five per cent. are totally lost. It is not fair, therefore, to assume that this attempt will fail. The degree of success will depend upon circumstances and causes, to a great extent, without human control.

It is sometimes the bane of the poor that they do not work, and it is often equally the bane of the rich that they have nothing to do. The idle, both rich and poor, carry a weight of reproach that not all ought to bear. The disposition and the ability to labor are both the result of education; and why should the uneducated be better able to labor than to read Greek and Latin?—Surely only that there are more teachers in one department than in the others; but a good teacher of labor may be as uncommon as a good teacher of Latin or Greek. There is a false, vicious, unmanly pride, which leads our youth of both sexes to shun labor; and it is the business of the true teacher to extirpate this growth of a diseased civilization. And we could have no faith in this school, if it were not a school of industry as well as morality,—a school in which the divine law of labor is to be observed equally with the laws of men.—Industry is near to all the virtues. In this era every branch of labor is an art, and sometimes it is necessary for the laborer to be both an artist and a scientific person. How great, then, the misfortune of those, whether rich or poor, who are uninstructed in the business of life! We should hardly know what judgment to pass upon a man of wealth who should entirely neglect the education of his children in schools; but the common indifference to industrial learning is not less reprehensible. Labor should be systematic; not constant, indeed, but always to be reckoned as the great business of life, never to be avoided, never to cease.

☞ In the Lafayette, Indiana, Circuit Court, on Tuesday of last week, a decree of divorce was granted to the Rev. Mr. Allen of the Second Presbyterian church, of that city, at the wife's cost. Mrs. Allen eloped last fall with S. E. Sherwood, Secretary of the Lafayette and Indianapolis Railroad. The parties are supposed to be in Europe. A letter from Mrs. A., addressed to her husband, fully avowing the criminality of her relations with Sherwood, was read in evidence. Mr. Sherwood left a wife and an interesting family of children entirely dependent.

LOST AT SEA.—The Gloucester News contains a list of one hundred and ten vessels, which have been lost within the last thirty years, with their value, amount of insurance, and the names of those on board the missing vessels, so far as they could be ascertained. These lost vessels were all from that single port.

Of the whole number of vessels, *thirty-eight* were never heard from, so that the manner of their loss could not be ascertained. One foundered at her anchors with a large number of men on board, who were all lost, and another was capsized and sunk with all her crew. Another was run down, and all but two of her crew perished. The News gives the names of two hundred and ninety of the men on board these vessels who were lost, and there were forty-two others whose names have never been ascertained—making a total of *three hundred and thirty-two persons lost*. Of this number, *two hundred and twenty-four* have been lost within the last ten years, or an average of *twenty-two lives* during those years. These are startling facts, and show conclusively that the fishing business is a dangerous one, and cannot now be pursued without the yearly loss of at least twenty persons on an average!

The value of the property lost is large.—The figures, so far as they go, show an estimate of $226,025. Add to that amount the value of those which are not obtained, and also of the outfits of many of the others, the aggregate sum will exceed $300,000, or an average of $10,000 dead loss to the town every year, for the last thirty years, as about the whole of the insurance was effected in Gloucester.

Thirty-six of the vessels were lost at the Bay of St. Lawrence, mackerelling; twenty-seven were lost on George's Bank, twenty-three were trading, twelve were mackrelling, and eleven codfishing in other places than the Bay and on the Georges.

The year 1852 was the most disastrous of the whole thirty. During that year thirteen vessels were lost, five of which, having forty men on board, were never heard from. The value of property lost, as given by the figures, was $42,500; but that is at least ten or twelve thousand below the actual loss.

Some day it will be found that to bring up a man with a genial nature, a good temper and a happy frame of mind, is a greater effort than to perfect him in much knowledge and many accomplishments.

The poorest education that teaches self-control, is far better thrn the best that neglects it.

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a widespread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons whose occupations, or their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 75¢ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad blood, if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. C. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

N. B.—I do not charge any more for good Pictures, than is paid every day for poor things.

R. R. R.

A young lady at Stephentown, New York, in the month of June, 1953, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. As a *stypic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R. R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic in use.

It is a delicious tonic, a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing sympathetic complaints which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. ELECTION DAY.

The public demonstrations of respect for Governor Goodwin, and pleasure at his elevation to the chair of state, as exhibited at Concord on Thursday, were uncommonly earnest and enthusiastic.

The day was fine and the attendance very large, by railroads,carriages, on horseback and on foot. On the arrival of the Amoskeag Veterans, at 11 o'clock, the streets were completely crowded, and a multitude of people surrounded the depot. They were accompanied by the Manchester Cornet Band. Prominent in the ranks of the Band was a corps of juvenile drummers and fifers, who attracted great attention by their proficiency in the use of these martial musical instruments, and by their precocious military air.

After the collation at Phœnix Hall, the Veterans, Fire Department of Concord, cavalcade, &c., proceeded to the foot of Main street, where Hon. Ichabod Goodwin, the Governor elect, with a Portsmouth delegation, arrived at 1 o'clock by the Portsmouth train. After the reception ceremonies, the procession was formed as follows:

Manchester Cornet Band;
Amoskeag Veterans;
Epping Cornet Band;
Carriages containing His Excellency Gov. Wm. Haile and Hon. Ichabod Goodwin, Governor Elect;
The President of the Senate and Speaker of the House;
The Mayors of the cities of Manchester and Concord,and other distinguished guests;
Portsmouth Cornet Band;
Delegation from Portsmouth;
Fire Department and Concord Cornet Band;
Cavalcade; and Citizens in Carriages.

Gen. R. N. Corning was Chief Marshal; and J. W. Robinson, J. L. Jackson, J. S. Durgin and C. C. Webster, Assistants.

The line of march was up Main street to School, up School to State, up State to Franklin, through Franklin to Main, down Main to the State House. There the Governor was escorted to his private room, and the procession was disbanded, the Veterans returning to Phenix Hall.

At 3 o'clock the Legislature assembled, and the Governor was inaugurated with the usual ceremonies, the oath being administered by the Speaker of the House of Representatives.

At the close of the dinner at the Eagle Hotel, Hon. E. H. Rollins, who presided at the tables, made a speech of welcome, in his able and eloquent manner, which was responded to by Col. Abbott, who closed with a sentiment complimentary to the city of Concord.

"His Excellency Governor Goodwin" was toasted, and he not being present, W. H. Y. Hackett of Portsmouth responded in his name.

Hon. Wm. Haile, the retiring Governor, was also toasted, and Capt. B. P. Cilley of the Veterans responded for him in a spicy speech.

The next toast, sent in by a lady, was—"Our Union—let no link be severed from the glorious chain."

Hon. John P. Hale was called upon to respond, and was received with cheers. He made one of his best after dinner speeches. He alluded happily to the Veterans' visit to Baltimore and Washington.

He said he was willing the liberties of our country should rest on the guardianship of our citizen soldiery, and that he was opposed to standing armies as dangerous to liberty. He was loudly applauded.

NEWSPAPER VAGARIES!—The newspapers state that an "English Fire Insurance Company has repudiated the whole of its guarantees on the late fire at Valparaiso, amounting to £1,000,000." The fact is, that the *total* insurance on said fire by English offices was £282,4000.

The newspapers say that "the down train on the New York and Erie Railroads, ran into a drove of sheep killing 3000." The fact is, the drove of sheep consisted of 800, of which 80 were killed or *wounded*.

The newspapers say that Gen. Scott has bet five hundred bottles of champagne, that Napoleon III. will never return to Paris from his Italian campaign." The fact is, the wary General never bet at all.—*Boston Post.*

ARREST.—About noon Friday, an Italian named Chas. Prevot went into Bigelow, Brothers & Kennard's jewelry store, Boston, and was examining some diamonds, which he put to his mouth, for the purpose, apparently, of testing them. He performed this operation with a valuable one, and pretended to replace it in the case, but instead thereof retained the jewel and deposited a paste article, which he previously had in his mouth. Mr. Kennard quickly detected the trick, and as quickly secured the fellow, who was taken to the 2d police station.—*Boston Journal.*

☞ A correspondent of the Charleston Courier gives an account of the late duel between Messrs. Vick and Stith near Mobile. They were enemies as boys, and as men met in a billiard saloon: the lie was passed, a challenge sent and accepted, and the result was fatal to Vick.

☞ Mr. Archibald C. Clark, of Portland, died suddenly in the cars at Augusta on the 1st inst. He had been in the Hospital, and was about being removed to his home. He died without a struggle. He was 37 years of age.

For a lady to sweep her carpet with embroidered undersleeves would be considered indecently dirty, but to drag the sidewalks with her skirts seem to be very genteel.

ALBANY, June 3.—Michael O'Brien, 60 years old, was hung here to-day for the murder of his wife some time ago at Cohoes.

☞ Liverpool dates to May 21 are received by the America. Cotton and breadstuffs droop. Consols lower.

A despatch dated Pavia, 18th, says the headquarters of the Austrian army have been removed to Galasco.

Great movements of troops had taken place, and a collision is expected to take place to-day or to-morrow.

Rumors from other quarters also state that a battle is considered imminent; but the London Times, in summing up the position of affairs, considers it almost certain that June will have begun before any great blow is struck.

The Austrians continue their exactions on the population. Vercelli is filled with consternation and quite out of condition to comply with such demands.

During the night of the 17th a body of Austrians, 100 strong, escaladed the bridge through a breach, and made a fruitless attempt to take it. No collision had occurred between the two armies. The Austrians had withdrawn from Vercelli and blew up the bridge.

The official Weiner Zeitung announces that a Norwegian brig going to Venice was stopped by a French frigate and informed that all the Austrian ports, except Trieste and Ancona, were in a state of blockade.—The commander of the fortress of Venice had received no notice of the fact. The French fleet before Venice had already taken twenty vessels.

The Liverpool Post professes to have reliable information explanatory of Austria's mysterious proceedings. It says the moment the French troops cross the Ticino, the Austrian troops will march direct on Paris. Russia will then join Austria, and the reward of what appears like treachery is to be Moldavia and Wallachia. The crossing of the Ticino will be regarded as an invasion of Austrian Territory, and on that Prussia and Germany will act. The Post then proceeds to show the incentives for a European league against Napoleon, and says it is disposed to place implicit reliance in its information.

Great Britain.—The shipping trade was greatly agitated as to the conveyance of goods contraband of war. Lord Malmesbury, in reply to a special inquiry whether the neutrality proclamation contemplated coal as contraband, says that the passages in the proclamation referring to contraband goods are not intended to prohibit the exportation of coal or any other article, but to warn her majesty's subjects that if they do carry for use of one belligerent articles which are contraband, and their property be captured by another belligerent, her majesty's government will not undertake to interfere in their favor against such capture.

The eight large steamers of the European and American Company have been definitely purchased on speculation by Messrs. Lever and Howard, Manchester.

20,000 landsmen have been enrolled in the British Navy in a few weeks.

Switzerland.—An inclination is manifested by Italian refugees on Swiss frontiers to stir up a revolution in Lombardy. It was put down by the Swiss troops, who seized a quantity of guns and gunpowder.

The Swiss Federal Diet had resolved on prohibiting the exportation of arms to, and the collecting of arms by the inhabitants of, places in the immediate vicinity of the Italian frontiers.

Fugitives and deserters, able to bear arms, are to be forbidden to pass from the territories of one belligerent to the territories of another.

India.—Tantia Topee was tried by Court Martial, April 15, sentenced to death, and was hanged on the 18th.

The rebels, in small bodies, continued to be fallen in with, and generally dispersed.

Late advices from Calcutta report the death of Commissioner Yeh.

☞ Letcher's majority in Virginia will not be far from 5000. Aside from his proslavery position, which is not natural, says the Manchester American, he is an excellent man—honest, able and industrious.—Goggin, his competitor, is less talented, and won no reputation in Congress. In personal appearance, he closely resembles W. H. Estey of Dover, and used to be called "Old Goggles" by everybody at Washington.

☞ The Court of Common Pleas at St. Louis is engaged in the trial of the case of the Miss Effie Carstrang, a boarding house keeper, versus Henry Shaw, for breach of promise, in which damages are laid at one hundred thousand dollars. The defendant is sixty-five years old, and a retired millionaire. Edward Bates and other eminent counsel are engaged, and the trial is exciting much interest.

ST. LOUIS, June 3.—Joseph Charles, one of the oldest and most respected of our citizens, was shot and mortally wounded on the street this morning by J. W. Thornton, formerly Teller of the Boatman's Savings Institution. Thornton was tried and acquitted about a year ago on a charge of having stolen $20,000 from the bank, and Charles happened to be one of the principal witnesses against him.

☞ The Newburyport Harald states that Thomas Martin, of Amesbury, who delivered the 4th of July Oration at that place last year, has left town. He is charged with stealing twenty-five dollars and a suit of clothes from Mr. Charles Merrill.

☞ Nearly a thousand tons of granite have been delivered in Plymouth, Mass., and the corner stone of the Pilgrim Monument will be laid with due form on the first of August next.

☞ Rev. John E. Todd, son of Rev. Dr. Todd, has received a call from the Orthodox church in Lancaster, Mass. It is said, also, that he has received a call from St. Johnsbury, Vt.

☞ E. H. Safford of the Haverhill Banner has been removed from the Boston Custom House on account of his Douglas proclivities.

WE KNOW THE REASON.

The reason why all the Ladies *will buy* their Capes of Allen & Paine is that they take particular pains to select the best shades of fine *Water-proof Cloths* from which to make them—have a large variety of the latest style patterns—make all their garments in the best manner, in their own store—cut them to *fit their customers*, so that all may be sure of a fit, whether large or small. The consequence is, everybody that wants a Cape goes to Allen & Paine's for it. **

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balaium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 30 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifilingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tranor have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. THREE SETS OF DARK DEVILS.—A foreign letter thus describes the character of three sets of troops employed by the respective combatants in Europe—the first belong to the French:

"A portion of that terrible army of Gen. Yussuf, the Algerine sharp shooters, have already arrived at Genoa, and taken the railway to Turin. This corps is composed of native Africans, and are reputed a set of very devils, to whom the Zouaves are gentlemanly soldiers. Gen. Yussuf, their commander, is also a native of Bedouin. In the town of Algeira, on their way to Genoa, they broke loose from all command, attacked the Jew's quarters, carried the barricades, the latter had been obliged to build in the streets for their protection, and committed all sorts of outrages.

To balance these the Austrians have an army of 20,000 Croats, a body of despeate men, who are kept in subjection by the promise of plunder and rapine. These men will be marched first across the Ticino into Piedmontese territory.

Then again Sardinia has her body of Corps-Francis, commanded by Garibaldi, a body of violent men composed of the odds and ends of political persecution, a collection of refugees from all countries inspired by political hate and a desire for vengeance."

ROMANCE IN REAL LIFE.—In one of the ships which returned recently to this port, there came a man who has been whaling for nine years. He was formerly a minister, but taking to the intoxicating cup he fell from grace, left the ministry and his wife and family and went, his friends knew not where. In dissipation he had wasted the hard earned wages of nine years sea-faring, and arrived here destitute and wretched, some temperance friends clothed him decently, and made efforts to reform him, as we hope with success. A few days ago he received a letter from his son in Connecticut, saying that all the family supposed him dead and that his wife had married again. The poor man has started for Connecticut, but what will be the ending of this chapter of life remains to be seen.—*New Bedford Standard.*

A company of men, with capital and experience has been formed, for the prosecution of mining in Warren, on the line of the Boston, Concord and Montreal Railway. About three miles from the village is found, in the side of a hill, a large deposit of mineral substance, from which is smelted silver, copper and lead. The deposit is of such extent and richness that the company entertain no doubt as to the financial success of the undertaking.—Suitable buildings, with steam engine and crushing apparatus, are erected already. The miners to be employed will be mostly from the famous Cornish mines in England. Mr. Sheldon, who recently completed a survey of the Atlantic Telegraph Company's mines in New Foundland, is expected to direct the engineering operations at Warren. Mr. H. W. Weeks, of that town, is also actively interested.—*N. H. Statesman.*

IMPORTANT TO FOREIGN BORN CITIZENS.—The following letter from the Secretary of State to a naturalized citizen of Tennessee is of importance to naturalized citizens who may wish to visit Europe:

DEPARTMENT OF STATE,
Washington, May 17, 1859.

To Mr. Politz La Clare, Memphis, Tenn.

SIR—Your letter of the 13th inst. has been received. In reply I have to state that it is understood that the French Government claims military service from all natives of France who can be found within the jurisdiction. Your naturalization in this country will not exempt you from that claim if you should voluntarily repair thither. I am, Sir, your obedient servant,

LEWIS CASS.

DOING BUSINESS FOR FUN.—The Albany Statesman says that a lot of flour passed through that city, destined for New York. Tuesday, which was delivered from the interior of Indiana to Albany for twenty nine cents per barrel! of which the Central Railroad's share was ten cents and a fraction per barrel. And as to the prospect of a cessation of this ruinous competition between the four railroad companies, it is stated that the representatives of the New York Central, at the St. Nicholas Convention, a few days since, were not acting altogether in an official capacity, and that the drawn up agreement will not be acceded to by that company.

THE DUELLO.—Notwitt standing the stringency of the laws of Virginia against dueling, the election which took place last week has produced no less than twelve fights by four prominent men and depriving, under the laws, eight persons from holding any office in the State. Yet Mr. Clemmens of the Tenth District who has been famed for life in one of these, and who could not have taken his position in one of the most menial offices of the State, is doubtless elected to Congress. Thus, those whom the State rejects for her constables, are sent to Washington to make laws for the nation.

A STOCK BROKER IN TROUBLE.—Joseph C. Martin, a well known stock broker in Boston, was before the Police Court on Wednesday, on complaint of Gilman Carey, of Cavendish, Vt, who charges Mr. Martin with having embezzled and converted to his own use fifteen first mortgage bonds of the Rutland and Burlington Railroad Company, which had been left in his hands by the said Carey for sale. Mr. Martin was held in $5000 for trial.

GREASED BALLOTS.—An ingenious Democrat of Virginia has resorted to a novel, and it is alleged a most unjustifiable mode of defeating the will of the people. Apprehending that his name will be scratched, he has prepared greased tickets, so that the paper will not take any further impression or erasure. There is much clamor among his opponents, and it is believed that nothing in the resolutions of '98 will justify the extraordinary proceeding. Democracy must be declining in Virginia if the party cannot swallow a candidate without greasing.—*Prov. Jour.*

Three students of Dartmouth College recently sailed down the Connecticut from Hanover to Springfield, Mass. They were less than four days on the trip, in a small skiff, including all delays for meals, sleep, &c. It must have been a delightful journey. The party are members of the Phi Boat Club, and their names, George White, Samuel B. Kidder, and Frederic S. Tracy.

The Empress Eugenie wore on a recent occasion, a bonnet of white crape, with a *small humming bird* placed on a spray of lilac.

The average of advertisements in the London Times under the head of "want places," is about seven columns daily: and as none of these exceed three lines, and about half of them are two line announcements, the reader may form some idea of the number of persons in London constantly in want of employment.

The Salisbury Villager gives the number of hands employed by the Salisbury Company as 890—males 546, females 344. The Americans employed number 448, Irish 228, all others 214.—The amount of wages monthly is $19,260.

Dr. Abbott, the well known collector of Egyptian antiquities, died on the 30th of March, at a village near Cairo, Egypt. He spent about twenty years in collecting Egyptian antiquities and relics, and expended during that time about $100,000.

Mr. Shillaber has a new work in press, which will be sore of a warm welcome.

Private letters from New Orleans from respectable sources, say that several cases of yellow fever have made their appearance there.

The editor of the New Orleans Bulletin brags of having feasted already on green corn, full grown and remarkably delicious.

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor o e Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may select them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice he has treated upwards three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are incurable, yet not one in a hundred to receive payment of all sums due said firm.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

The medicines can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMEDY PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are unknowingly used by the fair sex at the expense of destroying what is the great pillar of life, a healthy constitution.

Those who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is to be found.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads; removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches; and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*; and if used by the young, two or three times a week' it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a BOTTLE thereof I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and feel justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any much, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. B. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females*. It is prepared from an Indian plant, which from time immemorial has *rendered parturition* among the natives so easy, and is now for the first time offered to the public. The name and virtues of this wonderful plant was recently obtained from *Skenan-to-wah*, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours*. This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe in all cases.

☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sold by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and churning.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve STOCK HEADACHE.

Only one dose immediately relieves COLIC.

One dose taken at night, or a teaspoonful taken in the morning, will relieve FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE ONE DOLLAR PER BOTTLE.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under date of 1836.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unnecessarily superior to, any which can be offered them elsewhere. The testimonials below given prove this. Some of WHOSE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and does believe, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, which, together with a valuable library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of pushing their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on the part leads me to recommend all inventors to apply to him to procure their patents, for they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON.
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Cleansing and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance will it turn dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.
Silks, Silk Dresses and Ribbons watered.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JUNE 6, 1859.

☞ The Congregational Journal gives us to understand that the Mr. Lee who is the author of the new book on Eschatology, or the scripture doctrine of the Coming of the Lord, the Judgment and the Resurrection, is the Rev. Samuel Lee, pastor of the First Congregational church at New Ipswich, N. H., and adds:

We have long been aware that Mr. Lee entertained theories on the "Kingdom of Christ," "Coming of Christ," the "Judgment," "Heaven" and the "Resurrection," at variance with those commonly received among Orthodox Christians. How well he has succeeded in establishing them from the Scriptures, we must take time to judge from a careful perusal of his arguments.

The fact is that Prof. Bush, by his book on the Resurrection, published while he was a Presbyterian, unsettled the minds of many young clergymen, and some not very young, "among Orthodox Christians," as to the Resurrection, and they have never since been settled on any uniform basis.

And Prof. Alpheus Crosby, then of Dartmouth College, in his book on the Second Advent, published in 1850, set some of the best minds in the land to thinking intensely on a better theory of interpreting the New Testament, so as no longer to do violence to its language.

Prof. C.'s theory was "quite at variance with those commonly received" on those subjects; yet his known thorough scholarship in the Greek language—and his full exhibition of *every* text on the subject, have so shielded his book that *no reply* to it has ever been made to our knowledge.

Prof. Crosby was not a pastor, however, and as he soon resigned his place in the College, his book was not disturbed by those who could not handle it.

With Mr. Lee the case is different. He is a pastor, and has been so of the church in which he now ministers for twenty years and more. We have much interest in knowing how his work will be received.

PHILADELPHIA LIQUOR STATISTICS.—We find in the Philadelphia Ledger a statement by which it appears that there are in that city 8481 places where liquor is sold, while the number of licenses amount to only 1796. On Bedford, Spofford and Baker streets, and such like localities, nearly every habitation has its supply of liquor, which is given in exchange for stolen goods, offal, &c. In some places it is retailed at one cent per drink. In a distance of four short squares, there are fifty-three drinking places, and one side of South street, some short distance, thirty-five. In another locality, comprising a space of four squares by half a square, there are forty-seven. In two and a half blocks, bounded by Twenty-third, Vine and Hamilton streets, and the Schuylkill, there are thirty.

The reader will please to look at these statements, and to remember that the *restraining* part of a license law is not executed better or more easily than the *prohibition* in another kind of law.

☞ The Washington States says of the Virginia election:

We regard the result of the gubernatorial election in Virginia as having virtually opened the Presidential campaign of 1860. We confess that we are painfully surprised by that result. We confidently calculated that Mr. Letcher would receive a majority of from ten to twenty thousand votes.

The Richmond Enquirer, too, is convinced, it says, that "Sam is not dead." Equally disappointed are other Democratic editors in Southern States, while the Whigs and Americans in Virginia are wide awake to pick their flints and try it again.

☞ The New Haven Palladium says that some remarkable revelations may yet be made in the case of young Sage of Cromwell, for whose supposed murder one Nugent was on trial when Sage appeared in Court alive; and for swearing that he witnessed the alleged murder, a sailor named Benson was sent to the State Prison. The release of Benson is petitioned for by parties who say that he did witness a murder, and that if he is released they can clear up the whole mystery.

☞ A Philadelphia manufacturer has just completed an iron "temple," which was made to order for the State of Virginia, and which is to be placed over the remains of ex-President Munroe, at Hollywood Cemetery, at Richmonth, Va., where they were recently reintered. The "temple" is a gothic structure, eight feet wide, eleven feet long, and having a height of twenty-one feet. The material is iron throughout, and the metal has been wrought into the most beautiful and graceful form.

☞ Jacob Schiefferman, employed in a Chicago brewery, went into an empty beer vat to clear it out, when by mistake the boiling beer from another vat was let in upon him, and before he could be rescued he was so terribly scalded that he lived but a short time.

N. H. LEGISLATURE.

On Friday, June 3, the Convention of the two houses elected the Secretary of State and the Commissary General. The correspondent of the Atlas speaks thus of the election;

Hon. Thos. L. Tullock was re-elected Secretary of State by a vote of 186 to 118. This selection, though to be taken as a matter of course in consideration of the two years rule, was in fact made with the utmost cordiality and unanimity. Years ago when Mr. Tullock was a member of the legislature, his industry and skill saved the State thousands of dollars. He was upon the committee on apportionment, and nothing but his indefatigability and experience in business of that nature enabled the apportionment to be made at that session, thus saving an extra session and consequently saving the State $20,000 or $30,000. The State may rest assured that whatever business it entrusts to Thomas L. Tullock will be done thoroughly and well.

Gen. Thos. J. Whittem was re-elected Commissary General by a vote of 205 to 112. Another well-merited acknowledgement of services rendered true American Republican principles in the State.

The Standing Committee were then announced in both houses.

☞ Amelia McIntire, teacher of a Catholic school, in the vestry of St. John's Church, in East Cambridge, having occasion to punish a boy named Lehan for misdemeanor, his mother, Catharine Lehan, visited the school and committed a serious assault upon the teacher. Mrs. Lehan was arrested at the instance of Father Brannagan, and brought before Justice Ladd, who imposed a fine of $30 and costs, from which sentence she appealed, and gave bonds to prosecute the case.

Father Brannagan might have given the fighting woman a medal and a blessing,—as the conscientious profane boy, who made trouble in Boston lately. To be sure this Cambridge School is Catholic, which makes a difference to the priests—but if rebellion be encouraged among ignorant people, against one school, it will be likely to be seen in others.

AN IMPORTANT QUESTION.—The Providence Journal, in an article on the recent murder of Mr. Arnold, in Centralville, R. I., says:

"There seems to be little question that the crime was committed in the cause of the illegal sale of spirituous liquors. The vindication of the law, the public safety, demand that the work in which Mr. Arnold fell should be taken up by all the friends of order in the community. It has ceased to be a question of the sale of liquor; it has become a question of the security of life; whether a man shall be murdered for attempting to inforce the law of the land; whether a citizen perils his life in coming to the aid of the constituted authorities"

☞ Hall's Journal of Health recommends all persons, married or single, to sleep alone—for various reasons, but especially on account of lone sleepers having better air and being subject to less of the bad effect of the impurities constantly being thrown off by every living creature.—The editor of the Journal of Health supports his opinion with arguments reasonable enough—but what will he do with Eclesiastes iv: 11?

☞ Col. Fuller writes from London that Victoria is, beyond all question, a model wife and mother, as well as a most gracious and virtuous Queen. Her subjects love her so well, that no radical or republican wit dares to caricature or satirize her.—Quite different it is with Prince Albert, who is often *Punched*, when the dear little Queen says, in her wife-like affectionateness —"*Why don't they ridicule me instead?*"

☞ The Baltimore American warns the coming Slaveholders' Convention in Maryland against taking any severe action against free negroes, saying:—"There is enough Black Republicanism in Maryland to make a faction, and to establish an organ, if the slaveholders will only act intemperately, and give the excuse to raise the cry of persecution."

☞ The Springfield State Register says the employees of the St. Louis, Alton and Chicago Railroad have recently been paid the arrears due them, in pursuance of the agreement entered into at the Bloomington Convention. The amount paid the employees is about $25,000. General satisfaction exists all along the road.

☞ It is said the most skillful attendants at the Trenton Lunatic Asylum have no doubt of the entire sanity of the man Maud, who recently escaped from confinement and murdered his sister in Newark, as related in this paper a day or two since. His insanity is supposed to be assumed, for the purpose of carrying out his revengeful designs.

☞ A man named Atkinson, and his wife, were recently killed by lightning, near Hickory Grove, Iowa. They were sitting at the breakfast table, with a laborer in company, when struck with lightning.—Both remained sitting in their chairs, dead. The laborer was not seriously hurt, and the house but little injured.

☞ The citizens of Vicksburg held a mass meeting on the 21st ult, to express the public sense regarding the course of the late convention in that place in relation to the opening of the slave trade. Henry S. Foote called the meeting to order. W. L. Sharkey was President. The Whig says:—

"The speeches of Judge Sharkey, William C. Smedes, Esq., Col. T. S. Martin, the Rev. Dr. Marshall, and others, were rapturously applauded, which plainly showed that the popular heart was with the conservative cause, in favor of maintaining the laws of the land and respecting the rights of humanity, as well as against the introduction of '*Guinea niggers' to reduce the price of labor.*"

NEUTRAL ADVICE.

Let France delight to go and fight,
If 'tis her folly to;
Let Austria cry for "territory!"
With that we've nought to do.
Our shout must be "Neutrality!"
To England peace is sweet;
But, friends, that she may neutral be,
Let's Man our Forts and Fleet!

DOVER ENQUIRER.—This standard Republican journal, we are pleased to announce, has been very much enlarged, and for the best of causes, namely: Such an increase of advertising as makes enlargement necessary in order to do justice to readers.

That venerable and highly respected Representative, Hon Abner Greenleaf, of Portsmouth, was promptly in his seat at the opening of the session, and assisted in counting the votes for Speaker. Mr. Greenleaf was President of the Senate in 1829, but, being appointed Postmaster of Portsmouth by President Jackson, he resigned, and Hon. Samuel Cartland, of Haverhill, was chosen President of the Senate.—*Statesman.*

A MODEL COMMUNITY.—In the farming town of Hancock, N. H., for a period of twenty-seven years, ending 1850, not a single case was entered on the records of the County Court, the parties in which belonged to that town.

THIRTY-THREE STARS must be on the National Flag from and after the 4th of July next. This is in compliance with the act of Congress, passed April, 1848, which declares that on the admission of every new State, one star shall be added, and that such addition shall take place on the 4th of July next succeeding its admission.—*Richmond Enquirer.*

☞ The dwelling house of A. W. Parker, in Giles county, Tenn., was burnt on the night of the 17th ult., and with it three of Mr. Parker's daughters, the oldest fifteen and the youngest seven years of age.

According to the old mythology, Neptune, the sea-god, created the horse, and was the patron of horse-races. This, probably, accounts for the fact, that people who patronize the race-course so frequently get "half-seas over."

☞ Last Saturday a man in Canada, feeling ill, sent his wife to the village shop for some salts and senna. Instead of salts *alum* was sent. The unfortunate man mixed a tumbler, was taken very ill, and died shortly after.

☞ A fashionably dressed pickpocket in a New York omnibus recently relieved a lady of her purse. In the operation a diamond ring valued at $500 slipped from his finger and remained in the lady's pocket, where it was found by her.

☞ Wm. C. Halsey, a landscape painter in New York, died very suddenly last Tuesday of intoxication.

☞ The amount required to pay off the sailors and marines employed in the Paraguay fleet, will be about $322,000.

OLEINE DIAMOND OIL!!

GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and, though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters line been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one teaspoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regulated, by taking one of Radway's Regulators per day. *As a styptic,* Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians as a safe remedy for DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

☞ A gentleman who by much trouble and expense ornaments his premises with shrubbery and flowers, complains that loose cows trouble him greatly of late—and gives the owners a gentle hint, in his card below. A cow kept in any compact town or city is nuisance enough, without her being turned loose to forage in gardens and yards.

PORTSMOUTH, June 4th.

Cows, of late, have become quite troublesome. Five, three, and two, at different times, have entered my yard, mutilating and destroying what cannot be restored this season. They *must* not go at large, except under the care of some one. A word to the wise is sufficient. A CITIZEN.

☞ Our city milkmen have lowered the price of milk to 4 cents per quart, from June 1st. Cheap enough. It won't pay to keep cows in the city any longer, when you can have good milk left at your door for this price. Don't water it any more, tho'. Milk was sold here at 5 and 6 cents in the winter, and was kept up to 5 all last summer.—Perhaps 4 cents *is* as high as milk should be—but perhaps some folks wouldn't think so, if they had to rise at 3 o'clock, milk a drove of cows, and supply a good route of customers.

SOMETHING NEW.—See notice of Oleine Diamond Oil, advertised by Messrs. Joseph Harvey & Son. THE TRADE OF THE LAKES.—In the Pittsburg Gazette, we find the following description of the Commerce of the Lakes, which, exaggerated as it evidently is, has yet a shadow of truth in it, and indicates the revolution which the railway is making, in the commerce of the country:—

When the great avenues, the New York Central and New York and Erie Railroads were built, the course of trade was upon the bosoms of the great lakes. The great lakes, is a very roundabout, but is a most capacious way, made vast areas of the southwest available or tributary, and the trade struggled as best it might to their surface, finding vent to the seaboard by the Erie Canal and finally by the New York Central and the New York and Erie. But meantime, the great Southwest busied itself with its railways, *railways built to carry her products to the lake shores.* Instead of carrying the trade to those shores, these roads have mysteriously *sucked it away from them*, and taken it more to natural outlets than the excessively devious pathway which the New York railways and Erie canals afford.

To-day then, these great reservoirs, even these Mediterranean seas, have no commerce—or scarcely enough to pay the lighthouse men. Chicago is mortgaged to probably 100 per cent. above its value; Cleveland has 50,000 idlers in it; Sandusky has 12,000, and a railroad depot that cost $500,000 in charge of a watchman; and at Buffalo there exists a perpetual Sabbath.—Take a fishing smack from any of these ports for a day's sail, and when you get out of sight of land you will find yourself

"Alone, alone—all, all alone;
Alone, on a wide, wide sea."

For hours you see no shred of canvas—no dusky volume of smoke belching from the funnel of a steamer. The horizon is clear, a well defined, uninterrupted line of water and sky, occasionally serrated by the waves in a storm.

HOW TO KEEP POOR.—Buy two glasses of ale every day, at five cents each, amounting in one year to $36.50; smoke three cigars, one after each meal, counting up in the course of the year to $50.75; keep a big dog, which will consume in a year at least $15 worth of provisions, and a cat $5 more—altogether, this amounts to the snug little sum of $110.25—sufficient to buy several barrels of flour, one hundred bushels of coal, one barrel of sugar, one sack of coffee, a good coat, a respectable dress, besides a frock for the baby and half a dozen pair of shoes, more or less.

BRONCHITIE.—Rev. F. L. Shaver, President of the Alabama Conference of the Methodist Ppotestant Church, in an account of his winter tour through the district, says:

"I smoke a composition of equal parts of saw dust of fat lightwood and ground coffee, for the benefit of my throat, and it has done me more good than anything I have tried for years. It is here giving relief to all who are afflicted with bronchial disease. Try it, and if it does not do you good, it will be the first failure, in my knowledge, after a good many trials."

SUGAR MARKET.—The New York papers state that the condition of the trade in Cuban sugars and the heavy stocks in that market attract attention. The losses on sugar have been large, and prices have not yet seen bottom. The decline during the last ninety days has been about two cents a pound. The Express says the high price at which sugar acceptances are offered (two per cent. per month for paper due in July) is explained in part by the large stock of sugar in New York.

☞ Three murders were committed in New York, Friday night. Henry Rourke, an Irish laborer, kicked his wife to death early in the evening; and an hour later Patrick Dowdy, a notorious rowdy, was stabbed to the heart at a sailor boarding house in Water street, by one of his rowdy companions. A woman named Margaret Grove, was stabbed with an icepick, at a dance house in Water street, by a companion named Elizabeth White. Margaret will die.

A PRAYER FOR THE PRESIDENT.—On Easter Sunday, in the English Episcopal church at Brussels, the following prayer was read as a part of the services:—

"O Lord, our Heavenly Father, the high and mighty Ruler of the Universe, who dost from thy throne behold all the dwellers upon earth, most heartily we beseech Thee with thy favor to behold and bless thy servant, the *President of the United States, &c.*

The correspondent of the National Intelligencer says:

I shall never forget the effect of the reading of this prayer for our beloved country and President in an English Church, and by official authority, in a foreign land. At the conclusion of the prayer an earnest response was given, which was joined in by more than one of the English congregation; and thus was established the first example, I believe, in Europe, where the prayer for the President of the United States is to be included in the regular service of any congregation of the Church of England, under official authority and recognition.

EASILY UNDERSTOOD.
It is getting to be a fact pretty generally well understood among the Ladies that the *best* place in town to buy a Cape is at Allen & Paine's.

WE KNOW THE REASON.
The reason why all the Ladies *will buy* their Capes of Allen & Paine is that they take particular pains to select the best shades of fine *Water-proof Cloths* from which to make them—have a large variety of the latest style patterns—make all their garments in the best manner, in their own store—cut them to *fit their customers*, so that all may be sure of a fit, whether large or small. The consequence is, everybody that wants a Cape goes to Allen & Paine's for it. **

GOOD FOR KIDNEY AND BLADDER COMPLAINTS,
and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.
D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residuum after evaporation by steam, a substance almost insipid and very trifling y aromatic, with flavor of vanilla; but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracer have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. COMPROMISE AND SETTLEMENT.—Several papers, mostly of the Cow Boy, and Fire Eating stamp, affect to be greatly rejoiced over what they term a new compromise on this question. The last compromise was made by the Kansas Nebraska bill, and there can be no other! That took the matter out of Congress and left it to the people—whether of a *State* or *Territory*—and there it must rest.—The idea that the people are the people, only, when they want to become the people of a State; that the domestic institutions of a territory mean only the domestic institutions of a Territory just as it asks admission as a State; and that a Territory has the right to self government, only when it forms a constitution for a State, or, in fact, has the right to self government as a *territory*, never at all, won't go down, as compromises, or as anything but a silly dodge. The question must be met fairly and squarely, and the pledges of the campaign of '56 carried out openly and above board! The Charleston convention must make an end of the nigger, politically, or it will make an end of the Democratic party. It will take its choice, one or the other must come. We can discuss, and banter about the matter till that convention, but after that, the nigger must be counted out of the game. With the Northern Democracy, for a quarter of a century, it has been a race with the nigger, the nigger all the time ahead. We are out of breath—we can run no longer. The race has been degrading and disastrous. What few of us who have survived, must halt. Our Southern friends must call off their niggers or their niggers must have it all to themselves. The question was settled by a full, fair, and free agreement, in '54, and '56, and if it is to be renewed under some specious pretext or flimsy disguise, so be it! But we tell our brethren plainly—we laid down the nigger in '56. It rest as nearly our organization to shake him off. But we did it, and you agreed never to saddle us with him again. We laid him down. We shall never take him up! You may take him and do what you please with him. *We* have had enough of him. *We* have done with him. If the solemn arrangements and agreements of '54 and '56 are to go for nothing, then there is never to be any arrangement or agreement that we of the North can rely upon, and the game is up.

There may be a compromise on men—a compromise as to what man can best carry out the principles of the agreement and settlement of '54 and '56—but that is all! We care not a straw whether you take Douglas or Davis; Slidel or Stewart; Brown or Buchanan; Hunter or Harris; Wise or Wells,—men are of no consequence; but the compromises, agreements and settlements of 1856 must be adhered to, in a plain, open and manly, way without the least attempt to dodge or the least show of prevarication. Then we are all right. Then we poor devils, here, at the North, who have been tied to the nigger till our children don't know us, can straighten up, a few years before we die, and gain what of our old pride and position is not utterly annihilated.

The Southern Democracy, will have, at Charleston, their choice to take between the everlasting nigger and the Northern Democracy. They must count out, one or the other. Both can work together no longer. We lose at every deal. It is no use. Give us the platform and principles of '54 and '56—select your own man, and we will elect him, but do anything, and you know as well as we do what the result must be.—*Vermont Patriot.*

MARINE APPEARANCE OF EXETER.—A town correspondent of the News Letter writes thus:—

MR. EDITOR,—It can hardly be necessary to remark the appearance of a sea-port, which this place now wears. From your office, we suppose, you have seen the masts of the fine schooners now unloading at Mr. E. O. Lovering's wharf. But th se are not the first of the season. The "Martha," schooner from Bangor, arrived on the 13th ult. with lumber and lime to E. O. Lovering.—Also, the same day, the "Dido" Capt. Conner, of Exeter, returned from her first trip to Portsmouth. Sailed on the 15th ult. Schooner "Watchman," Pendleton, from Bangor the 28 ult. arrived on the 5th inst. with shingles and slate to Mr. Lovering. Sailed on the 7th, schooner "Blue Jacket" Packard, from Bangor the 5th, and "Gov. Aitteon," Turder, also from Bangor, the 5th, arrived on the 13th, with lumber and shingles for Mr. Lovering. "The Dido," meanwhile, has made several trips to and from Portsmouth. The herring fishing has commenced, and we know no reason why it should not be as profitable a season as heretofore, but have seen nothing of the fishing smack yet.

The Democracy of Butler County, Ohio, assembled in Mass Convention at Columbus, the State Capital, on the 28th ult., for the purpose of considering the present condition of the party, appointing delegates to the State Convention, to the Convention for the nomination of a State Senator, &c.—The attendance was very large and enthusiastic.—A series of resolutions was adopted, from which we take the following:

Resolved. That we regard with undissembled indignation and alarm, *the attempt to mutilate or abridge the great principle of Popular Sovereignty and non-intervention*—that we maintain with unshaken firmness the doctrine that *the power of the people of a Territory*, with respect to *domestic legislation, is as plenary as that of a State*, and stamp as *unsound* the theory which limits the right of the people of a Territory to act in reference to the institution of Slavery to the one particular time when they come "to organize their State government."

LAUNCH.—A schooner of about one hundred tons was launched from the yard of Thomas H. Cushing, Esq., near his steam mill, at the Guff, a few days since. Fifty years ago ship-building was an important branch of business in Dover, and vessels of large size were annually sent down the river; but since the establishment of manufactories and the disappearance of ship timber from this section, little has been done at it. The launch of a ship, any size, a ship of some 400 or 500 tons, was launched twenty-five years ago, from the ship-yard of Rogers & Pierce, near the coal yard of the Printery.—*Dover Enquirer.*

SICKLES.—The New York Journal of Commerce of Tuesday last, has the following item:

"Hon. Daniel E. Sickles appeared on Broadway yesterday, in promenade dress, and took the fashionable and crowded side of the street, unflinchingly. It was a dread ordeal for a man so well known in *propria persona*, and by pictures, as Mr. Sickles; but far less terrible than it would have been three weeks ago, or just after his acquittal. Since then, the great war question has come above the horizon, eclipsing the Sickles' trial and all other topics of interest."

REJECTED.—The petition for the pardon of Nelson N. Downing, now in prison for the homicide of Mrs. D. H. Spinney, has been acted upon by the Governor and Council the past week, and the application rejected.

☞ The repairs of the Boone Island Ledge bell boat having been completed, she has been replaced at the ledge. The boat is moored a little nearer the ledge than formerly, in eleven fathoms of water, with the same bearings as before.

The Vermont Democratic State Convention for the nomination of State officers and delegates to the Charleston Convention, is to meet at Burlington on the 15th of June. It will endorse popular sovereignty, and send Douglas delegates.

THE GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

MRS. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as very valuable for the purpose for which it is designed, Family Sewing."

MRS. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

MRS. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

MRS. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and do confidently recommend it for every variety of family sewing."

DR. J. B. HUGHES.

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled by any other remedy prior to regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, and have been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

Ladies desirous in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—In view of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j3 d1y

LOTTERIES.

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color to whiskers or the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and scurf from the scalp, quiets and tones up the nerves, and thus cures most of the headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudice which I had to anything of the kind, many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, and I do not regret it.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was before having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, than the testimony of my own demonstration, I write you this letter, which you may show to any such, and also publish my name and further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

BROOKLYN, Eng., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair once more growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Feb. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also recovering its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

YOU HAD BETTER TRY
MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"**My Mother's Salve**" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"**My Mother's Salve**" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"**My Mother's Salve**" is a BURN OF SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"**My Mother's Salve**" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "**My Mother's Salve**" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M. Beck.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females.* It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the native women easy; and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from *Shawan-do-ah*, an Oneida Chief, by our travelling agent, Mr. N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours.* This is no quack nostrum, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times.

☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Rent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.

PREPARED BY DR. SANFORD, *COMPOUNDED ENTIRELY FROM GUMS*, is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These Gums remove a disease often repentant morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, THUS THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and ventilate food from rising and souring.

Only one dose taken before retiring prevents NIGHTMARE.

Only one dose taken at night, locates the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

Is a cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhœa in its worst form, while Summer Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by addressing One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

Boston, February 1, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twelve rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON.

A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.

Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Cantoon and Merino Shawls, Dress Pieces, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.

Silks, Silk Dresses and Ribbons watered.

TUESDAY, JUNE 7, 1859.

NEUTRAL OR INDEPENDENT.—The Carroll County Register, No. 1, is just issued at Ossipee, by J. F. Roberts, who formerly published the Pioneer, at Wolfborough.—In his introductory to the new paper, he says:—

We have been met by some with the charge of deception in commencing the Pioneer as a *neutral* paper, and changing it to a political one. To this we plead "not guilty," inasmuch as the Pioneer never pretended to be a *neutral*, but an *independent* paper—a position which we still believe to be the true one for a public journal, but one which we were forced to abandon because the public would not sustain it. The Register will be *neutral* in politics. Although we shall endeavor to give all necessary political news, we shall make no comments favorable or unfavorable to any party, but act the part of an impartial judge, giving *facts* to the people, who are to render a just verdict.

It is a much more difficult thing (says Uncle Toby) to be *neutral* in politics than to be *independent*. The Bath Times is an *independent* democratic paper, and so is the N. H. Gazette, just now,—the N. Y. Tribune is an *independent republican* paper, and so are others, i. e. not bound by party ties, and not *organs* of any man or any administration.

If the new paper gives political news and facts,—somebody will set up a howl because it is supposed to bear too hard on his party, to upset the Union, break up the church, or something of that sort.

A paper may be *silent* on politics,—but if it says a word, somebody will snuff heresy or treason in the breeze, says Uncle T., though it be as gentle and as pure as the breath of spring.

THE MAN CONVICTED IN WASHINGTON FOR HARBORING HIS OWN CHILD.—A correspondent of the New York Post gives the following account of a man convicted in Washington of the offence of harboring his own child:—

"Said Manuel Mason and his wife were the slaves of a white woman, living a few miles out of the city. A few years ago Manuel was taken sick with inflammatory rheumatism, and was given up by the doctors as incurable. Under these circumstances his mistress offered to sell him for $300. Nobody would take him at that price. Finally she offered to give the cripple his freedom for $300, to be paid her in instalments. He accepted the offer, and paid off the entire sum in due course of time. He partially recovered his health, and *hired the time of his wife* for so much a year, that she might keep house for him in Washington. They raised a large number of children *at their own expense*, but invariably at about the age of ten years the mistress took away each child and sold it off, or appropriated it to her own use."

At last only one child was left, the youngest and a favorite baby. He was sent for to be sold, but he escaped, the father knew not where; he was ordered to find him, but failing to do this, was arrested under a law passed in 1707, which imposes fine of one hundred pounds of tobacco for every hour of harboring a slave. He was tried and convicted, and after lying in jail forty-nine days, was sentenced by Judge Crawford to pay a fine of $166.66, one-half to the owners of the child and the other half to the United States, and to pay all costs. The correspondent of the Post adds:

"The District Attorney was at last prevailed upon to consent, upon ample security that the money will be paid at the end of three months, to let the poor negro go, and be at liberty once more.

In the meantime a petition is circulating asking the President to remit the fine; but without a shadow of success. If any one at the north wishes to help Mason and freedom, the Era office will receive and apply any such moneys."

☞ The trial of John McLaughlin, now going on at Chicago, for throwing a train of cars on the Galena and Chicago Railroad off the track, has disclosed a most daring and diabolical gang of villains, both male and female. The members of the gang are located at Buffalo, Cleveland and Chicago, and it seems they are engaged in murders by all sorts of devices, such as poisoning, arson and railroad obstruction.

☞ The Republican journals of Pennsylvania are pushing forward the claims of Hon. Simon Cameron for the Presidency. The Warren Mail says he would be sure to carry Pennsylvania, and could combine conflicting interests and preferences of other States as readily as Mr. Banks, Mr. Bell, Mr. Bates, Mr. McLean, or Mr. Chase, and much more readily than Mr. Seward.

☞ In New York, the Manhattan Banking Company have offered to advance to the State the amount necessary to pay the interest on the new Canal debt of $12,000,000, upon no other security than the ability and honor of the State. The Legislature had failed to provide the means.

BATTLE OF MONTEBELLO.

We have news from Liverpool to May 26, five days later, and brief accounts of the first battle between the Austrians and French.

This first battle, the battle of Montebello, took place on the 21st of May.—French accounts say the Austrian force was 15,000 strong, under the command of Gen. Stadion. They made an attack upon the advanced posts of Marshal Baraguay de Hilliers, but were driven back by Gen. Forris' division after a fierce combat of four hours duration.

The force of the Allies in this engagement included some Piedmontese cavalry. The Allies carried Montebello, but did not pursue the Austrians in their retreat.

The loss of the Austrians in this engagement is stated by the French at from 1500 to 2000 men, and that of the French at from 600 to 700, with many officers.

Two hundred Austrians, including one Colonel, were taken prisoners.

The Austrian account simply states that Gen. Stadion pushed forward a reconnoissance by a forced march towards Siglio and Montebello, but after a hot fight with a French force of superior strength, retreated behind the Po in perfect order.

The actual strength of the French forces not stated. Report says from 6000 to 7000, besides a regiment of Sardinian cavalry.

The Sardinian Bulletin also announces that the extreme left wing of the Sardinian army under Gen. Cialdino, forced a passage over the Susa river, putting the Austrians to flight.

Gen. Garibaldi had entered "Gaven," in Lombardy, with 6000 men, his object being the revolutionizing of that State.

Cotton, provisions, and money, remain without essential change.

The weather has been favorable for crops. Flour is dull, with a small demand and weak prices.

A general meeting of the Atlantic Telegraph Company is called, to sanction the heads of agreement with the government, and the issue of preference shares of £600,000 new capital.

The Paris Moniteur announces that France will address a note to the Powers in favor of the abolition of privateering, and the principle that a neutral flag covers enemy's goods.

☞ The crew of the U. S. ship Minnesota were put ashore on Saturday P. M. in Boston. One of the crew named Daniel Farrell, was murdered in North street, Saturday evening, having been stabbed in two places. Two men were arrested as the murderers, viz. Patrick and Dennis Mullen. Which committed the deed has not been determined. A man named John Foster, one of the crew of the Minnesota, was arrested as a witness, though he appears to know little of the affair. It is probable that the parties had an altercation while under the influence of liquor. Farrell was about 30 years old, and has a mother in Baltimore. The Mullens are accounted as rough among the roughs. Another of the crew, John McNesmouth, fell from the window of a House in North square, and was killed.—The crew number 600. On Friday next the sum of $105,000 will be dispensed among them. The land-sharks will attempt to rob them of their hard earnings.

☞ In another paragraph, we mention the violent deaths of two sailors of the Minnesota in Boston. When we consider that 500 or 600 of them were about Boston streets on Saturday, and that most of them were armed with sheath knives, it is strange no further collisions occurred.

About 150 of the men visited the Howard Athenæum on Saturday evening. During the performance a fight occurred between two of them, which threatened a general row, and in the course of the evening one of them was only saved from a precipitate descent from the family circle to the parquette, by one of his shipmates grasping the leg of his unmentionables, and hauling him over the rail.

FREAK OF—PIGEONS.—We are credibly informed that two male pigeons recently built a nest in an outbuilding in the south part of the town. Observing this curious proceeding, and finding the nest complete, the family occupying the premises placed in it a hen's egg, whereupon the two pigeons commenced the work of incubation, and alternately sitting upon the egg, at the proper time hatched a chicken. Two more eggs were then put in, and these were also hatched in due season. This curious proceeding is the more remarkable, because, as we are informed by our natural history friend, the eggs of the pigeon are hatched, if at all, in two weeks. If at the end of that time the young do not appear, the pigeons forthwith tumble the eggs out of the nest, and begin again. The eggs of the hen require three weeks' incubation. In this case the pigeons waited patiently the appointed and a longer period of time.—*Nantucket Mirror.*

SENTENCED TO BE HUNG.—*New York, June 4.*—James Stevens, the wife poisoner, who had been previously sentenced to death, and appealed to the Supreme Court, was to-day sentenced by Judge Rosevelt to be hanged on the 22d of July.

STEAMBOAT EXPLOSION.—*New York, June 4.*—The steamtug Margaret Kimball, lying at a pier in East River, blew up this afternoon. The captain and three hands were blown into the river, but were rescued. They were badly scalded, but it is hoped not fatally.

☞ The cost of the Utah army up to the end of the second quarter, was over $5,000,000, and add to this the estimate for the fiscal year ending June 1, and the expense of that army for one year will range between seven and nine millions.

THE SPIRIT OF SONG.

Oh! if I were only a Spirit of Song,
I'd float forever above you;
If I were a Spirit it wouldn't be wrong—
It couldn't be wrong to love you.

I'd hide in the light of a moonbeam bright,
I'd sing sweet lullabies o'er you;
I'd bring rare visions of pure delight
From the land of dreams before you.

Oh! if I were only a Spirit of Song,
I'd float forever above you;
For a musical Spirit could never do wrong,
And it wouldn't be wrong to love you.

GO MARRY.—The most beautiful flowers are those which are double; such as double pinks, roses, and dahlias. What an argument is this against the chilling deformity of single blessedness! "Go marry!" is written on everything beautiful that the eye rests upon—beginning with the birds of paradise, and ending with apple blossoms.

A WITTY KING.—The late King of Prussia once sent to an aid-de-camp, Colonel Malachowski, who was brave but poor, a small portfolio, bound like a book, in which were deposited five hundred crowns. Some time afterwards he met the officer, and said to him, "Ah, well, how do you like the new work which I sent to you?"—Excessively, sire," replied the colonel. "I read it with such interest that I expect the second volume with impatience." The king smiled, and when the officer's birthday arrived, he presented him with another portfolio, similar, in every respect, to the first, but with these words engraved upon it:—"This book is complete in two volumes."

OLEINE DIAMOND OIL!!
GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!
The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVALUABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a
SPECIFIC REMEDY FOR CONSUMPTION.
Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."
BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure.* My *fac simile* signature is upon every bottle.

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.
From the Pittsburgh United Presbyterian.
We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.
From the Pittsburgh Post, August 27, 1858.
HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)
Knowledge is gained by experience, and, though we have heretofore deait very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

R. R. R.
A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and HAS NOT BLED SINCE.
In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in its bleeding stage, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a styptic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R. R. Remedies will positively cure.
N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.
R. R. R. is sold by Druggists everywhere.

TO THE CITIZENS OF NEW HAMPSHIRE.
Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
This Gin, distilled in London, from sound barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restorative of the vegetable kingdom, rendering it in the opinion of the most eminent, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, LIGHT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of climate, or diet.
For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'—NONE OTHER IS IMPORTED.

LOCAL.

For the Chronicle.

Fourth of July is coming—and what are you going to do about it—ye wise men who sit in the City Council? Give us something for a celebration that will excite an interest in all classes;—some manly sport, or a grand turn-out of the trades in procession,—or shall we invite the wandering sons of Portsmouth to return again to a home jubilee?—At all events, let us have something in advance of the old routine. S. W. C.

In the draft for the Appropriation bill, which we published a week or two ago, $150 was the sum suggested for Celebration of Independence. This has some chance to be increased in the Common Council, to $500, at the meeting this evening, and will then need the concurrence of the Mayor and Aldermen. $150 would, we presume, fire salutes, ring bells, and give us an out-door concert from the Band in the evening. With the $500, some sort of an entertainment might be provided, which would not only keep at home and interest our own citizens, but also draw enough of our neighbors from abroad to repay the outlay and trouble ten times over.

☞ There was a very *beautiful* white frost observed in this city, Newington, &c., on Monday morning, sufficiently severe to injure some tender plants.

☞ The number of deaths in this city, during the month of May was twelve, as follows:

Males eight—aged 3 months, 6 months, 1 year, 9 years, 15, 15, 40, 68.

Females four—aged 1 month, 6 months, 4 years, 36 years.

There was a "Suck us" in the streets Friday forenoon—a magnified edition of grandmother's tea-kettle with a tin whistle stuck in the nozzle, which its proprietors have the audacity to call by the first class name of "Calliope." And O, Shades of toot horns and pumpkin stalks, what music! But "the great unwashed" followed close to its heels and seemed to like it amazingly. They retired to the field and exhibited the monkey and shorttail baboon, for 25 cents, with the music thrown in. Fun enough for the boys and our country cousins.—*Manchester American.*

DEAD BODIES FOUND.—*New York, June* 4.—A box containing seven dead bodies, was found on Wednesday, floating in the Sound, near West Farms. The bodies were those of two adult white males, one negro, two females, and two children. One of the children had on a ruffled night gown marked C. M. and M. C.. One of the males had three stabs in the left breast. The box was filled with quicksilver. There is no clue to the mystery.

☞ As yet (June 6) the mystery of the seven bodies in a box, found near New York, on the Sound, is not explained. The theories that the bodies might have been medical students, or bodies removed for re-interment, are exploded by investigation.—The bodies have evidently been dead but a few days. On Sunday evening the body of a very richly dressed woman floated ashore at Fort Hamilton. She had a profusion of jewelry, including three rings on her wedding finger, one of plain gold, the other of diamonds and pearl. The body was somewhat bruised, and evidently had not been in the water more than 24 hours.

☞ At Newburyport, Thomas Weir, of Andover, for a violation of the liquor law, pleaded guilty. Sentenced to fine of $50 and costs, and confined four months in House of Correction.

Henry Green, of North Andover retracted his plea of not guilty of a violation of the liquor law, and plead guilty; sentenced to fine of $20 and costs, and confined 40 days in the House of Correction.

STORM IN SOUTH AMERICA.—A letter from Pernambuco of April 30 says a most fearful storm swept the southern coast of Brazil on the 13th inst. It is represented to have been terrible in the extreme. The whole coast, from Bahia southward, is lined with wrecks. The loss of life is frightful. A Brazilian frigate went down with over 400 souls on board; only 40 were saved.

☞ The yellow fever is worse at Rio than it has ever been known. People are dying by the thousand. Its devastations among the shipping are unparalleled. One English brig had buried five captains, and the sixth was down and not expected to live.

☞ The city of Lawreuce is to have a grand celebration of Independence, to which they have invited the Cushing Guard of Newburyport. They have also invited four companies at Lowell, and the Hale Guards of Haverhill, intending to have the largest and most brilliant display of military ever had in that section.

☞ The Bath, Me. Times speaks of two gentlemen as being "appointed to a secret service in the State, at eight dollars a day and travelling expenses, both being inspectors of the *Customs!*—the democratic customs of the people, probably."

☞ A happy pair were, not long ago, joined in wedlock at Falmouth, Mass. Their bridal tour was a whaling voyage that lasted five years. During their trip, the wife gave birth to two babes.

HOW TO CATCH A LUNATIC.

BY CHAS. C. LELAND.

Years ago, when I was a youngster, I became an assistant of Dr. B——, the superintendent of a public insane asylum—in what town it does not matter—the location don't affect the narration in the least.

As in all insane asylums, some of our patients were docile and tractable, and had the freedom of the house and high-walled garden, while others, being violent and dangerous in their madness, were confined to their rooms.

Sometimes one of these last named gentlemen would get loose, a fact which he immediately announced by breaking things generally—upon which announcement the doctor would repair to the spot at which he was "elevating the Ancient Henry," and, advancing upon him, with a steadfast gaze, would fascinate him as a black snake does a cat-bird, and march him off to his room instanter. The Doctor's eye was never known to fail; and he imparted such a portion of his literally *charming* qualities to my fellow assistant and myself, that we were able to master any ordinary maniac, although the Doctor himself had to attend to the "tough customers."

We had one lunatic by the name of Smith, as tall as Tom Hyer, and as strong as an ostrich, besides being possessed of as strong digestive powers as that interesting bird, for he once got loose and swallowed so many cents that he rattled when he walked, yet he showed no injurious effect from the meal.

He had broken out of his room two or three times, but had always gone back very docilely when any of us made our appearance.

The asylum had a saloon in the center with a door at each end; and one of these doors requiring fixing once upon a time, a carpenter was engaged upon it, when in trundled Mr. Smith and quietly possessed himself of a long, sharp chisel. When the carpenter looked around, the madman gave a grin and a poke of the chisel at him; whereupon, the terrified man of chips scuttled out and locked the door—then, while the enemy was battering away at it, he rushed around and locked the door at the other end.

Having thus caged the ostrich, he gave the alarm; and I, supposing that it was an ordinary case which I could easily control, unlocked the door and entered boldly, whereupon he made a rush at me, and I incontinently bolted.

The doctor was sent for. He came, and after reconnoitering through the keyhole, and ascertaining that the enemy was at the other end of the room, he opened the door, and saw at once that his eye would fail him in this emergency.

Here was apparently a dilemma. Here was certainly a problem. *Given:* A crazy individual, strong as a bull, perfectly uncontrollable, and armed with a deadly weapon. *Required:* How to catch him.

To capture him by force was a difficult and dangerous undertaking, and to starve him out would be a tedious affair.

But the doctor did not hesitate for a moment.

"Alfred," said he, "go down into the surgery, fill the largest syringe with hartshorn, and bring it up."

I caught the idea, rushed down and brought back a quart syringe, filled with hartshorn—diluted—for I didn't want to kill the man.

Then the doctor, Jones, and myself, formed an army of invasion. We threw open the door, and entered in the following battle array:

I, being shortest of the three, marched first, holding a chair in front of me by the back, so that the legs might keep off a rush if our pop-gun flashed in the pan. Then came Jones, with the syringe resting on my shoulder like a piece of flying artillery.

Finally, in the rear, in the safest place, like all great generals, came Dr. B——.

The lunatic sat at the other end of the hall on a chair, eyeing us keenly and savagely. Slowly, very slowly, we advanced toward him. It seemed to me that we were seven miles apart, from the length of time it took to approach him. The nearer we got, the more wicked that chisel looked, and the handle seemed to increase till it was as long as a broomstick. When we got within a few feet of him, he jumped up and sprang at us.

"Fire!" cried the general from the rear; and whiz! spatter! splash! went the quart of hartshorn right bang into his countenance—down he went like a log—it would have knocked down a battalion; and while he was catching his breath, we caught *him.*

THUNDER STORM.—*Bangor, June* 5.—During the severe thunder storm of Friday last, the house of Mr. L. P. Goss, of North Carmel, in this county, was struck by lightning, and a child of eight years of age killed. The house of Mr. William Sutherland of Clifton, was struck and almost torn to pieces. The family, seven in number, were all assembled in the kitchen, when the lightning carried the cook-stove through into the cellar from the midst of their circle. No person was seriously injured.

There was a violent struggle last evening, at the Democratic city caucus, between the administration and anti-administration sections, in the election of delegates to the State Convention. After a scene of noise and confusion, the anti's prevailed by 821 votes against 415.

A GREAT SPECULATION.—Thomas N. Mason of Woonsocket, R. I., purchased a year or two since, 4000 shares of the stock of the Quincy mine, at $4 a share. Afterwards, the number of shares was doubled, raising it from 10,000 to 20,000, giving him 8000 shares, and making his first cost $2 a share. At present prices, these 8000 shares would bring near $400,000.—*Marquette (Lake Superior) Journal.*

☞ Horace Greeley says there *is* gold at Pike's Peak. Very little has as yet been dug. A considerable though very inadequate amount of prospecting has been done. As yet this has not yielded enough to pay the board of those employed in it.

☞ A town meeting in Wareham has recently voted "That all persons owning dogs shall be muzzled."

EASILY UNDERSTOOD.

It is getting to be a fact pretty generally well understood among the Ladies that the *best* place in town to buy a Cape is at Allen & Paine's.

WE KNOW THE REASON.

The reason why all the Ladies *will buy* their Capes of Allen & Paine is that they take particular pains to select the best shades of fine *Water-proof Cloths* from which to make them—have a large variety of the latest style patterns—make all their garments in the best manner, in their own store—cut them to *fit their customers*, so that all may be sure of a fit, whether large or small. The consequence is, everybody that wants a Cape goes to Allen & Paine's for it. **

CALL IN.

☞ Step into Allen & Paine's and buy one of those new water-proof Piccolomini Capes.

RUSHES.

All the Ladies are buying their Capes from the extensive assortment offered by Allen & Paine.

CURIOUS.

It is a little curious how the Ladies find out where the largest and best assortment of Capes are made and sold at the lowest prices in the city. We have noticed that they all crowd into the store of Allen & Paine when they are after one of these garments. **

THE EFFECT OF THE EUROPEAN WAR ON PROVISIONS—Will be, and has already been to advance the price, but at the same time we are happy to state that the sales of Dry Goods at Allen & Paine's continue to increase every day.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, ex of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not spoil the transparency of the distilled water in mixing with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Doetjen of Bremen, as residuum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. THE GRIFFIN AIR-LIGHT.

We respectfully announce to the public that we are now preparing and selling Rights for the sale and vending of the above-named light. The Chemical from which the gas is produced was patented March 8th, 1859, and the machine for keeping up a supply of gas was patented March 1, 1858. We will simply say that it is practically one of the *greatest inventions of the age.*

The Light is the

Most Brilliant and Cheapest now known.

The Machine is simple, compact, and can be managed by a child. It is kept in operation by the spring, or a Cord and Weight, and will run 15 lights 12 hours, with once winding.

Persons purchasing Rights can be supplied with Chemical and Machines without delay.

To remove all prejudice and counteract false rumors, we unhesitatingly say that the Chemical is

PERFECTLY HARMLESS

CAN BE USED WITH PERFECT SAFETY.

The Machine can be transported, ready for use at $35 each, and the chemicals can be had for $1 per gallon. Each Machine will supply from 15 to 20 burners, at a cost of three mills to each burner per hour.

The light and machine may be seen at the Shoe & Leather Exchange, Hanover Street, Boston.

All communications for the purchase of Rights in the New England States, addressed to LORING MEIGS, Office No. 17, Shoe and Leather Exchange.

"CURE YOURSELF."

DR. GAY'S SPECIFIC MIXTURE, is warranted to cure Gonorrhœa, and other complaints of the urinary organs. In most cases one bottle is sufficient to effect a cure, but when the case is very obstinate, it may take two bottles to make the cure permanent. The price is only one dollar per bottle.

DR. GAY'S Specific Mixture is a purely vegetable compound, perfectly mild in its operation, pleasant to the taste, and, although a powerful medicine, the weakest invalid can take it with perfect safety.

PARTICULAR NOTICE. The only place in Boston where my medicines can be obtained, is at the drug store of CHARLES W. CLARK, 109 Hanover street, corner of Salem. Orders by mail or express, sent to the above address, promptly answered.

Spermatorrhœa Rings, for Seminal Weakness, kept constantly on hand.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluid, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and allays all irritation, and prevents any nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice with them, very reasonably may be unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I send you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair has resumed its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY CLAPP, JR.,

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, ALA., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite young. I have been trying your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—one is fast hiding. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I shall use your preparation without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $6 a bottle.

ON FROST'S POINT, RYE, N. H.

At the entrance of Little Harbor, 3½ miles by land, 2 miles by water, from Portsmouth. The House commands a view of Portsmouth, New Castle, Kittery, the Navy Yard, Forts Constitution and McClary, Boston Harbor and all the Isles of Shoals. The House is nearly new, and commodious, and has been occupied as a Summer Hotel. Fine outbuildings, consisting of a large horse and bowling alley, all in good repair. The grounds contain **Six Acres,** bordering Little Harbor and the sea, and are well stocked with Fruit Trees. The facilities for sailing, fishing and bathing are unequalled, rendering it a desirable place for a private residence, a private boarding house, or a public house.

FOR SALE.

The balance of the Sagamore Farm, adjoining the above, containing

FORTY-THREE ACRES OF LAND,

of excellent quality, suitably divided into mowing and tillage, and pasture land, and about 100 Fruit Trees on the same, and will be sold as a whole or in lots, as purchasers may desire,—all on the premises.

For further particulars inquire of the subscriber, 116 STATE STREET, PORTSMOUTH.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for healing all kinds of ERUPTIONS, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe, certain and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in it a most great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, received at times, as good judgment may direct. For Rheumatism and other pains, rub the parts freely with Salve. In cases of Cough, Fightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females*. It is prepared from an Indian plant, which from time immemorial has been used *exclusively* by the females so easy, and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from *Siencadabo*, an Indian Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours*. This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times.

☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally,—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.
PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,
is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated, will cure a SPRAGUE'S CHOLERA MORBUS in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken, before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two tea-spoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.
Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists every where. aug31 ly

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under Mason, Bishop, Blake, Boutwell and Chickering.
78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. THOS. JENS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of pushing their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such a unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

FROM Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
R. H. EDDY.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JUNE 8, 1859.

☞ The law, in a remarkable case, has just been laid down, in the opinion of Chief Justice Taney upon the question whether a slave is a "person" within the meaning of the acts of Congress providing for the punishment of offences.

In the Circuit Court in Virginia, Amy, a female slave, was indicted for stealing a money letter from the post office.

The Court took time to consider the question, whether a slave was in law answerable to Federal legislation, and within the jurisdiction of the Federal Courts, in criminal cases. After deliberation, the Court decided against the objection raised, and its opinion was delivered by Chief Justice Taney, who in the course of his remarks said:

In expounding the law, we must not lose sight of the two-fold character which belongs to the slave. He is a *person* and also *property*. As property, the rights of the owner are entitled to the protection of the law. As a person, he is bound to obey the law, and may, like other persons, be punished if he offends against it, and may be embraced in the provisions of the law, either by the description of property or as a person, according to the subject matter upon which the State is legislating.

Here is the Taney slave law laid down as plain as a pike-staff. Done into juggling English it is:—

When the negro claims a *right*, he is told he is a mere *thing*, having no rights but to be bought and sold by a white man;—but when he does *wrong*, *presto*, *change*, he becomes a *man*, and may be punished accordingly.

Will somebody please to get up a howl, because Judge Taney's law is libelled? or will the people please to open their eyes, and perceive that the spirit of oppression is ever the same, whether exercised on black, white, or red men.

MAILING LETTERS ON THE CARS.—The Postmaster General has issued a circular restricting mail agents from mailing letters on the cars, a practice now carried to such extent as to prevent their having sufficient time to attend to the legitimate duties of their positions. In consequence of this order, the safest course will be for all persons to send their letters to the post offices, as they will be apt to have them refused by agents at the cars, although the latter are allowed to mail letters under certain peculiar circumstances where haste is essential, and getting them into the post office in time is shown to have been impossible.

It is well for the public to understand the above regulations; although it is next to impossible to make the proper distinction between the cases mentioned; and though it may be very difficult to show an agent on the cars that it was impossible to mail the letter in season. If this latter regulation is to be observed, the train post office will be a mere humbug,—and the route agent must become a mere guard and baggage man, to hand the mails out, pass them in, and see that they are not stolen.

If John McLean or a man like him, were Postmaster General, we should see this way-mailing encouraged instead of prohibited. It would have been far better to have added a penny stamp to the way-letter, and thus paid its way.

☞ One result of the Virginia election is, that Mr. Letcher, the regular democratic candidate, is elected, by perhaps 6000 majority, i. e. diminished one-half.

Another result is, that while in the last Congress all her delegation to the House, 13 in number, were regular Democrats, now it seems four democratic stump candidates and one opposition have been elected over those put forward by Democratic conventions.

They call themselves, one Whig, and four Independent Democrats. It does not look like a very great victory for anybody in particular.

☞ The Utah mail brings a proclamation of Gov. Cumming, commanding immediately to disperse various parties of Mormons associated together in a military capacity in the mountains surrounding Salt Lake Valley. The Tan complains that this proclamation was not put into the hands of federal officers to execute instead of the Territorial Marshal, and asserts that treason is as rife in the territory as it was before the advent of the army.

MEXICAN AFFAIRS.—Dispatches from Washington state that Senor Mata had an interview with Gen. Cass. The Senor has information from Mexico to the effect that Santa Anna had been invited to return, and that the Liberals were willing that the experiment of putting him in power should be tried, as it is believed it would be the best thing that could happen for their cause, as it would excite the national feeling.

The frigate Sabine will sail for the Gulf in a few days, the Congress taking her place as flag ship of the Brazilian squadron.

A despatch from Charleston announces the suspension of Fraser, Trenholm & Co., who are largely engaged in cotton and sugar. The house has an agency in New York and another in Liverpool.

NEW BOOKS.

PLAIN AND PLEASANT TALK, ABOUT FRUITS, FLOWERS AND FARMING. By Henry Ward Beecher. New York: Derby & Jackson. 12 mo. pp. 420.

This book is an *Olla Podrida* of agriculture, horticulture, wit and good sense, worthy of Dr. Franklin, Thos. G. Fessenden and Robert Thomas combined. The author says of it in his preface:

No one of our readers will be half so curious to know what this book contains as the author himself. For it is more than twelve years since these pieces were begun, and it is more than ten years since we have looked at them. The publishers have taken the trouble to dig them out from what we supposed to be their last burial-place, in the columns of the Western Farmer and Gardener, and they have gone through the press without our own revision.

Why he wrote or read on agriculture, may be seen by this extract.

The continued taxation of daily preaching, extended through months, and once through eighteen consecutive months, without the exception of a single day, began to wear upon the nerves, and made it necessary for us to seek some relaxation. Accordingly we used, after each weeknight's preaching, to drive the sermon out of our heads by some alterative reading.

He read all the agricultural books within his reach,—and then thought out these "talks." He says of them:—

This employment of waste hours not only answered a purpose of soothing excited nerves then, but brought us into such relations to the material world, that, we speak with entire moderation, when we say that all the estates of the richest duke in England could not have given us half the pleasure which we have derived from pastures, waysides, and unoccupied prairies.

If, when the readers of this book shall have finished it, they shall say, that these papers, well enough for the circumstances in which they originally appeared, have no such merit as to justify their republication in a book form, we beg leave to tell them that their judgment is not original. It is just what we thought ourselves! But publishers are willful, and must be obeyed!

The book is for sale in Boston, by Brown, Taggard & Chase,—in this city by J. F. Shores, Jr.

NEW STAR PAPERS; or, Views and Experiences of Religious Subjects. By Henry Ward Beecher. New York: Derby & Jackson. 1859. 12 mo. pp. 403.

This book contains about 50 pieces, characteristic of the author; All of them lively, most of them plain, many of them very valuable. We certainly do not agree with all we find in the book; yet it is a very refreshing exercise of the mind to read what a live man thinks and writes. The articles on Church Music, God's Pity, and the Tract Society, were to us of special interest.

The papers in this book are selected from those in the Independent;—and they will here, as there, command a wide circulation.

The book is sold by Brown, Taggard & Chase, Boston,—and by J. H. Foster in this city.

☞ The new novel, "Seacliff," published by Phillips, Sampson & Co., Boston, is attracting attention from the reading public just now. Mr. Shores sells it in this city.

☞ On Sunday morning, the dead body of a German was found in the hall-way of a house in Brooklyn, with the top of his head blown off. The deed was committed at the door of a room occupied by his wife, and which he had vainly attempted to enter.—He had a knife with him, and from threats uttered the night before, it was no doubt his intention to have killed his wife.

☞ By the overland mail, it appears that eight white men, prospecting for silver, near Honey Lake, have been killed by Indians, and the house of Col. Stevenson, at Red Bluff, was burned on the 11th ult. Stevenson's wife, another woman, and five children perished in the flames.

The Arizonian of the 19th is filled with accounts of the proceedings of a band of Regulators, who had driven all the Mexicans from Sonorita Valley, and committed several murders.

☞ The body found near Fort Hamilton, N. Y., has been fully identified as that of Fanny Deane, the actress. Her husband, Mr. Halsey, and her alleged paramour, Mr. Wells, the contractor for building the Brooklyn Water Works, are both in custody on suspicion of being concerned in her fate. Her infidelity was plainly proved, by letters on both sides.

☞ There are four millions of people in France, who eat *no bread*. Some eat chestnuts, and some other kinds of vegetables.—The people of Ireland, for a long time, subsisted mainly on potatoes. These facts prove not merely that there are large numbers in civilized nations, who do not raise their own bread, but an equally important fact, that they have *not the means of buying it*.

☞ On Saturday, the keeper of a groggery in Philadelphia became maddened by drinking his own liquor, and while in a state of delirium went into the street with a double barrelled gun, loaded with shot, which he discharged at two inoffensive men, causing dangerous wounds. The madman escaped.

☞ The New Hampshire Convention of Universalists will hold their annual meeting at Enfield, next Wednesday and Thursday.

TEXAS-WARD—III.

MEMPHIS, Tenn., May 31.

Dear Chronicle.—One of the pleasantest places the traveller will find on the Ohio river is the little town of Paducah, Ky., situated just below the mouth of the Tennessee river. With a population of near 5000, it has a very large and growing business, and contains a number of fine buildings, conspicuous among which are the Marine Hospital, the Blind Asylum, and a fine Court House, just about completed. From its position at the junction of two rivers, each navigable for hundreds of miles, and draining a great and rich section of country, an immense quantity of freight passes through the place; one day I noticed over a dozen steamboats that arrived there.

Twelve miles below Mt. Vernon, on the same side, the Cave in the Wall is pointed out, where, in 1801, the notorious outlaw, Mason, with a gang of desperadoes, made his head-quarters,—and sallied forth to rob the boats which passed by. He was at last shot by one of his own gang, to obtain the reward of $200, offered for his head by the Governor.

At Paducah, as in most of our cities out of New England, the old habits of new comers are visible; a German Bier Garden being in full blast, band and all, on Saturday night.

At that point we got on board the "New Uncle Sam," one of the St. Louis and New Orleans boats, and one of the finest that plies the great "Father of Waters." Furnished with a proper regard to comfort, as well as elegance, she is capable of accommodating two hundred cabin passengers and 1800 tons of freight, and for speed is said not to be behind the swiftest of her competitors.

Great numbers of Pike's Peakers are now on their backward track. I noticed a number in one steamer, pale, haggard and rough looking, but ready to drink, or gamble, having learned little wisdom from their hard experience.

Cairo! *city of mud!* fit place for hogs to wallow! not calculated to astonish by magnificence, or confound by extent; the only feeling that arises in my breast at sight of thee, is one of surprise that there is any one such a fool as to live in thee. We arrived at this well-watered place on Sunday afternoon, and though we were told there were 5000 inhabitants, came to the conclusion that if there were more than 500, they must live underground. Three objects attracted our attention;—a large brick hotel, to take the place of that which fell down in the last inundation; the great stagnant pond of water which covered one-half of the place, and the steam rotary pump which was draining off the same.

At this point the traveller enters the Mississippi, and after a journey of twenty miles will find the village of New Columbus, on the east bank, a pretty, business like place.

From that place little of interest is to be seen until you arrive at the "Bluff City."

The day is extremely warm, but the citizens seem to disregard the rays of the sun, though a few sport umbrellas. The scene of the great fire a few months ago, is fast being built over, and many changes are taking place in the business portion of the city.

ION.

GARVIN'S FALLS.—The Manchester American informs us that the Amoskeag Manufacturing Company commence this week to build a stone dam across the Merrimack at Garvin's Falls. Dea. Hiram Brown is to superintend its construction, and Mr. Webber is Engineer. The work will probably be completed in three months. There is a fall of twenty-four feet at this point, the same as at Lawrence, and the facilities for constructing a canal equal to those of any other place in the country. They own in convenient proximity some twelve hundred acres of land, mostly covered by wood and timber. There is no reason why, as manufacturing business now is, and is likely to be for years to come, a large and flourishing town should not grow up around Garvin's Falls.

☞ Hon. John M. Wood is reported to have sold the Portland Daily Advertiser to a half dozen gentlemen, among whom is Josiah Little, Jr., Esq., of Newburyport, for the sum of $34,000. The "State of Maine" newspaper is to be united with it, and John A. Poor, Esq., is to be chief editor. Portland has had three Daily papers for several years. Two is a plenty, and will pay better. Papers owned and conducted by practical printers, stand the best chance of success.

☞ In New York city, on Saturday afternoon, an affray occurred in Walker street, between Louis La Point and Joseph Peager, boys, each about 8 years, which resulted in Peager's receiving a blow on the head from a stick which caused his death during the succeeding night.

☞ The leaders of the hard shell democracy of New York had a meeting at the Astor House on Tuesday. The meeting was large and lively, and although not much was accomplished, the understanding is that the war between the hards and softs is to be continued with vigor.

HOUSE ROBBERY IN SAUGUS.—An ingenious robbery was commited in Saugus Centre, on Sunday afternoon. While Mrs. Elizabeth Cheever, the occupant of the house, was at church, a man came to the house and represented to the servant girl that her mistress wished her to bring her bible. She accordingly proceeded to the church with the book. In the mean time the man, with a companion, entered the house and robbed it of $125 in money, a diamond ring and breast pin, together with several articles of wearing apparel. In their hurry to leave they had dropped a fine gold watch in the back yard,—which was recovered. Two men were arrested for the robbery, but as nothing could be proved against them they were discharged.

☞ Some of the Southern papers are advocating the adoption of a provision by the Southern States requiring a residence of twenty one years by a man born in a Free State before he shall be allowed to vote; the object being to defeat the influence in Southern States, of such Northern settlements as those at Ceredo and elsewhere in Virginia.

MARRIED.

In this city, at Glen Cottage, June 7th, by Rev. Mr. Patterson, Mr. Randall Johnston of Westbrook, Me., to Miss May F. Maxfield of Auburn, Me.

In Bedford, on the 1st inst., by Rev. Thomas Savage, Rev. William House of Londonderry to Miss Fanny Savage, daughter of the officiating minister.

In Newburyport, May 29th, by Rev. Willard Spaulding, Mr. Charles W. Bayley to Miss Bertha M. Felker.

DIED.

In this city, on Sunday, June 5, Mrs. Rachel Bowles, aged 75 years, widow of Dea. Samuel Bowles—a woman of amiable temper, affable manners, and godly conversation. Her christian charity was wide, and her walk exemplary. She was a mother in Israel, whose life was a blessing, and whose memory is blessed.

Funeral from Middle street church, at half past 2 o'clock this afternoon.

In Concord, May 18, Charles H. Locke, aged 16 years, son of Benj. M. and Francis A. Locke.—Maine papers please copy.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself;

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.—*Gentlemen*—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

OLEINE DIAMOND OIL!!

GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickering, always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.

OIL.

SPERM, Lard and Whale Oils. Also, KEROSENE and COAL OILS for sale at reduced prices, by HENRY F. GERRISH,
j2 15 Daniel Street.

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from such complaints.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and though we have heretofore dealt very little in medical preparations, we do compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOST APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description, will be promptly filled and Merchants generally to examine their stock. m12

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiturumenor.

ONLY A FEW WORDS

Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

GALLERY, No. 33 Congress Street,

consisting of Gems of Art, both plain, with pictures included, and a large lot of splendid Gilt and French Frames, for Photographs, which will be sold CHEAP for CASH,—for a short time.

A. GREGORY.

N. B.—I do not charge any more for **good** Pictures, than is paid every day for **poor** things.

R. R. R.

A young lady at Stephentown, New York, in the month of June, 1858, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one teaspoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a stypric*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. For a cold, Cough, Consumption, in the earlier stages, the R R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Scrofulous Humors, Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper berry, and is recommended as valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious cordial, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by the faculty in many cases of DYSPEPSIA, GOUT, RHEUMATISM, GRAVEL, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 37 Blackstone st.; E. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Deland & Snow, 34 Elm st. and others in Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

BLUE & WHITE STARCH.

The real old fashioned Blue and White Pearl Starch; a very superior article—for sale at No 12 Market street, by JOHN STAVERS.

LOCAL.

For the Chronicle.

The suggestion of "S. W. C." in your yesterday's paper, in regard to the celebration of the coming anniversary of Independence, recalls to us the proposal of some of our city "boys" to get up a subscription for a celebration among themselves; the proposition was indignantly voted down, with the threat that "if the city could not afford to celebrate Independence, the 'boys' would have their celebration—band included—between 12 and 4 o'clock in the morning."

Would "S. W. C." accept an amendment to his proposition, viz: to have an exhibition of fireworks in the evening, instead of a one-horse celebration?

Come, now, Messrs City Council, give us the appropriation or you may be distanced by YOUNG AMERICA.

☞ The Common Council, on Tuesday evening, voted to increase the appropriation for the celebration of Fourth of July, to five hundred dollars.

☞ We have been asked more than once, if Messrs. Allen & Paine own or edit the Chronicle? Not exactly—though they *do* have charge of one column, to our mutual advantage. It pays them well, too—as is evident by their continuing their advertising so long. If *all* our columns paid us, as well as this one does Allen & Paine, we should—well, no matter what; we are very well satisfied with what all our columns pay us—else we would soon get out of them; and for proof that *they* have no fault to find, see them come again to-day, with a whole lot of fresh goods and new advertisements.

☞ Preston has a splendid new soda fountain, constructed on the principle of the magicians' bottles—from *one pipe* or faucet of which is drawn all sorts (all *good* sorts, we mean, of course) of syrups, or plain soda without syrup. Pity pure soda couldn't draw out the vile beers (biers) and ales (ails) which almost run down our streets.

☞ A rare chance is advertised for a gentleman to get a fine turn-out, without the trouble and risk of picking it up.

For the Chronicle.

FEMALE PAINTERS.

The ladies of St. Johnsbury, Vt., took the business in hand of painting the fence around the South Park in that town, on Thursday last. Twelve of them with brushes and paint did the work in a short time, and did it well. They should each be rewarded by the selectmen,—and we can think of no more appropriate present than one of those handsome Piccolomini Capes, made of water-proof cloth, which they are selling at Allen & Paine's.

A SCREW LOOSE.—It is somewhat singular, remarks the Journal of Commerce, that Wisconsin which has just lost neraly 40,000 votes by informality in the returns of the late election, also lost her electoral vote at the last Presidential election from the same cause. There must be a screw loose somewhere.

We suspect that if our friend, Mr. Schurz, and some other Wisconsin people would pay more attention to the education of Dutchmen, and fret themseves less about Massachusetts laws, this screw that is loose would be adjusted.—*Atlas.*

The name of Wm. Pitt Fessenden is mentioned in various parts of the country in connection with the Republican nomination for the Presidency in 1860. His location is bad—Judge Reed of Pennsylvania, or Gov. Bissell of Illinois would have much the advantage over him in that respect; but Mr. Fessenden is a man of more ability—of more statemanlike qualities, than any man who has filled the presidential chair since Van Buren.—*Newburyport Herald.*

Among the candidates for Congress in Tennessee is Wm. H. Polk, a brother of the late President Polk, but unlike him in all respects. He is a low, vulgar, drunken rowdy, who has disgraced every place he has held; and should he be elected, that State ought to send a committee to take charge of him while in Washington.—*Newburyport Herald.*

CAMELS ON A PLANTATION.—The Selma (Alabama) Sentinel 20th ult., says:—"The camel seems to answer many useful purposes. The other day, one of the animals, with rider, brought twelve bushels of shelled corn to town to mill. So one camel, in milling alone, will answer the purpose of a wagon and two mules, and will travel over the ground four times as quick as the mules. We understand that they have been tried at the plough, and answer the purpose admirably, being docile and easily managed."

☞ On the first of May a police officer in New York, who was obliged to arrest a woman for some disturbance, was charged by her with having stolen her diamond necklace. The case was adjourned from the 7th ult., to the 16th ult., but—on the 14th, the thief who really stole the jewels inserted an advertisement in the Herald, notifying the woman that her necklace could be found at a pawnbrokers' shop. The officer, who had been put to so much unnecessary annoyance and expense, was of course discharged.

THE WAR.

Advices from Liverpool to May 26, give us additional information respecting the battle of Montebello. It was a terribly severe engagement, during which Montebello was taken and retaken no less than three times. The French and Sardinian force is estimated at short of 9000 men, and the Austrian strength at 15,000. Both sides fought well, but the impetuosity of the French, and the superiority of their weapons, gave them a decided victory.

In London, May 25, the Lord Mayor headed a deputation to the Prime Minister, to present the Memorial in favor of strict non-intervention. Lord Derby assured them that the government had no design to alter their policy of English intervention. Alluding to the rumored alliance between Russia and France, his Lordship said that the government had received repeated and positive assurances from Prince Gortschakoff that no such treaty existed.

A dispatch from Berne says the Austrians had left Como and Milan, and concentrated themselves on the river Adda, and that the French and Sardinians were advancing.

WASHINGTON, June 6.—The home squadron is to be still further increased.—The frigate Sabine will soon proceed to the Gulf. There will then be ten vessels of war there, with an aggregate of 212 guns. As one vessel has already been ordered to Tampico to land marines and other forces, if necessary, to protect American citizens and property in the event of an assault by Miramon, the impression prevails that a similar course will be pursued at other points wherever such an intervention may be required by American citizens and American interests. It may not be generally known that sailors are constantly drilled in the practice of small arms as well as ordnance. The latter can be used on land, as carriages are provided for their use in such an emergency.

NEW YORK, June 6.—The body of a woman, found at Fort Hamilton, is suspected, from the description to be that of the wife of Henry Halsey, of West Twelfth street. She has been missing since Wednesday, on which day she was detected by her husband in the act of writing a letter to a certain gentleman in Brooklyn. Her husband was arrested to-day and taken down to Fort Hamilton.

MORPHYISM.—The Boston papers a few mornings ago were filled with the speeches and talk at the "brilliant" and "magnificent" banquet to the chess champion at the Revere House, on the night previous. Paul Morphy bore his blushing honors with the modesty of a genuine hero, made a response, brief, sensible and appropriate, and took occasion to remind his lionizers "that chess could never form an object of life. At best it was but a relaxation; as a discipline of the mind it was worthy of commendation: as a substitute for cards, chess would go far towards improving the morals of our people."

A Mr. Thompson defeated Paul Morphy on Monday, at the New York Chess Club rooms, the latter as usual giving the odds of a knight.

☞ One thousand moulders are on a strike at Albany, N. Y. They ask to be paid $10 per week for ten hours' labor each day. Some of the Albany papers think that the demands of the workmen are reasonable and just, and encourage the moulders to preservere in their "strike."

☞ In New York on Sunday morning, a German named George Myers, murdered his wife by beating her with a pair of shears. Myers has served one term in state prison for being concerned in the death of a man ten years ago.

☞ There was a heavy frost on Saturday night, extending more or less over the great States of New York, Pennsylvania and Ohio, doing injury to vegetation of most kinds, and it is feared to a very considerable degree.

☞ On Sunday morning, the rite of confirmation was conferred on some three hundred persons, at St. Mary's Catholic Church, Newburyport, by Bishop Fitzpatrick. They were mostly young girls, dressed in white, wearing white veils.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in Rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

Morning Chronicle.

MARRYING A BROTHER'S WIFE OR WIFE'S SISTER.—It is sometimes interesting to notice the widely different estimates put upon the same act, by the same people, at different periods,—the real criminality or innocence of the act itself remaining the same all the while—of which the public opinion and laws on lotteries is a special instance. It seems to furnish a commentary on the imperfection of human laws. For instance, for marrying a brother's wife or a wife's sister—a thing now generally regarded as a very innocent affair, if not highly commendable—a Massachusetts law of 1695, enacted that every man and woman so offending should be set upon the gallows for the space of an hour, with a rope about their neck and the other end cast over the gallows, and in the way thence to the jail should be severely whipped, not exceeding forty stripes. And also every person so offending should forever after "wear a capital I, two inches long, and of proportionate bigness, cut out in cloth of a contrary color to their clothes, and sewed upon their upper garments on the outside of their arm or on their back, in open view." And if they were found at any time afterwards without the "I" so worn, during their abode in the province, they were to be, each time, publicly whipped, not exceeding fifteen stripes.

FISH STORIES.—Ever since the days of Jonah, fish stories have been remarkably *large*; it seems "natural to the breed." The Richmond Enquirer endorses the statement that on a recent occasion a sturgeon was caught in the Rappahannock river weighing nine hundred pounds! From a Maryland paper we learn that a lad on a line to catch a catfish; next morning he found it too heavy for him. Obtaining aid, he brought his line to the bank, when, wonderful to relate, there was an eel and two large catfish on it, one weighing 25 and the other 23 lbs. This fish problem was thus solved: It seems the eel was first hung on the hook, then catfish number one coming along swallowed eel, who wouldn't stay swallowed, and slipped Mr. Cat's gills, stringing him on the line; then catfish number two came along and likewise swallowed eel, who again escaped Jonahism by slipping through his gills, doing honor to the slippery reputation of his race.—*N. Y. Spirit Times.*

INFANT BORN WITH THE HEAD OF A CAT.—One of the strangest freaks we have known recorded, occurred in this neighborhood last week, being the birth of a child with a well developed body, perfect in all its proportions and weighing ten pounds, but with a remarkable malformation, the head being formed in every particular precisely like the head of a cat. It lived but a moment after birth. The facts are vouched for by the attending physician, one of the highest standing in the city, and cannot be doubted.—*Lawrence American.*

☞ Mr. William Shapleigh of Parsonsfield, Me., while engaged in barrowing, was thrown down by one of the oxen, and injured in such a manner that after lingering in great pain for thirty-six hours, he expired. The deceased was highly respected by all. His age was about 84.

OF LIME, SODA AND POTASH.

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when weighed into account with the gravity of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, twenty-one dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Juan Luis Casaseca, Corresponding Member of the Royal Academy of Medicine of Madrid and a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c. &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsalum maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aromatic odor, completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, I see no reason why the orders for tickets to Delaware or to Georgia, as the Lotteries of

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders addressed to us will be filled in the drawing next to take place after same comes to hand.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who order them, when provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than a thousand confirmed, the number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be deceived by others who may be practising on the experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and speedy, and unfailing in the relief in a short period of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impotious boasting practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the art of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be certain of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair. It will stop any hair from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your Hair Restorative. Its effects are

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of those who may be as gray as I was but without having my prejudices, put my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occasional demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 18, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight wound when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 8, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 494 Wood street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $5 a bottle.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females.* It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the females so easy, and is now for the first time offered to the public. The name and virtues of this wonderfous plant was recently obtained from *Skenandoah*, an Oneida Chief, in one of his visits to Syracuse, N. Y. It is now put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in twenty-four hours. This may seem incredible but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times. *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

The Liver Invigorator.

PREPARED BY DR. SANFORD, COMPOUNDED FROM THE PURE GUMS, is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove a redundant and foul matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PRODUCING HEALTHY BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and what is better prevented by the occasional use of the Liver Invigorator.

The dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents SOUR STOMACH.

Only one dose taken at night, loosens the bowels gently and removes CONTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always RELIEVE SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN Applications, on all but one of which patents have been granted, and that one is now pending. Such a unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made SIX TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JUNE 9, 1859.

THE GREAT & GENERAL COURT.

CONCORD, June 7.

Messrs. Editors :—As yet the Legislature has scarcely commenced the business of the session, further than an organization of the different branches, and of the State government, yet signs of action begin to exhibit themselves. One thing is quite certain,—there is to be a pretty thorough remodeling of our system of State Courts; and the more thorough, the better.

It is now apparent that there will be no serious opposition to granting the right to build the *Candia Branch Railroad*, either to a company of individuals, or to other railroad corporations; but no perpetual lease of the road is to be granted, and no permanent union of other roads short of a pledge to build the Branch, and perhaps not even with such a pledge.

There is a good deal of intrigue going on here, in relation to Warden of the state prison, more than in other days used to be employed to secure the nomination of a candidate for Governor. There are, at least, ten candidates for the place, and some of them have a portion of the lobby members at work for them. It is time every man was denied office who seeks office. We get generally the poorest men into office by intriguing for office.

In relation to State Printer, quite a competition is on foot, and each of the two candidates has many friends. The contest is a close one, and the result doubtful. So is there a contest to obtain the appointment of Reporter, an office of $400 salary, with very little labor connected with it. Two young lawyers of Concord are the candidates. This office and that of Adjutant General will be less desirable after the close of the present session than they are to-day, as the salary of each, I think, will be reduced, at least one half.

The pedler law will be repealed, as will the law creating a board of Fire Insurance Commissioners, if not that also creating School Commissioners. Bank Commissioners are useless, but will not go out of existence until next year.

The Legislature was in session about half an hour Friday afternoon, and half an hour Monday afternoon, one branch meeting at 3 and adjourning before the other met at 4 o'clock; so we have Tuesdays, Wednesdays, Thursdays and Fridays in the forenoon, about 3 hours each day, given to legislation, although little or nothing is being done during the three hours when the Legislature is in session. It costs the people of the State $700 per hour, for each hour both houses are in actual session.

It would be well if the session was limited to ten days, so that it would open on the first Wednesday of June and close a week from the next Friday evening. The whole legislation of a session often is scarcely worth the paper upon which its acts and resolves are engrossed, other than the acts to raise money and appropriate it.

No action will be had on the law "for the suppression of intemperance," as it is now disturbing no one in scarcely a city or town in the state, as in most of the counties the politicians and prosecuting officers are bitterly opposed to its being enforced, lest the fast young men shall fail to continue the control of political matters.

The frost of Sunday night was somewhat destructive to tender plants, beans, corn, &c. on low and plains ground, but not on high positions. From present appearances we shall have unusually good crops of hay, and pasturage was never better at this season of the year. The farmers, in this part of the State, have planted more than usual, and their hopes are bright in the future.

Yesterday the work was commenced upon the great dam which is to be built across the Merrimack river, 3 1-2 miles below the State House at Garwen's Falls. But for the useless provision in our statute laws, known as the *individual liability clause*, years ago we should have seen, about these splendid falls, a thriving manufacturing village, or rather a second Manchester; but by barely a majority of one vote the company that had that place in view, decided to build elsewhere, and out of the state, and simply because they disliked that provision in our laws in regard to railroad and manufacturing corporations. The Portsmouth railroad passes directly through what will be the centre of this future city of spindles; for in twenty years, I believe there will be a handsome city about Garwen's Falls; and, if so, it will greatly enhance the value of the Portsmouth and Concord Railroad, and give much business to Portsmouth.

In many places about the country I perceive great preparations are being made to observe the approaching anniversary of our National Independence. I hope this will be done extensively, but in a manner *to honor*, not *to degrade* the day. Let all our social gatherings, on such occasions, be honored by the presence and co-operation of the ladies, and let affairs be as little under the management of fast young men as possible, and all will be well.

☞ Our correspondent at Concord writes a lively letter. We do not agree with all his views; indeed we are very far from several of them:—nevertheless we like to read what he says.

From other sources we learn that important local matters have been introduced into the House, among which are bills to prohibit the change of school books in the public schools oftener than once in five years; a bill to repeal the Hawkers and Pedlars act, and to refund all money paid under it by parties who have taken out licenses; and a bill to abolish the Courts of Common Pleas and give their business to the Supreme Court.

It is quite a mistake for any one to suppose no business is in progress, because the House holds short sessions on election week. The committee must *prepare* the business—else all were chaos.

DON'T KNOW.—The Manchester Union Democrat says, in speaking of Gov. Goodwin's Message:—

So far as positive recommendations are made, or are to be inferred, they will lead, it followed, to the adoption of the Democratic theory in everything except in regard to the liquor law.

This is well. Somebody makes *democratic theories*. Gov. G. says—put them in *practice*, and so he must be a good democrat so far. The Union Democrat adds:—

We are astonished that the Governor sees any "salutary" results flowing from the liquor law. We certainly do not know of a town where it has had any other result than to increase the facilities for procuring liquor, and aggravated the evils of intemperance.

The Union Democrat no doubt speaks truly when it says "*We certainly do not know.*" How should they know who take no pains to know, and who evince no interest in the subject, except to throw all the obstacles possible in the way of every effort which has been made to promote temperance, whether moral or legal.

UTAH AND THE MORMONS.—A gentleman just arrived in Washington from Utah represents that the people are in an excited and turbulent condition, bordering on rebellion, and hence the proclamation of Gov. Cummings with a view to dispersing the various parties of Mormons assembled in a military capacity in the mountains surrounding the Salt Lake. These parties, he says, are a portion of the militia called out by the Governor to resist the entrance of the Government troops during the session of the Court at Salt Lake City. The Mormons are being monthly augmented by the arrival of foreign converts. The civil law having failed to answer its purpose, it is the opinion of intelligent Gentiles in the Territory that peace can be preserved only by strong military rule, or bloodshed averted by favoring the removal of the Mormons beyond the jurisdiction of the Federal authorities.

☞ Prince Napoleon, on arriving at Leghorn, addressed the Tuscans as follows:

"The Emperor sends me to assist you in the war against your enemies, the oppressors of Italy. My mission is exclusively of a military nature. I shall not occupy myself with your internal organizations. The sole ambition of Napoleon III. is to liberate Italy: to enable her to make for herself a free Constitution, and thus to strengthen the balance of power in Europe."

☞ The McKinly (Texas) Messenger states that the skeleton remains of a mastodon have been found imbedded in the earth on a branch of Hickory Creek, about 15 miles north of that place. A tusk nine feet in length and ten inches at the base has been dug up; also a part of the jaw bone, weighing twenty pounds.

☞ Mr. Forney, Superintendent of Indian Affairs, has returned to Salt Lake from a trip through the Southern portions of Utah, where he recovered sixteen children, believed to be all that remain of probably one hundred and forty men, women and children of the Mountain Meadow massacre in September, 1857. They were obtained from the settlers, and there is good reason for believing that none of them have ever lived with the Indians.

☞ The will of the late William W. Cox, of Charles County, Maryland, contained the following clause: "I also devise and bequeath that my negro woman Kitty, and her children, John, Catharine, Sarah and Charles, shall work for themselves by paying the executor annually one cent per year hire." This bequest fails, in the opinion of Judge Crane, and he declared it null and void.

☞ The Montreal Pilot says that the speed with which the works on the Victoria Bridge are being carried on, and their already advanced state, almost enables it to state with certainty that by the middle of September they will be fairly completed.

☞ The West Point Cadets have written a neat letter to Miss Cunningham, enclosing $458, their subscription to the Mount Vernon Fund—$2 from each cadet.

☞ At the late term of the Circuit Court of Lawrence county, Miss., Ed. Langsford was indicted for selling a hoop skirt to a negro without permission, and fined $100 and cost of suit.

☞ In youth hearts are trumps, in manhood diamonds and clubs, according to circumstances, but after all spades are sure to win when the game of life closes.

Lord Erskine, speaking of animals—instead of calling them brutes, speaks of them as the mute creation.

☞ Austria has issued instructions to prepare for the defence of Tyrol.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cures from *Coughs, Colds, Consumption* and *Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KINGSPORT, N. J., May 20, 1858.

S. W. FOWLE & CO.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

THE

GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

OLEINE DIAMOND OIL!!

GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.

For sale, wholesale and retail, at

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 87½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St. Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m13

A young lady at Stephentown, New York, in the month of June, 1858, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one teaspoonful of Radway's Ready Relief, in some warm water, every night and morning the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a styptic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R. R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing complaints to which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 37 Blackstone st.; R. CITY COUNCIL.

At a special meeting of the Common Council, several days since, the unfinished business we mentioned a few days ago was taken up. The resolution that the City Clerk be authorized to let all city property, under direction of the Mayor and Aldermen—was amended so that this duty be left with the Mayor, City Clerk, President of the Common Council, and the Chairman of the Com. Council Committee on City Lands and Buildings. [Indefinitely postponed by the Board of Aldermen.]

The Appropriation bill was reported back by the Committee on Bills on their second reading, with recommendation of an increase of the 4th of July appropriation from $150 to $500.

The bill was taken up by items. The State tax, the tremendous County tax, and the $4000 interest on city debt, were voted.

On motion of Mr. I. Kimball, the $4000 for support of the poor was cut down to $3000. Mr. K. remarked that to pass this sum yearly for this purpose was offering a bounty on pauperism, idleness and imposition; and that if the city's $50,000 farm wouldn't pay for itself, it had better be sold, and the able-bodied loafers put where they *would* pay their way. He also objected to the $150 for farming utensils and manure, but it was passed.

Considerable discussion ensued on the whole bill—report of which we shall publish to-morrow.

BOARD OF MAYOR AND ALDERMEN.—*June* 2.—Josephus Warren Markittins asked an extension of time to remove his fence. He had leave to withdraw.

Voted, That the City Marshal be directed to remove all obstructions from Fleet street.

☞ A free Concert will be given by the Christian Sunday School, at the Temple, this (Thursday) evening, at 7 1-2 o'clock. The public are invited to attend.

ENOUGH FOR ALL.

We understand that all the Ladies in town last week visited the store of Allen & Paine to purchase one of the new Style Waterproof Capes. All who did not, or could not, on account of the crowd, find one there, can find a fresh lot to select from this morning—they are manufacturing all the time. **

☞ The grass was never more promising in this State and Maine, than it is this season.

BOOK TRADE SALE.—There is to be a great sale of this kind, in Boston, in August. An article in the Traveller on the subject, has some curious information in regard to the former trade sales; we copy one or two items.

The first trade sale in Boston, and we believe the first in this country, was held at Concert Hall, Court street, August 7, 1827, the late J. L. Cunningham being the auctioneer.

The catalogue, a folio sheet of four pages, comprised as contributors, Hilliard, Gray & Co.; Lincoln & Edmunds; Crocker & Brewster; Munroe & Francis; Richardson & Lord; S. G. Goodrich; S. H. Parker; Cottons & Barnard; J. W. Burditt; T. Bedlington; Charles Ewer; Bowles & Dearborn (late firm of T. H. Carter & Co.;) James Crissey; H. Cowperthwait; Robert Desilver; Geo. Champley; Collins & Hannay; T. H. Miller; Wait, Green & Co.; Thomas Wells; Harrison Gray; O. D. Cook & Co.; Glazier & Co.; and Carey, Lea & Carey. The catalogue filled three pages only of the four. The quantities of books in each line ranging from 5 to 2000 copies.

We perceive Crocker & Brewster on the list of contributors for the *new* trade sale.—No other firm or name is exactly repeated; though two or three individuals in some of the old firms, are in some of the new, we believe.

VIRGINIA.—John Underwood, Esq., of Virginia, was threatened with lynching and expulsion from the State for openly avowing his support of Republicanism, two years ago, and was fined $250 for speaking against Slavery. At the late election he was supported by some of his neighbors as a candidate for the Legislature, and in the town of Occoqua received 56 votes against 51 for the Democratic candidate. His fine has been remitted by the Circuit Court, on appeal.

SEVERE ACCIDENT.—On Monday forenoon, Mary Waters, the daughter of a widow on Merrimac street, about twelve years old, was severely injured in the Bartlett Mills. Her dress caught the back shaft of a mule in the spinning room and wound round and round, drawing so tight that all the upper part of her body turned purple, and she was taken out of the machinery for dead.—It is hoped that she may recover.—*Newburyport Herald.*

Governor Sullivan says, "My brother, General Sullivan, used snuff, and his snuff lodged him prematurely in the grave."

The French poet, Janteuil, was killed by a little snuff being thrown into his wineglass, as the Prince of Conde's table.

Bocarmo, of Belgium, was murdered in two minutes and a half, by a little nicotine, or alkali of Tobacco.

Dr. Shaw names some eight diseases and says they may be attributed to Tobacco'

ARREST FOR MURDER.—*Port Jervis, N. J., June* 7.—A man by the name of Cole has been arrested at Montague, Sussex county, N. J., on a charge of having poisoned his wife to death during her confinement in childbed. The facts that have transpired show that Cole and the family physician, Dr. Wickham, had conspired together to commit this horrid crime, an insurance of $400 having been first obtained on the life of Mrs. C. Cole is in custody, but Dr. Wickham managed to escape.

☞ The Boston Post gives an extended and favorable notice of Seacliff, in which it says,

"We have given the work a thorough examination, and have arrived at favorable conclusions respecting Mr. DeForest's power as a writer of fiction."

Mr. Shores of this city, has the book for sale. Phillips, Sampson & Co. are the publishers.

DEATH OF AN OLD MERCHANT.—*New York, June* 7.—Ramsey Crooks, an old merchant of this city, died this morning.—He was formerly connected with John Jacob Astor in the fur trade on the North West Coast, and was the first white man who passed over the Rocky Mounntains, to the Pacific by the passage known as Fremont's route.

☞ Mayor Tiemann of New York has ascertained to a certainty that the bodies found in a box that floated ashore at West Farms, belonged to the old Potter's Field. The box slipped overboard from the steamboat en route for the new Potter's Field.

☞ The Taunton Gazette thinks "the King of Naples' subjects ought to mourn for him in black Bombazine."

☞ In Detroit, on the 3d inst., Henry T. Barnes, 16 years of age, son of the editor of the Tribune, was found dead, hanging by a strap from one of the ladders in a gymnasium where he was in the habit of exercising. The Coroner's jury rendered a verdict of accidental hanging.

TALL CLOVER.—Dr. Daniel Fisher of Edgartown, Martha's Vineyard, has a field of clover now growing on his farm measuring thirty inches in height. The Colonel has not yet measured the corn.

☞ The Minnesotians have "struck a vein" richer than those of the new diggings. They have found immense quantities of ginseng near St. Paul. Two dollars a day is the ordinary result of the labor of digging this root.

☞ The Mississippi river at New Orleans continues to secede, and for this year the danger of an overflow is passed.

MURDERERS HUNG—THE FROST.—*Toronto, June* 17.—John Mitchel, the wife murderer, was hung to-day, at Hamilton, and the negroes More and Over, who murdered the mail carrier, were hung at Brantford.

The frost of Saturday did great damage to the crops throughout Canada West.

☞ The official decree is published restoring Santa Anna to his estates in Mexico and in his rank in the army. His speedy return to the country is expected.

☞ In New Jersey there is a good prospect of apples, pears and cherries, but not of peaches.

☞ A Paris paper says, that during the absence of His Majesty from Paris, a volunteer *garde noble* will be organized amongst the young men of birth and fortune. The captain is an English nobleman, of great Continental reputation for wealth and eccentricity.

A sailor, looking serious in a Boston chapel, was asken if he felt any change? "Not a cent," said Jack.

☞ We hear from Saco that the Manufacturing Corporation in that town propose to expend a million of dollars in new factories, and that they will commence the work this season. We do not avouch for the correctness of the report.

☞ The Richmond Enquirer, now that the election of Governor has been decided, comes out flatly against the right of the people of the Territories to exclude slavery. This is a further indication that Wise and Hunter are on the same platform.

☞ The Congregational society, at West Amesbury, sold their meeting house last week for $250. It was bought by a company who intend to make a good and commodious' Hall. A new church is to be built in the most approved style, and will cost when finished $9000.

☞ At a recent session of the Grand Jury at Newburyport last week, the town of Amesbury was indicted for not keeping a High School.

☞ The mere declaration of intention to become a citizen of the United States, does not entitle the person making it to a passport, and of the fact, a number of applicants have recently been informed.

☞ It appears by the records of the Land Office that Arkansas has received 1,115,000 acres of public lands to aid in the construction of the Cairo and Fulton Railroad in that State, besides another heavy installment of swamp lands.

Morning Chronicle.

WHAT WAS DECIDED?

But that [Dred Scott] decision settled one question—and one alone—i. e. that the plaintiff *Dred Scott*, "a negro of African descent," not being a citizen, is disqualified to sue in a United States Court.—*Saco Democrat.*

The Portland Argus remarks:

We think that decision also settled, in an equally authoritative manner, one other question, to wit: that Congress has not the power to prohibit a citizen from owning and holding *slave* property in the territories of the United States.

Dred Scott had been taken by his master to Fort Snelling where he resided for some time; and he claimed that he was thus made free by virtue of the act of Congress, commonly called the Missouri Compromise, which prohibited slavery in that portion of the territory. The Court, therefore, was called upon to decide whether that act was constitutional. After a full examination of the power of Congress to enact such a prohibitory law, the Court concluded as follows:

"Upon these considerations, it is the opinion of the Court that the act of Congress which prohibited a citizen from holding and owning property of this kind in the territory of the United States north of the line therein mentioned, is not warranted by the Constitution, and is therefore void; and that neither Dred Scott himself, nor any of his family, were made free by being carried into this territory; even if they had been carried there by the owner, with the intention of becoming permanent residents."

The Argus adds:

We agree, however, with the Democrat, that the Court have not *decided* what limitations the Constitution imposes upon the *people* of a territory, acting through their legislature, in this respect. We have our own views, and have expressed them, as to what that decision will be if the question is ever raised by the passage of a territorial law, the validity of which any aggrieved party shall see fit to call in question by an appeal to the courts; but until such decision is made, we can see no propriety in denouncing Democrats whose views differ from our own upon the subject. If all agree to abide by the decision of the appropriate tribunal when made, (which is the Democratic doctrine,) we do not see what more can consistently be required.

The *Argus* doctrine is very plain, viz.: 1, entire submission to the slave edicts of the U. S. Supreme Court, as far as they have gone;—and 2, a *promise* to submit to all the rest of them, whatever they may be.

But it strikes Uncle Toby that this can hardly be called a *Democratic* doctrine, which makes a dozen old lawyers every thing, and the people nothing!

This does not look much like *popular* sovereignty, when the test is blind submission in advance, to all the *dicta* of an irresponsible *aristocracy*, secure of their places for life.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. * * SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *facsimile* signature is upon every bottle.

GOOD FOR FEVER & AGUE.
GOOD FOR KIDNEY AND BLADDER COMPLAINTS,

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

UDOLPHO WOLFE,
SOLE MANUFACTURER AND IMPORTER,
DEPOT 22 BEAVER STREET, NEW YORK.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present M. M's Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees by alcoholometer, alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma, completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very limited amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, I should, in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which I have been in the business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the specimen from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very refilingly aromatic in the flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Hollands," "Extra Superior," Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was obtained, and will are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surfering under their lives to the insidious attack of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and enclosed the money.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by other physicians have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Persons at a distance by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the risk of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female obstructions. Their action is speedy and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The DR. would caution the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

N. B.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

LOTTERIES.

THE LOTTERIES OF
WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as those that are present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every lottery is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; strengthens the weakly hair, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent nostrums, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice withdrawn by my testimonial, may be induced to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Sol. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me in front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small bottle, half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds quart, 40 per cent. more in proportion, and retails for $3 a bottle.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON.
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyeing at most establishments.
Particular attention given to Dyeing and Refinishing, in a NEW AND VERY SUPERIOR STYLE Silks, Satins, Velvets, Merino, Thibet and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JUNE 10, 1859.

THE PRESIDENCY.

As a means, perhaps the best, of knowing what the Democratic party in New Hampshire and elsewhere think of their candidates and prospects, we make extracts, or copy whole articles from their papers. We have recently copied from the Concord Standard, and the Portsmouth N. H. Gazette. Below we copy a whole article, on the Presidency, from the Manchester Union Democrat, an able paper, which, while it supported Mr. Buchanan and his policy like the Standard, did not like that paper wage war with the Douglas wing of the party.

The Union Democrat gives the following plain talk.

Mr. Buchanan has time and again declared that he will not be a candidate before the Charleston Convention. Very recently, in reply to an intimation that a trip he is about to take to North Carolina was for presidential purposes, he declared most emphatically, that he had never entertained the idea of soliciting or accepting a second nomination. There is no reason to doubt that he is entirely sincere; yet, as a portion of the Democratic party are dissatisfied with his administration, the Republicans, to avail themselves of this discontent, represent constantly that he is to take the field again. This is false, but natural.

The adherents of Douglas are pursuing the same policy. Assuming that both are candidates, they affect to believe that the defeat of one is the success of the other.—This is not so. While we would support Mr. Buchanan as cheerfully in 1860 as we did in 1856, we do not ask his re-nomination for several reasons—among others, because he *could not be elected*. Nobody asks or expects it. What then? does it follow that Douglas will be the nominee? Not at all; and he and his particular friends will find themselves immensely mistaken if they suppose that those who do *not ask* the renomination of Mr. Buchanan, will *favor* the claims of Mr. Douglas. If the issue was between the two, the *former* would win. But the truth is, *both are out of the question.*—The President presents no claim, but he has friends who will take very good care that the *malcontents* who have done so much to embarrass him, shall *not* appropriate the government to their own use just now. Mr. Douglas' time may come, but it is not yet; and the very worst way to alienate Mr. Buchanan's friends still more, is by continued abuse, on the false assumption that he aspires to a re-election.

Do not be deceived by the opposition and Douglas press. There is no issue between the President and Douglas, as candidates before the Charleston Convention. The issue is between Douglas and *everybody else*, and the result cannot be doubtful. Hunter and Guthrie seem to be most prominent just now. Both are good men, and either *can be elected*.

STEAMSHIP EDINBURG, from New York for Glascow, put into St. Johns, N. F., at 7 o'clock, Tuesday evening, with two compartments filled with water, having struck an iceberg Monday morning at 11 o'clock 20 minutes, in a dense fog. She stove in one of her forward plates. Her pumps were immediately set going, and her boats lowered over. All the male passengers assisted the crew in working the pumps and bailing.

The iceberg, when discovered, was close before the vessel, directly ahead, lat. 47 40, lon. 48 20. The helm was put hard to port,—passed close alongside without the vessel touching the part of the iceberg above water, but struck under the water line, a little abaft the port bow; the engines were stopped and backed, but the ship had passed before her headway was stopped.

The two foremost compartments filled almost immediately, and the water was kept from flowing into the other compartments only by incessant pumping and bailing.

The passengers behaved with the utmost coolness, and labored unremittingly for thirty hours.

The ship must probably discharge cargo. All the passengers and crew are safe.

☞ The flood on the Upper Mississippi, at St. Paul, St. Anthony, Minneapolis, &c., was very destructive.

At St. Anthony property of the value of several hundred thousand dollars was destroyed.

The St. Anthony Water Company lost 5,000,000 logs, valued at $40,000.

At Coon Creek, logs to the value of $130,000 went over the Falls during three days.

The river is twenty-one feet above low water mark, being within a foot and a half of its height at the time of the great flood of 1850.

The storms of the last week in that section of the country are described as most severe.

☞ The Bath Times, in giving notice of a temperance lecture to children, styles Mr. Sinclair "the interesting, the pleasant and edifying Scotch lecturer,"—and says, let all the boys attend—and girls too. We assure them it will not detract from their pleasures. Mr. S. will not only instruct but amuse them. He is no long-faced, thunder-clouded denouncer of simple woes, but the agreeable portrayer of that which is good, and peaceful, and right. Parents will not regret the use of time if they go too.

HOUSE OF REFORMATION.—This House in Manchester, says the Mirror, (in speaking of the republican party in New Hampshire,) this house, well located, well built, well planned, well managed, an institution commended by the great and good in all countries, it treats as an *illegitimate*—permits it to become a beggar for books for poor children to read, seems afraid of it, the best project started since it came into power.—The Governor touches it lightly in his Message, and knowing ones wink and say "it will ruin the party!" Whereas, if they did but know it, it is a great source of State pride. The democratic papers made fun of it because they saw by so doing they could nettle the Republicans, frighten them.—They laughed in their sleeves when they penned the articles. Not a Democrat votes against appropriations for it, and we are sure that not a Democrat can visit the institution without coming away in its praise.

☞ Late advices from Buenos Ayres, report that Gen. Urquiza is making preparations for an invasion of that country if Paraguay will assist him.

This explains the extraordinary interest Urquiza took in the settlement of the difficulties between the United States and Paraguay; his offering the mediation of the government of the Argentine Confederation in various ways, and his family and himself going to visit Lopez, and his acting as a go-between with Commissioner Bowlin and Lopez. Urquiza has received the title of Pacificator of nations. According to this, the United States played only second fiddle in this almost a war.

RASCALITY.—A person in Cincinnati, O., recently shipped on the steamer Susquehanna, for New Orleans, La., nine cases, said to be of cigars, valued at $6000, the consignee at the latter city, was instructed to have insured, and to pay the insurance money, in case of the goods being destroyed or lost, to certain parties in New Orleans. The steamer after touching at New Albany, Ind., was discovered to be on fire, but by prompt action the fire was extinguished.—A train of combustibles was found leading to these cases of cigars, which, on being opened, were found to contain nothing but chips and shavings. The shipper had been seen in the immediate vicinity a few moment before the fire was discovered.

DEMONSTRATION AGAINST THE LIQUOR LAW.—Four months ago, R. M. Perley of Newburyport, was put into the House of Correction at Ipswich, for violating the liquor law. On Wednesday he was received by a committee of his friends and escorted into Newburyport with a band of music, accompanied by his friends in three carriages. There was one carriage of friends from Georgetown, and another containing friends from Gloucester. Among the latter were two persons who were released from the same institution a week since, having served out a sentence for the same offence. The route through the town of Rowley was a scene of glorification—flags were suspended and cheers given at frequent intervals, and bottles stuck up on poles.

The demonstrations were designed to be complimentary. Mr. Greenleaf Boardman was the chief projector of the affair, and acted as chief marshal on the occasion. A supper at the Ocean House, Newburyport, of which a large number partook, and at which speeches were had, wound up the affair.

Sometimes the opponents of such laws speak of them as doing injury to the temperance cause. We would not say that the above ovation *can* injure the cause of temperance, in a general way,—we don't believe it possible,—but it would not be uncharitable to suppose that half of those who joined in the supper, are in imminent danger of living and dying drunkards.

REV. DR. SHELDON.—The Bath Times says, in his lecture last Sabbath evening at Summer street church, on the character of Christ as the New Testament presents him, Rev. Dr. Sheldon was understood to declare his full, unqualified faith in the final redemption and salvation of all souls, though he would not pretend to say what amount or degree of discipline would be required to prepare them for that state.

Dr. Sheldon, our readers may remember, was an eminent Baptist minister,—and became a Unitarian.

THE ERIE RAILROAD.—*New York, June 8.*—A proposition has been made by certain parties to lease the Erie Railroad for ten years, on the following terms: To pay the bondholders $1,600,000 for the present year; $1,800,000 for the next year; $2,000,000 for the third year; and $2,300,000 per annum for the remainder of the term. The latter sum would be sufficient to pay the interest on the entire debt, and a dividend on the stock. The parties offer to give securities to keep the road in repair, and to be subject to investigation.

ANOTHER LARGE FIRE.—A dispatch from Columbus, Georgia, says the Alabama and Fontaine warehouse was burned on Tuesday, together with 8000 bales of cotton and a large amount of merchandise, on storage. Loss $500,000. Insurance unknown. Supposed incendiary.

GENERAL COURT.

In the House, on Wednesday, June 8th, the following bills were introduced:—

By Mr. Gage of Nashua—Bill relating to the right of suffrage, [providing that no man shall have the right to vote unless he has paid a poll tax assessed upon him by the town in which he resides since the first of April, 1859.]

By Mr. McFarland of Concord—Bill to amend the Charter of the city of Concord, in relation to the choice of Superintending School Committee.

By Mr. Pray, of Dover—Bill in amendment of the charter of the city of Dover.—[The object of this bill is to change the four wards now existing into two.]

By Mr. Jenness, of Portsmouth—Bill to authorize the extension of the Concord and Portsmouth Railroad to tide water, at Portsmouth.

By Mr. Gilman, of Tamworth—Bill in relation to Hawkers and Pedlers. [This bill provides that licenses may be obtained of the State for $10 to peddle, and in case the applicant is unfit for manual labor, the fee may be remitted. The Secretary of State is empowered to license persons not residents of the state, for one year, on the payment of $100, on certificate of good moral character being presented.]

The Suffrage.—Mr. Bixby of Francestown, introduced the following resolution, which was adopted:

Resolved, That the Committee on the Judiciary be instructed to inquire into the expediency of amending chap. 26, sec. 6, R. S., requiring longer residence in the state and in towns preceding the annual election, and report by bill or otherwise.

☞ The Annual Communication of the M. W. Grand Lodge of New Hampshire was held at Concord, on Tuesday, June 7, 1850. The following officers were elected for the ensuing year:

Moses Paul, Dover, *M. W. Grand Master*,
Aaron P. Hughes, Nashua, *Deputy Grand Master*,
Jacob C. Hanson, Somersworth, *Senior Grand Warden*,
Christopher Whitney, New Ipswich, *Junior Grand Warden*.
John Knowlton, Portsmouth, *Grand Treas.*
Horace Chase, Hopkinton, *Grand Sec'ry.*

The Grand Master announced the following appointments:

D. D. Grand Masters.—John Christie, Portsmouth; E. H. Rollins, Concord; Jas. H. Edgerly, Rochester; Edward W. Harrington, Manchester; John J. Prentiss, Claremont; Jared I. Williams; Lancaster; William B. Kimball, Peterborough.

Grand Lecturers.—Ivory Harmon, Nashua; Thomas Sanborn, Newport. Thos. Snow, Somersworth; John B. Fish, Manchester; Jonathan E. Sargent, Wentworth.

Grand Deacons.—Asahel A. Balch, Manchester, *Senior Grand Deacon*; Richard M. Ross, Dover, *Junior Grand Deacon*.

George W. Balloch, Somersworth, *Grand Marshal*.

J. Warren Towle, Portsmouth, *Grand Sword Bearer*.

James B. Perry, Lebanon, *Grand Pursuivant*.

Isaac Eastman, Concord, *Grand Tyler*.

The meeting was the largest for many years and the utmost harmony prevailed.

Five charters were revived, and two new ones granted.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of whooping Cough, when her life was given over by the physician and all other remedies had failed.

Oleine Diamond Oil.

GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 13, '58.*)

Knowledge is gained by experience, and, though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 23rd of August, she had an alarming hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in as Bleeding doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a stypric*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable medicinal properties of the Juniper, rendering it the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use. It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GOUT, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weak sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co. 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. CITY COUNCIL.

We continue from Thursday, our report of the action of the Common Council,on the Finance Committee's draft for an Appropriation Bill.

For roads, the appropriation was increased from $800 to $1000. The President calling Mr. Stoddard to the chair, offered some remarks in favor of the increase, stating that North Road this year needs at least a third of the sum named.

Mr. Kimball moved to cut down the $2500 named for streets and sewers, which was done. He thought a systematic and scientific grading of the city streets should be made, and was unwilling to vote to throw money away, as has always been done.—And every sensible man who examines the matter, must agree with him—and with ex-Mayor Walker's recommendation of such thorough grading.

The $3100 for City Watch was cut down, to $1000, we think. Mr. J. Wesley Moses, Mr. Kimball, and others pronounced some of the Watchmen incompetent and untrustworthy—lazy and not sober.

Mr. Miller opposed paying $200 for the Health Committee—stating that a stable has been for years drained above ground, thro' Fleet Street, though often complained of; and if this committee cannot or will not stop it, they are of no use. There being a tie vote on the question, the President decided in the affirmative, appropriating the $200.

Mr. Kimball opposed the $735 for "incidental expenses" of the Fire Department—but it was passed.

Messrs. J. W. Moses, Goodall and others, denounced some of the Assistant Marshals, as incompetent and unfit—it being stated that one of the six had been frequently drunk, &c. Mr. Emery and others called for his name—but it was not given. After much discussion, and numerous votes, this item was laid on the table. Mr. Kimball thought the pay was too small to secure good men.

On motion of Mr. Miller, the appropriation for 4th of July, was increased from $150 to $500.

Concerning Gas for streets, there was considerable of another sort let off. Mr. J. W. Moses thought we needed more light on dark nights, and less on pleasant ones, and moved to cut down the $650. Mr. Emery thought the Co. should give the City gas, for tearing up streets so much. Mr. Goodall hoped the appropiation would not be lessened, as we should get even less light than now. Mr. Miller thought it impossible to satisfy any people as to gas-lights. The money was voted.—Mr. Moses thought the money invested in Side-walks should be watched more closely—while Messrs. Kimbal and Goodall were of opinion that we need all that is thus expended and more too. The $600 was not changed.

Mr. Kimball opposed the $75 for repairs of Court House—but it was given. Also the special $50 for Railing the Sidewalk at Christian Shore (above Jones's Hill)—stating it might come out of the $600 above. Mr. Goodall favored it—and Mr. Miller had confidence enough in His Honor the Mayor, to vote any such sum recommended by him. It was voted. The $4000 for School House in District No. 2 was laid on table to hear report of the Committee appointed to report plans and estimates.

Altogether, the bill was diminished several hundred dollars—we believe nearly $2000.

PORTSMOUTH, June 9, 1859.

Messrs. Editors:—The topic which is now exciting the patriotic portion of the community is,—how shall we celebrate the approaching 4th? Can we not have a grand picnic in the shady woods, away from the heat and dust of the city? Something of the kind could be got up at less expense, and be productive of far more pleasure, than a puny attempt at a celebration in the city. Side shows would be in attendance, and would do much to enliven the scene. The "Ethiopian performers," and probably the "Bards," could be induced to sing in tents provided for that purpose. These, together with the games and amusements which would be played, would pass the afternoon away in a very pleasant manner. In the evening a Promenade Concert would be highly successful, and in the absence of anything else, would be attended by a great many. It is to be hoped that the Board of Aldermen will concur in the liberal appropriation made by the Common Council; if they do, a handsome collection of fireworks could be obtained, which could be displayed after the concert let out. What say our young men—shall we try the

☞ At Alleghany city, Pa., on Thursday, a little girl named Elizabeth Jane Bussler, nine years old, was struck by another girl named Elken, twelve years of age, as is supposed with a stone, from the effects of which she died.

☞ The property destroyed by fire during the month of May in the United States, amounted in the aggregate to over one million six hundred thousand dollars.

ITEM MAKING. — We congratulate our fellow-laborer of the Ballot on his recovery from illness, and on the preservation of his faculty of item making, which is well exemplified in the following personal paragraphs, which speak for themselves.

From the Ballot.

EDITORIAL–PERSONAL AND EXPLANATORY. —Disease, whose attacks in various forms we have been engaged for some weeks in warding off, fairly "took us down" last week through the instrumentality of a severe bilious colic.—For two or three days the contest between the disease on the one part, and a good constitution, excellent nursing and a skilful and attentive physician on the other was awful (for us) to contemplate; but nature, science and medicine finally triumphed, and we have emerged from the conflict "a wiser and (physically at least) a better man." We are still, however, ordered to keep quiet, to subsist on simple food, avoid all excitement, and substain from the perusal of all inflamatory publications, confining ourself to bed and the perusal of the Daily Chronicle, Exeter News Letter and the telegraphic despatches. We are therefore compelled to use the pencil and scissors while lying prostrate—what a hard time those editors must have of it who habitally lie while writing—and must ask the indulgence of our readers if our sheet is unusally flat and insipid.

Our friends have been very attentive in sending us the account and congratulating us upon the very flattering vote by which the legislature has reelected us to the important military office last year conferred. It is flattering, to be sure, at first sight; but then will come the reflection—what have we done that political opponents should vote for us?

☞ The Commissioners who were sent by the Administration to Salem, to investigate the alleged forgery of nearly six hundred names to a petition for the appointment of Dr. Loring to the office of Collector of that port, have reported that the forgery was fully proved. Mr. Pike, the present Collector, has been summoned to Washington.

☞ The telegraph reported on Saturday that an agent of the French government was trying to buy a new clipper ship at Fairhaven. The New Bedford Mercury says the "agent" is a Spanish gentleman, and there is a rumor that the vessel is to be employed in the slave trade.

PATENTS.—Among the patents issued at the U. S. patent office last week were the following to New Hampshire men:—

C. F. Anderson of Charlestown, N. H.—For improvement in seed planters.

Edward J. Durant of Lebanon, N. H.—For improvement in hand lever.

Jacob Gove of Milford, N. H.—For improvement in tanning leather.

Geo. W. Parker of Fitzwilliam, N. H.—For improvement in cross-cut sawing machines.

Joseph W. Thorp of Hillsboro', N. H.—For improvement in tailors' pressing machines.

☞ Our latest news from Europe by the Arago, is to May 30, by telegraph from Liverpool.

The London papers of Saturday morning advert to the expedition of Garibaldi and his volunteer corps across the right wing of the Austrian army in Upper Lombardy, which has been by far the most striking and successful episode of the campaign.

PARIS, May 30.—The Moniteur publishes the following dispatch:

Allesandria, May 29.—The Emperor is enjoying perfect health. There are but few on the sick list. The weather is beautiful and heat moderate. The harvest has begun.

GALWAY, May 30.—The following dispatch was received last evening:

The following advices have been received from Ligona to-day:—Yesterday evening after a furious fight which lasted from five to eight o'clock, Garibaldi entered Como. The combat was renewed at Carmelita and the Austrians again gave way and retreated.

The town of Como was illuminated, and all the steamers in the hands of the Patriots.

This motning an Austrian war steamer on Lago Maggiore kept up a three hours cannonade on the Canobio, without much effect.

BERLIN, Saturday.—According to advices from Florence to-day, Russia, Prussia, England and Turkey, are said not to have recognized the provisional government of Tuscany, and representatives of these countries are also said to have withdrawn their flags.

PARIS, May 28.—The Pays of this evening, contains the following semi-official dispatch: The Austrians, fifty thousand in number, quitted Placenza, yesterday, and re-entered Lombardy.

The same journal also states that England is endeavoring to renew Diplomatic relations with Naples, but only on condition that France simultaneously does the same.

FROM PIKE'S PEAK.—*Leavenworth, June 8.*—The Pike's Peak express has arrived here with Denver City dates of the 25th ult., and $300 in gold.

All sorts of rumors were current there. Some parties, it was said, were making from $15 to $20 a day at the mines, and others nothing.

The Indians were collecting in considerable numbers along the route, proving troublesome to travel, begging and stealing what they could lay their hands on.

The Democrats have carried this county by 450 majority.

FIRE AT SALEM.—The most destructive conflagration that ever took place in Salem, originated in the stables connected with the Mansion House, between 1 and 2 o'clock Wednesday morning.

The stables, the Mansion House, Col. Whipple's bookstore, all the buildings in the Mansion House yard, and others, were burnt,—in all, thirty buildings.

In the Mansion House stables there were sixteen valuable horses, all of which were destroyed. A man named Hatch, who was employed as hostler, and who slept in the stable, perished in the flames. His remains were found Wednesday morning, but in so disfigured a condition that they could only be identified by a knife, key, &c., which were about him. He belongs in Wells, Me.

The whole loss is variously estimated at from $75,000 to $125,000.

A large portion of the losses are covered by insurance; but Mr. Leavitt of the Mansion House loses $30,000, and is not insured.

☞ In New York city, the Coroner's jury, in the case of Fanny Dean Halsey, returned a verdict of accidental death; whereupon Messrs. Halsey and Wells were discharged.

The woman probably committed suicide, or possibly she might be pushed overboard. From testimony at the inquest, it seems Halsey is a man of irregular habits, and a gambler, but that he treated her kindly; and in regard to the trial of Daniel E. Sickles, at that time he said, "that if deceased should take a false step he would murder her." He did not seem to be much distressed at the disappearance of Mrs. Halsey, but cried a little.

ETECTION IN KANSAS. — *Leavenworth, June 7.*—There has been a heated contest to-day in the election of members of the Constitutional Convention. Definite returns from the territory cannot be had for two or three weeks. All past issues have been ignored, and the question is direct as to a free or slave state.

WASHINGTON, June 8.—The Administration has not yet fully determined on its course of action, pending the war in Europe, but has under consideration a declaration or statement of the principles by which the United States will be governed. It will clearly set forth the just rights of American citizens engaged in peaceful pursuit of commerce, which, as far as possible, the Administration designs to protect.

FOUND DEAD.—*Waterbury, Vt., June 8.* A stranger, about 22 years of age, was found dead and mangled on the railroad track, one mile from the depot, this morning. He was seen about the village yesterday somewhat intoxicated.

☞ Thornton, who shot Mr. Charless at St. Louis, and is now in jail for the murder, was doubtless the robber of a bank where he was a book-keeper. Mr. Charless was a government witness against the scoundrel, who was acquitted by a soft jury. A state prison for life, is precisely the place for him.

☞ At the election in New Orleans on Monday, the Americans elected their entire ticket by about 2000 majority.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

UDOLPHO WOLFE,
SOLE MANUFACTURER AND IMPORTER,
DEPOT 22 BEAVER STREET, NEW YORK.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academy of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering out their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and strictly attended to.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all the FEMALE REGULARITIES. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

Ladies can rely upon these pills as being perfectly safe.

Ladies are cautioned against using any other pills, as they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl 2 d1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every information relative to the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop, and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray—then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking, am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. R. W. HILLIARD, LYON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost bald, is covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 494 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

GREELEY'S PATENT ELASTIC
BACK AND CENTRE
SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making Pants is: they may be made sung to the person, and still be as easy as though they were uncommonly large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Shirts or Pants, and far superior to any other BRACE in the market. may25

Portsmouth, N. H.

SATURDAY, JUNE 11, 1859.

THE EFFECT.—The Manchester Mirror, speaking of the liquor law, finds much fault with it, and says:—

It is so strong in words that it is weak in fact, and is treated as of no account in all our large places. The result is that a multitude of young men are going to ruin on liquid lightning, and nothing but a "right-about-face," bran-new law can stop them.—That should be repealed, and a *license* law of a new stamp should be passed, a license to sell pure liquors, heavy bonds not to sell any other, and a heavier fine for selling any other, and a fee for the license so large that the sellers will not be too many.

To such matter as this, the true and fair reply is,—there is no doubt your young men go to destruction by drinking—but the idea of stopping them by a *license* law is wholly chimerical. We *had* license laws for an hundred years, and intemperance was not checked by them.

It has been checked and diminished by the action of temperance societies, agents, tracts, papers, and lectures.

The evil is no more within the power of legislation, than the evil of murder, or assault, or other crimes. The best that human laws can do is to bear against crime, and prevent or punish it when they can.

A GOOD REPLY.—Mr. Sinclair, of Scotland, is laboring for temperance among the youth, in Bath, Me. and vicinity. The Bath Times having spoken favorably of Mr. S. and his efforts, the Bangor Union emits the following item.

The editor of the Bath Times is out in defence of Sinclair, the emissary of Dow, Peck, and Forbes & Co., who is perambulating the state in the guise of a temperance lecturer. *Par nobile fratrum.*

To this piece of stupid, partisan malignity, the Times makes the following manly reply.

Thank Heaven, our notions of freedom and democracy do not require us to get drunk, nor to throw filth at an educated gentleman of Scotland for trying to influence our children in the ways of virtue. It is a poor cause or a *poorer shoat* that can profit by such taunts as the above from the Union. Very soon after we come to believe that democracy will suffer from the prevalence of temperance and sobriety, or that it demands of us to insult every man who does not happen to see through our spectacles or to bow to our political shrine, the Union will be able to record our abjuration of the faith—not before. Though we endorse "popular sovereignty" even in temperance matters, we prefer to respect the honest, sincere workers for the cause, though we may not agree with all their notions.

☞ Two editors in Concord, are *pleased* with two views of the same occurrence.—Speaking of the Inauguration parade, the Patriot says:—

"We are pleased to be able to say that no Democrats participated in this demonstration, excepting those belonging to the companies engaged. They could not have done so, under the circumstances, without disgracing themselves."

The Independent Democrat replies:—

"'We are pleased to be able to say that' the 'Chairman of the Committee of Arrangements' and some others on that committee, were Democrats, and altogether the best members of that party in this city. We are equally 'pleased to be able to state' that the influence of ——, —— & —— was kindly and efficiently exerted to prevent all the —— "flunkies" from taking part in an occasion only intended for men and gentlemen."

☞ Aworthy and reliable young man belonging in our neighboring town, Stratham, who went out from that place to Pike's Peak, last winter, has just returned home, and says the whole mass of pretension or representation in favor of the place, is the most unmitigated humbug, got up by interested parties, as he thinks for political as well as financial swindling.

He confirms the statements about intercepted letters and forged answers, and about the great destitution and misery of the prospecters and diggers. There is gold there, he says, but in such quantities and conditions, that very few can make wages, and no one can grow rich by digging.—To the multitude, it is a trap of starvation.

☞ The Boston Courier contains a Canadian Court report, of a case in which two lawyers, who had in the first instance tried their case before the public, in the newspapers, were ruled out of court for that reason, when they brought cross actions for libels.

The report says these limbs of the law "engaged in a warfare, not with sticks, but with pens, and continued for some time to indulge their animosities by disturbing the public peace and violating the law, after which they came before a Court of Justice asking for reparation for the injuries they had caused each other. They both, no doubt, desired to acquire, and did acquire, by the controversy, some little celebrity;—that celebrity the Court confirmed, but, so far as this case was concerned, would put them both out of Court, by dismissing the action, and cross demand, each party paying his own costs.

The Howadji Curtis, so gentle of yore,
Has written a novel called "Trumps;"
There's a fight in each chapter to part No. 4,
So we think the name *should* have been
"Thumps." —*Boston Post.*

WEARE BANK, HAMPTON FALLS.—We give the following statement in regard to this bank as an exhibition of great rascality on the part of some editors of money papers, who pretend to be guardians of the public safety.

Some months ago, the Weare Bank, of Hampton Falls, N. H., were notified that a demand had been made by Anastatius Nicholas of No. 70 Wall street, New York city, that $1000 should be deposited in a designated place in that city, or the Bank would be discredited. The demand was refused, and soon "Nicholas' Reporter" appeared, with an article cautioning the public against bills on the Weare Bank, in language best calculated to damage the institution.

Not long after J. Tyler Hodges wrote the Weare Bank that, from what he had heard, he should discredit the Bank, unless he heard from them immediately. No reply was made, and forthwith Hodge's Journal of Finance came out, discrediting the bills of the Bank as unsafe, uncurrent, &c., &c.

Some days since, the President of the Bank received a letter from one John S. Dye, purporting to come from the office of "Dye's Wall St. Broker," stating certain false charges against the Bank, and closing in the following language:—

"If the mater is not Satesfactorly expland imedeally I will feel it my duty to so publish the information in the Brokr, to wit that the *Bank has been enjoined* an early reply may save truble. JOHN S. DYE."

On the 7th instant "Dye's Wall Street Broker" appeared, and was industriously circulated in New England, with a false statement of losses by the Bank, and that the Bank Commissioners had placed the Bank in the hands of the proper authorities.

The Bank has never met with serious losses, the alleged action of the Bank Commissioners is false, the Bills of the Bank have never been discredited, the Bank is solvent, and the Bills as well protected as any Bank in New England.

GEO. H. DODGE, Pres. Weare Bank.
HAMPTON FALLS, June 9, 1859.

☞ Forney's Press thinks Charleston "is destined to prove an inhospitable Mecca to such of the political aspirants as feel disposed to trust their fortunes to the tolemn arbitrament of the Convention to be held there some time in June or July of 1860. There are many preparations making to render it agreeable to those who expect to control it; but in the vast outside community who flatter themselves that the dove of peace will soar forth from that Convention, distilling from its wings harmony and joy throughout the Democratic ranks, the indications are gloomy enough. The Charleston Mercury, the very able organ of the Barnwell Rhett disunionists, unfurls its broad flag from the walls of Charleston, bidding defiance to the Democracy of the North, and while coolly declaring its purpose to control the Convention by excluding from that body all who do not accept the Charleston construction of the Democratic platform, quite as coolly announces its purpose to discard the action of the Convention if that body does not agree to its demands."

☞ The Cincinnati Commercial says that Richard Cobden, the British statesman, used the following language in that city:

"There is a marked difference between your two parties in this country. A Democrat swaggers in as if the government belonged to him; a Republican on the contrary hesitates, doubts, and acts as if a victory were too good for him. The one utters, fearlessly, the most atrocious sentiments, as if they were a merrit; the other apologises for the expression of the most striking truths."

VIEW OF BOTH HOUSES.—The editor of the Dover Enquirer has looked in on the General Court, and draws these pictures.

The House of Representatives looks very much as of old, only a little more so. The members are more closely crowded together with their increasing numbers, the hard seats are harder to sit on as a consequence, the atmosphere in a hot day more oppressive, while the $2 per diem, with the accompanying honor, grow "small by degrees and beautifully less," in view of the increasing magnitude of landlord's bills and the decreasing importance of legislative distinctions. As things are going on, the representatives of the next generation will have to organize in the State House yard, for they will hardly find standing room in the Capitol itself.

The Senate is still a select body. There is no crowding there. Dignified and sedate as becomes the "conscript fathers" of the state, each senator occupies his curiael chair, with the consciousness that no infinitesimal portion of responsibility rests upon his shoulders.

☞ A Paris letter says the 'blessed baby,' the Prince Imperial, is a fine little three year old, who looks as if he were made of good milk and blood, with a large, wondering sort of an eye that seems already to have a dreamy view of the "All hail!" hereafter. The little fellow's cradle is well watched; and when his nurse takes him out he is closely guarded by cuirassiers, &c.

☞ The Leghorn people arranged "excursion trips" to go to Genoa and return for thirty francs—$6—to see Louis Napoleon. This is thought to show how ready Italy is to be animated by the modern spirit of speculation and enterprise.

For the Chronicle.

HARRY'S MISTAKE.

Mrs. Brown surveyed the new oil carpet on her little dining room floor, with a pleased, satisfied glance, as she passed through the room late one afternoon, just before going out. "Yes, it is finished at last," said she, "and the neat little pattern of wood color and white, corresponds so well with the paper on the wall, and the window shades. And what a surprise it will be to Harry! For once in my life I have a secret from him, for he knows nothing of this, neither has he seen my new spring suit, which I am wearing for the first time this afternoon, as I wish to call him at his counting room. He cannot help saying it is becoming—his favorite colors too;"—and really, Mrs. Brown might be pardoned for the little blush of pride, which for a moment mantled her cheek, as she returned to the sitting room and stood before the mirror to adjust the gracefully fitting "Piccolomini" over a tastefully chosen dress of "Crape Royal." "But hark! can that be Harry so early?" she exclaimed. "How provoking that my little plot should be marred! It is too late to run up stairs to change my dress, for here he is!"

"Why, my dear Maria, is this you?" said Mr. Brown, entering the room and surveying her new apparel. Ah, here is the secret of my slow progress towards getting rich;" and he threw himself upon the sofa with the air of a man who feels painfully impressed with a sense of his wife's extravagance. With a shadow of disappointment upon her pretty face, Mrs. Brown sat down, as all dutiful wives should, to patiently listen and explain.

"Maria," commenced her husband, drawing a deep sigh, "it is an unpleasant subject I know; but how many times this spring have I told you that it was impossible for me to increase your yearly allowance, and that in consequence you would either be obliged to wear your old clothes a while longer, or add to our account at Jenks's, which is already much larger than it should be. I see you have chosen to do the latter.

"Why, Harry!" she exclaimed, "I have not spent half of my last quarterly allowance yet. I bought this dress and cape at Allen & Paine's, No. 15 Market street, for about half the sum which I should have been obliged to have paid elsewhere. And beside," added she, brightening up through those new tears of disappointment still in her eyes, "see what else I have been able to buy at the same place, for only 37 1-2 cents a yard;" and she drew him to the door of the dining room where lay the new carpet, shining in the afternoon sun.

"Well, that is pretty," said he; "and you have been keeping it all as a surprise for me,—and your pretty new clothes, too. My dear, I'm ashamed of myself; do forgive me for judging you so wrongly. I was somewhat vexed when I came in, about a little business speculation which had failed me. As a tangible proof of my sorrow, please take these for the new black silk I have so long been promising you; and," he added, as he pressed the two golden eagles in her hand, "be sure, my dear, to buy of Allen & Paine." Mrs. Brown smiled at the changed mood of her husband, and was just thanking him very warmly, when a ring at the door bell called her away. Upon answering it, she found at the door an intimate friend of hers, followed by a little boy almost overladen with packages of various sizes.

"Why, Mrs. Weston," said she, "how glad I am to see you. I was going out, but have just given it up, it is so late. Do come in and rest awhile."

"Thank you," said Mrs. Weston, "I shall be delighted to do so, for I've been out hopping all the afternoon, and am very tired. Just see what I have bought," she continued, after the little boy had retired, leaving his burdens upon the sofa. "You know, Mrs. Brown, that we are going out of town next week, and consequently I have lots of commissions from my friends at Exeter to fulfill. Of course I have purchased of Allen & Paine, for they have long known these young gentlemen, and will allow me to buy nowhere else,—and indeed, I should not wish to do otherwise. Just see how pretty, and at what prices!" and with a woman's delight, she began to display the contents of the different parcels. "Here is the best piece of boiled black silk which I ever saw for one dollar—and such splendid velvet for trimming! It is for sister Lucy; and here are some summer goods for her children,—French challies for the little girls, and this new material for boys' wear; I cannot remember the name, but isn't it nice for twenty-five cents? This is Sarah's little mantilla,—a new pattern, direct from Philadelphia—latest style—a perfect little beauty, I think. Mrs. Smith, who is visiting at aunt's, sent for me to buy these ladies' cloth capes' for her little nieces; please examine them. O, just like yours, I see—and how becoming it is to you. Don't you think them splendid for five dollars? These gauntlets I took three pairs of,—one wears out so many in travelling; and I noticed these were very fine for the price—62 cents. Really, I fear I have been extravagant," said Mrs. Weston, gathering up her purchases; "but once seated in the store of Allen & Paine, surrounded by the beautiful goods which are offered at such *low prices*, by young gentlemen so pleasant and obliging as they invariably are, I could not resist the temptation to buy what, after all, I really need. I wish I had time to show you my travelling dress and hair cloth skirt—both new articles,—but it is so late I must go."

"What an inveterate talker!" exclaimed Mr. Brown, as the door closed after Mrs. Weston. "Really, she deserves some present from those young gentlemen, she advertises so beautifully for them."

"Why, my dear," replied his wife, "if they should select some reward from their goods for every one who recommended them, their well filled shelves would, before two days were past, be entirely empty.—But, Harry, it must be tea time. I shall claim your company for a walk this evening, as an atonement for my disappointment this afternoon."

"And also, for my making such an unwarrantable *mistake*," added he, with a sly smile.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam.* The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself;

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & Co.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its grey hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.

From the Pittsburgh United Presbyterian.

We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.

From the Pittsburgh Post, August 27, 1858.

HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons affected with indigestion, it affords a complete remedy. It is without evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)

Knowledge is gained by experience, and though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturers, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one teaspoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. As a *styptic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R. R. R. Resolvent will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the more valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant for medicinal use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of the fiery taste of other Gins, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally for cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BLADDER, NERVOUS DEBILITY, &c., whilst the weaker sex will find in its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles's London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

LOCAL.

FOURTH OF JULY.—As yet there is no definite plan of operations. The Journal states that the City Council have appropriated $500 for the celebration. This is a mistake—one board, the *Common* Council, have voted this sum; but the appropriation bill has not been sent up to the Aldermen as yet, and it is not certain that they will agree to this sum, even if it comes before them in season for the money to be used to advantage in getting up a celebration.

The Journal suggests that most of the money be spent by daylight. A good idea—only let the Band give an out-door concert in the evening. We want a celebration to entertain the people and keep them from seeking amusement abroad, as well as to attract our neighbors from other towns; to have the money expended on that day retained at home, and not sent out of town; and we want it for the benefit of the children and youth, that they may be safe from physical or moral injury under the eyes of their parents. Why can't we have a rural gathering in the woods somewhere — a Fourth of July City Picnic—say at Sagamore? as suggested by our correspondent "Experiment" on Friday. This might take place after any display in the city proper in the morning.

SCHOOL HOUSES.—By the report of the doings of the City Council, it will be seen that nothing has been done to improve the recitation room at the Boys' High School—and nothing seems likely to be at present. That recitation room is comparatively small, ill lighted, and not ventilated at all—unfit for the purpose for which it was built.

The Common Council proposed to take down the partition between this room and the side entry—thus bringing two more windows into the room; and to partition off (in an unlighted corner) another place for the boys' hats and clothing.

The Aldermen propose simply to cut folding doors between the recitation room and the *front* entry, which has no windows at all, and could not add much to the light or improve the ventilation of the room.—After a committee of conference, neither Board adopts the plan of the other; and the Common Council adhere to their first and it seems to us well-advised plan—which the Aldermen lay on the table.

So the boys and their teacher must swelter and suffer on—unless their parents have sufficient regard for them to keep them where they *can* get pure air.

On Thursday evening, a very handsome plan for a Grammar School in Cabot street, drawn by Mr. O. E. Pray, was sent down to the Common Council by the Aldermen. The estimated expense of building is, of wood $8000, of brick $10,000.

Mr. Kimball moved, and it was voted by the Common Council, to call for a working plan and estimates for a building to cost not more than $4500.

LEGISLATIVE.—In the House, on Thursday forenoon, a bill was introduced contemplating the division of Gilmanton, and the construction of the towns of *Gilmanton* and *Upper Gilmanton*, by a line which leaves the Academy Village in Gilmanton. It is probable the bill will become a law. The territory of which old Gilmanton consists is so extensive as to demand, for the convenience of its inhabitants in the transaction of their municipal affairs, that it be sundered.

Among the bills presented and referred, were,—

By Mr. Marcy of Portsmouth—Remonstrance of the President and Directors of the Eastern Railroad, against the prayer of the petitioners asking that the Concord and Portsmouth Railroad Co. have power to run horse cars over the Eastern Railroad. [Mr. Marcy stated that he presented this petition, because it had been sent to him, but he was opposed to granting its prayer, and should give his reasons hereafter.]

To Committee on the Judiciary:—Mr. Scoggs of Hillsborough, from the Committee on the Judiciary, to whom was referred the bill amending the charter of the city of Dover, reported a resolution, recommending a reference of the bill to a select committee, consisting of the delegation from the city of Dover. Adopted.

THE RAILROADS.—A Concord correspondent of the Atlas says:

The proposed union between the Concord and the Manchester & Lawrence roads, has taken a new turn. A bill has been prepared by those in the interest of the Concord road, providing for a lease of the Manchester and Lawrence to it at 6 per cent on the capital stock. There is danger that this will be opposed by the stockholders of the Manchester and Lawrence, and thus the union, media branch and all, will be knocked in the head. It is stated on good authority that the bill introduced by Mr. Smith of Manchester, regulating the tariff between connecting roads, will be withdrawn, and that the whole controversy between the upper and lower roads will be settled by arbitration, and without legislation.

INSTRUCTION FOR THE NORTH.—The Concord Democratic Standard of June 4 says:—

This great question between the North and South, is to be met. Neither demagogues, nor expediency politicians, can prevent it. The North *must* consider the cause of the South, and *must* concede their just rights under the constitution, or both the Democratic Party and the Union will be numbered among the things that were.—The reply that we are opposed to Slavery—that the prejudices and fanaticism of the Northern mind will not permit us to advocate, much less concede, the just demands of the South—will not longer avail in the stern conflict for the true equality of the State, under the constitution, which is now impending in this Republic.

The true course of the patriotic press of all parties, is, to *instruct the people* of the North with respect to the rights of their confederate States, to teach them their duty, to learn them that duty transcends all prejudice or fanaticism, and *must* be sacredly and religiously performed. The Northern mind *must* come to the conclusion that the institution of Slavery is just as *sacred in the eye of the constitution* as any other institution of the land, and must be as much respected and protected, as long as our present national compact continues. These are our fixed and determined opinions, by which we intend to stand as firmly as the Granite hills.

Half a million readers pore over the pages of Bonner's Ledger, but very few persons get a chance to look over his cash-book. Of all the Ledger "accounts," we prefer the Bank accounts.

Apropos of Bonner, why don't some of his "lucky stars" write the "Emolument's of Authorship," as, contrasted with D'Israeli's lugubrious labors in the contrary direction? —*Post's Whitlings.*

CHANGE OF FORTUNE.—Prof. Parsons, in his interesting memoir of his father, relates the following instance of the fickleness of fortune:—

"My father used to speak of one of his friends, (a merchant of Newburyport,) who often said 'I have prayed to the Lord to make me rich, and I believe I have prayed too hard, for I think he means *to drown me out.*' The same man said at my father's table, "If I threw a shingle in the water as the tide turned out, and laid a dollar on it, I believe that the next flood tide would bring it back with ten more.' He was then thought to be exceeding rich, but, not many years afterwards, he died a bankrupt."

BRIBERY? CORRUPTION? OR WHAT? The Newburyport Herald says:—

There was much disappointment felt by the people of the neighborhood, and we believe also by the District Attorney of Essex, at the postponement of the lottery case of the Shutes. The delay is in their favor, as the more time elapses the less evidence will appear against them; and since so many in this county, charged with serious crimes, have been allowed to escape, it already begins to be said that they will never be brought to trial. We believe ourselve there is little chance of their being punished for their offences.

☞ Adeline Pells of Marshpee, Mass., recently died in consequence of injuries received from repeated beatings by Charles Alvis, with whom she had been living on terms of intimacy for some time. Alvis was committed for trial in September. He had threatened the life of Mrs. Pells for some time. He is an old offender, having once been imprisoned for striking his wife with an axe. He beat Mrs. Pells last winter, causing severe injuries, and recently beat her again, causing her death. He was intoxicated at the time. Some persons saw the beating, but did not interfere to prevent the serious result.

☞ The Independent Democrat, (good authority on such a point,) says,—

The Republican National Committee have neither indicated the time nor place for the National Convention, and will do nothing about it for "at least six months to come."

SLAVEHOLDERS' CONVENTION.—*Baltimore, June 8.*—The Slaveholder's Convention met here this morning. There is a very large attendance, embracing delegates from every section of the State excepting Alleghany county and this city.

Oleine Diamond Oil.

GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is floooded with them.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M's Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 62 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and its flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Tranner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with sulphate of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

THE MYSTERIOUS FOUNTAIN.

The store of William R. Preston is ornamented with the most beautiful soda fountain ever seen in this neighborhood. It has the appearance of a wide column of burnished silver, with projecting arms on opposite sides. From one of these arms, sparkling soda alone is given. From the other, readily flows, agreeably to the expressed wish, either Fine Apple or Raspberry, Vanilla or Sarsaparilla, Strawberry or Lemon, Ginger or Nectar, or simple Chocolate or Coffee Syrup—and as if this was not variety enough, in the same continuous stream out comes from the same pipe the sparkling soda to fill the glass! It is a matter of surprise to every beholder, and he desires to *obtain a glass* that he may better see into the mystery.

The interior tubes of this curious fountain being of silver, the Soda is at all times pure. Mr. Preston is a true gentleman, and will, we have no doubt, be pleased to exhibit the curious operation to all who may feel a curiosity and have a *taste* for so beautiful an effervescent display.

MUNICIPAL.

In Board of Aldermen on Thursday evening:—

Petition of T. J. Sheblon and others, for Aqueduct in Brick Market—referred.

Petition of Engine Co. No. 1, to remodel their hall—referred.

The report of the committee on building a new School House in Dist. No. 2, was taken from the table and sent down. The Common Council voted to recommit it to the same committee, with instructions to report a working plan and estimates of a building to cost not over $4500. The report now recommends a house costing $8,000 or $10,000.

The bill respecting the recitation room in the Boys' High School was again sent up—the Com. Council adhering to their former plan, which the Aldermen are not disposed to adopt—and laid on the table.

The committee to whom was referred the School committee's recommendation respecting alterations in the school room at Gravelly Ridge, reported favorably—adopted.

IN COMMON COUNCIL the Appropriation bill is still under discussion. We are glad to see that the street appropriation has been cut down—and so will every one be who has to pass over the mountain built up this season in the centre of Anthony street.

FOURTH OF JULY.—The City Council having appropriated Five Hundred Dollars for the celebration this year, we may expect a good display of some sort. As Portsmouth has no favorable position for a display of fire works, it is to be hoped that the appropriation will be spent mostly by day light. We hope that the day will be celebrated in some way which will tend to impress upon the rising generation respect for those who acquired our independence, and veneration for the principles of that Freedom which is the only legitimate result of the immortal Declaration, that all men are born free and equal.

BREACH OF TRUST.—The premature issue by two of the Boston papers, of Gov. Goodwin's Inaugural before its delivery, was not warranted by him, and was a direct breach of trust: advance copies being sent on the direct promise that they should not be issued until the telegraph announced its delivery. They were printed and circulated in Boston two hours before any such despatch was received. The Boston Traveller was, at its request, also entrusted with an advance copy, but honestly and honorably observing the restriction, it did not give it to its readers till the next morning, although the publishers had every facility the other papers enjoyed, india-rubber consciences excepted.

SINGING SCHOOL.—It will be seen by an advertisement that Mr. Pearson will open a School for instructing the young in the desirable accomplishment of singing, on Saturday afternoon of next week. What is more pleasant than to hear the voices of children in musical strains, filling the house with life, and producing on themselves and others the same effect the music of David had upon Saul? Mr. Pearson is a good teacher, and has been very successful in his efforts in past years We hope that many will avail themselves of the opportunity now offered of improving and perfecting themselves in this accomplishment, which will last when many other faculties through age become impaired.

The Liver Invigorator.

PREPERED BY DR. SANFORD.

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

Only one dose is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all yellowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, CURES MORBID APPETITE, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all yellowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, CURES MORBID APPETITE, and a preventive of CHOLERA.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice, to treat in person more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in the removal all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name, which are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

In order to secure the benefit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j3 dly

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, gives life and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, if you can in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I remain, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for some years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. BRAXTON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well stocked with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 498 Vine st.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

MONDAY, JUNE 13, 1859.

THE COURTS.—In our legislature, Mr. Cragin of Lebanon has introduced a bill for the reorganizing of the Judiciary. It provides for the abolishment of the Court of Common Pleas; makes all matters whatever now returnable to that Court, returnable to the Supreme Court; makes the Supreme Court consist of one Chief and five associate Justices, four of whom constitute a quorum for law terms; revives the old right of review; and provides that all civil causes shall be tried by the Justices, unless either party shall, on the entry of the action, demand a trial by jury, giving to the Court, at the same time, the right to order any action to the jury; and providing that in addition to the term fee the plaintiff shall pay to the county the sum of five dollars for every day after the first occupied in the trial.

ARGUMENT.—A writer in the N. H. Patriot argues against *the* pedler law, as unconstitutional. He says:

This law conflicts with the Constitution of the United States, which provides that "Congress shall have power to regulate trade with foreign nations *and among the States.*"

This argument bears against *all* pedler laws, and so does almost every argument he uses.

The present legislature will doubtless change the law in some respects, and it is quite capable of improvement, certainly.—But if any holy horror is to be exhibited on account of any such laws, will the reader please to look at sec. 2 of the pedler law of '53, which was signed by James M. Rix, president of the Senate; I. Everett Sargent, Speaker of the House; and *approved* by Noah Martin, Governor: all of the Democratic party,—it reads as follows:

Sec. 2. No such license shall be granted unless on satisfactory evidence that the person applying for it is a citizen of the United States and has resided and had his home in the State of New Hampshire for the *three years* next prior to such application, and every license shall be void when the person licensed shall cease to be a resident in said state.

Approved July 2, 1853.

☞ The Jasper, Iowa, Free Press of the 2d tells of a company of returning Pike's Peakers, who met at a pleasant locality called Skunk's Bottom, a train of Mormons, who were busily engaged—men, women and children—in endeavoring to extricate a number of their wagons that were stuck fast in the mud. While stopping for a moment to witness the exertions of the Saints, they accidentally overheard a young girl of about 19 exclaim, "I wish I was drowned in that dough!" Their interest was at once awakened, and they interrogated her as to why she made such a foolish wish. She replied that she was tired of life; that she had started from Iowa City for Salt Lake with her father, who is a Mormon Elder; that she had been compelled to walk all the way thus far, and that when she expressed a wish to leave the train and return to the city, they invariably stopped her mouth.—She was informed by the Peakers that if she desired to return to Iowa City she should go back with them, to which she replied that she desired very much to return. The Mormons, numbering some fifty men, gathered around, armed with guns, knives, pistols, &c., and declared that she should not go back. But the Peak boys were full of fight, and the Mormons succumbed, and not only let the girl go, but allowed the baggage to be all hauled over to find her trunk, with which she departed.

☞ The proprietors of the San Francisco Evening Bulletin were arrested on the 13th on a charge of violating the law against obscene publications, in having spread before their readers the reports they found in the Eastern papers of the Sickles trial. They were examined before Justice Hudson the next day. The proprietors proved that the report of the matter in question was put into the papers by the assistant without being read, in the hurry of making up the news at the last moment, and that neither of the proprietors saw the copy before it was printed.

HOW TO CHECK INTEMPERANCE.—The Methodist ministers of Western New York, at their recent Conference passed with great unanimity resolutions against intemperance. We give two of them:—

Resolved, That we deeply regret the indifference and apathy existing in our communities in reference to this subject; that the law has not been more generally enforced; that it has been so inefficient and powerless from the want of a healthy sentiment, and the hearty co-operation of the people.

Resolved, That, while men have looked to *legal coercion* to stop the sale and use of intoxicating liquors as a beverage,—*moral suasion*, has been sadly neglected, individual responsibility has been thrown off, and the *hearts* of the people have not been at work; their *consciences* and *sympathies* have not been sufficiently aroused and perseveringly enlisted in this work of reform.

WHAT A MAN THINKS OF HIS OWN BUSINESS.—The Aldermen of Manchester, have been discussing liquor questions, especially, whether all drinking dens should be closed at 10 P. M.

The Mayor thought good would result if the request to close was generally regarded; but said he was doubtful whether all would willingly close at that hour, and if he undertook to enforce the resolution there would be no alternative but for *all* to obey. He thought that evil arose from private as well as public drinking, and suggested that there were many places in the city used as private drinking rooms. He also said if he had the power he would get rid of ardent spirits entirely, beleving them to be a great evil.

The Mayor certainly knows whether they are *evil* or good,—for he has seen how they affected his customers.

CHURCH MUSIC.—As to "congregational singing," about which so much has been said, it may not be modest to give an opinion yet. But it is perhaps *safe* to say one or two things. And one is, that congregational singing, however sharply looked for, will not come, any sooner than the congregation can sing. Another is, that when a congregation knows how to sing, it will need to be led in that performance. In a large church it will need an instrument and a number of well trained voices, call them a choir, a quartette, or what you please, and put them where you please. But they will lead best, together, and accustomed to sing together. This is a choir, whatever you call it.—*N. Y. Independent.*

Those who find most fault with the music in a church, are not the ones generally who are willing to *do* the most to improve it; and the very people who profess the greatest regard for congregational singing, take no pains to promote it, by encouraging singing schools, musical conventions, and the like. Nevertheless, as observed in the extract above, no matter how ardently desired, on economical or devotional grounds, "congregational singing will not come till the congregation *can* sing"—and further, they never can sing till they have learned.

MISTAKEN IDENTITY.—The Buffalo Express says that one of the clergymen of that city recently took a trip upon the Central Railroad, in company with a parishioner, having been invited to officiate in laying the corner-stone of a church edifice in an interior town. The clergyman and parishioner both were fond of a good cigar, and so they concluded to have a little smoke.—In the vicinity of Rochester, they stepped out upon the platform, to take a few whiffs. They were soon invited by the conductor to occupy an empty car, and enjoy themselves, of which invitation they cheerfully availed themselves. While thus enjoying themselves, they noticed that many longing eyes peered through the windows of the car at the smoking twain. They smoked on, however, and let the less fortunate ones stare. Having arrived at their journey's end, our clerical smoker was accosted by a brother clergyman, who come by the same train, and was a good deal surprised to find that his character had received detriment and that the general impression of those on board the train was, that he and his parishioner were a *couple of convicts* on their way to Auburn State Prison.

Moral: Clergymen, if they smoke at all, shouldn't smoke on board railroad cars.

☞ As an evidence of what industry and perseverance will do, it may be stated that the Hon. Solon Borland and Hon. Jere. Clemens have risen, by successive stages, from U. S. Senators and Ministers Plenipotentiary, until they have reached the editorial chair, and they are now associated in the management of the Memphis (Tenn.) Enquirer.

It is also said, but we cannot vouch for the truth of it, that Hon. James Buchanan has risen by successive stages from Senator, Minister and President—up to the editorial chair of "the Constitution."

☞ We published an account of a robbery at the house of Mrs. Elizabeth Cheever, in Saugus, Ms., on Sunday, supposed to have been by a man who induced a domestic to leave the house and take a bible to her mistress at church. The robbery, however, turns out to have been committed by the domestic herself, who proved herself a most accomplished female thief.

☞ A few nights ago, Mr. Withers, who was sleeping in a three bedded room of a hotel in St. Louis, was awakened from his slumbers by the entrance of a stranger bearing a lighted candle. One of the three beds was vacant, and the stranger remarked that some one was about to arrive to put it in readiness to receive him, and that he would sit by the window, and cool himself, while he waited. Upon this, Mr. Withers resumed his sleeping. The morning came, but the stranger, who seems cool enough by nature, had disappeared, taking with him the watches and valuables belonging to the two occupants of the tenanted beds.

☞ The number of coffins taken up and burned, in the New York Potter's Field, is 27,000. What an idea of intensified misery the fact suggests! But it has passed.

FOREIGN NEWS.

FARTHER POINT, June 11.—Steamship North Briton, from Liverpool, with dates to June 1, arrived off here at 5 o'clock this morning.

The Emperor of Austria quitted Vienna May 29, and arrived at Verona on the 31st, accompanied by his brother, the Arch Duke Charles, Gen. Hess, and others.

The official Sardinian Bulletin says that the Sardinians passed the Sesia in the face of the Austrians who were fortified at Palastro, after a severe conflict. The Sardinians, under the command of the King, carried Palastro and made many prisoners.—Garibaldi was making bold movements in Lombardy.

On the 27th, after a furious fight of three hours, he entered Como. The Austrians retreated at Carmelatto where the combat was renewed, and the Austrians again retreated towards Milan.

It is reported, via Berne, that on the 29th Garibaldi was defeated by a superior force, and withdrew into Canton Tessin.

The Emperor was about to remove his headquarters from Alessandria, and it was reported that he would go to Casale.

It was reported in Paris that as soon as the French had entered Milan, England and Prussia would make most strenuous efforts to end the war.

A fight occurred at Florence between some English men-of-war sailors and some American sailors, on account of the latter wearing tri-color rosettes. No details given.

The English Parliament met on the 31st ult. Speaker Dennison was unanimously re-elected.

The Paris correspondent of the Liverpool Journal, describing Napoleon's departure from Paris, says:

The Emperor was observed by everybody to look very pale and ill. He wore the undress costume of an officer of artillery, the frightful *trepi* belonging to which is quite enough to make any man look as if coming out or going into either jail or hospital.—The strongest emotion was visible in his countenance when the roar of the populace greeted him as the carriage neared the Bastile. A nervous motion seemed to seize upon his hands most expressive of immense excitement; and once or twice the Empress was observed to seize them between her own, and hold them as if seeking to quiet the irritation of his feelings. The Princess Mathilde and the Duke and Duchess of Hamilton were alone with him for some time before his departure from the Tuileries. A reconciliation brought about by the persevering endeavors of the Duchess, took place between the Princess Mathilde and her cousin just at this moment, and the emotion is said to have been most overpowering on either side. The injunctions given to Mathilde were of the most serious nature, and entirely concerning the surveillance of the Empress.

Eugenie is said to have given great cause of uneasiness by her behavior at the Council a few days ago. She broke forth into an opinion of her own which astonished them all. She declared the war to be unjust and wicked, expressed her conviction that it never could come to a prosperous end; and, in the midst of sobs and exclamations, betraying, by sundry appeals and passionate entreaties immediately to cause the strife to cease, that all these ideas had been lodged in her beautiful head by no less a personage than the Archbishop of Paris, went off into a fit of moist, mild hysterics, and sinking back in her chair, covered her face with her handkerchief, and spoke no more.

FROM HAYTI, May 21.—The island was tranquil. The law of banishment against Soulouque and his followers, voted unanimously by the Chamber of Representatives, has been at last accepted by the Senate.—"A law in testimony of the national gratitude for services rendered the country by citizen Fabre Geffrard," accords to the President, as a national recompense, a handsome private residence, to be paid for from the public treasury. The annual salary of the President is fixed at twenty thousand piastres.

☞ Advices from Sebastopol state that 27 vessels—brigs, schooners, and lately one corvette of 18 guns—have been successfully raised. Of the 28 vessels, 15 have been raised whole, and with the hulls in very fair condition; the others were broken to pieces, and taken out in that condition.

☞ The proprietors of Boston Traveller have added to their editorial staff a gentleman thoroughly versed in European history and politics, whose articles upon public affairs on the continent, especially at this juncture, will be of great value. The Traveller has for some time contained a Weekly Review of domestic affairs, that possesses great interest.

Come all ye young and old folks,
Whoever you may be
And with earnest attention
Pray listen unto me.
At HILTON'S place 'tis well known
By men and ladies too.
That Hilton is the fellow
Keeps the best Oyster Stew.
And Oysters Raw or Fricasseed,
Done up with fancy skill,
Friend Hilton always keeps on hand
To suit the people's will.
Ice Cream, the best and choicest,
And every summer drink,
And fifty other little things,
All to Perfection's pink.
Saloon for Ice Cream, Oysters,
And many dainty things,
Fit for the lawyers' palates,
Or those of dukes or kings.
On Islington the place is,
Twenty and Twenty-two
At present are its numbers;
Call ere the eve—won't you?
Cigars of all descriptions,
Of every favorite brand
That's used in the New England
Or any other land.
Young men at lovely even
At this Saloon please call,
For Hilton there stands eager
To please you one and all.
He'll give you satisfaction,
You'll smack your lips, say "nice,"
And then you'll be astonished
At moderation's price.
Of Islington you'll please think,
And your way there pursue,
Till you come to the numbers
Twenty and Twenty-two.

Dr. Wistar's Balsam of Wild Cherry.
The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam.* The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."
CASES OF CONSUMPTION AND WHOOPING COUGH CURED.
The following from a highly respectable gentleman, speaks for itself;
KEYPORT, N. J., May 20, 1858.
S. W FOWLE & Co.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.
After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.
I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

SPECIAL NOTICES.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

HOME TESTIMONY.
From the Pittsburgh United Presbyterian.
We have tried Hostetter's Stomach Bitters for Dyspepsia, and can speak favorably of its effects, and have no hesitation in commending them to those suffering from any debility of the kind.
From the Pittsburgh Post, August 27, 1858.
HOSTETTER'S BITTERS.—These Bitters have obtained a wide-spread and well-deserved celebrity. They are an admirable remedy for a great variety of stomach diseases. It is a most valuable tonic, and to all persons afflicted with indigestion, it affords a complete remedy. It is sufficient evidence of its beneficial character to observe the immense quantities of it shipped by Messrs. Hostetter & Smith, the proprietors, to all points in the country. (*From the Pittsburgh Gazette, Aug. 18, '58.*)
Knowledge is gained by experience, and, though we have heretofore dealt very little in medical preparations, we are compelled, in justice to the manufacturer, to say that Hostetter's Stomach Bitters has been the means of curing us of a severe attack of Dyspepsia, and has removed pain in the stomach in a very short time.

"BUY ME AND I'LL DO YOU GOOD."
Now is the time to use the great Spring and Summer Medicine.
Dr. Langley's Root and Herb Bitters.
Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful.* They absolutely cure
LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.
All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.
This has become a standard Medicine, and is decidedly *the Best in the World.* Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.
Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & Co., No. 12 Marshall St. Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior like nesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

ONLY A FEW WORDS
Just to say, that on account of a contemplated new arrangement in business and a professional tour, I am anxious to close off immediately all the STOCK in my

R. R. R.
A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 23d of July, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and
HAS NOT BLED SINCE.
In all cases, where persons are afflicted with Bleeding at the Lungs, take Radway's Resolvent, in table-spoon doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a styptic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R. R. Remedies will positively cure.
N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.
R. R. R. is sold by Druggists everywhere.
R. R. R. Office, 162 Fulton street, New York.
N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

TO THE CITIZENS OF NEW HAMPSHIRE.
Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restorative of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and air.
For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.
May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

THE CITY COUNCIL of Portsmouth consists of two Houses or branches—the Common Council and the Board of Mayor and Aldermen. When the City Government was first instituted, the choice of the City Officers, &c., devolved on the Aldermen alone. Afterwards, the charter was so amended, that the election should be by concurrent ballot of both branches—and later yet, the elective power was again given to the Aldermen alone. So the Common Council have little or nothing to do during the year, but act on the Appropriation bill drawn up by the joint Finance Committee—as all appropriations of money must originate in that Board. This year, they seem determined to have some voice in the selection or ratification of city watch, assistant marshals, &c., and to withhold their pay if suitable men are not appointed by the Aldermen—as has appeared from the reports we have already published.

FOURTH OF JULY.—*Messrs. Editors*:—We see by your paper that the Common Council have appropriated $500 for the Fourth. We would like to have the Aldermen concur with the Council, and then we can begin to talk about a Celebration. But if anything is to be done it must be done soon, for Celebrations are not of a day's or week's work, but require much time and considerable ingenuity. We hope the Fourth will be celebrated, but we want to be sure of the $500 first. H.

Messrs. Editors:—We concur fully with the proposition of "Experiment" in your Thursday's issue, of the far more satisfactory amusement of our citizens on the coming Fourth, by a social picnic in the woods, omitting, perhaps, his suggestion of the "Ethiopian Minstrels."

As we have had no exhibition of fireworks for six years, the citizens would be better satisfied, in our opinion, with fireworks, than with such a "small potato" affair as would be got up with the insignificant sum of $500. By all means let us have the "picnic" *and* fireworks.

PRO BONO PUBLICO.

Uncle Toby thinks $500 spent for small potatoes, would be a bad investment—but he don't see a very great prospect of spending it in that direction this year.

Messrs. Editors:—May I, a tax-payer, be permitted through your colums to raise my humble voice on the distribution of our public funds; the disbursement of which is, or ought to be, a subject of interest to all, and while we talk of retrenchment use judgment where that retrenchment is to begin. I acknowledge the necessity of instruction for the young, and uphold all measures, *reasonable* measures, for its support; but in a small city, the size of Portsmouth, when on every second or third square, we see an edifice for learning, great or small, and while our population so steadily remain *in statu quo*, why expend your thousands in more school buildings? I protest against this unnecessary expense. Who would not give the preference to our former village semi-felicity? Is it not a shame to see a place, calling itself a city, regulated like this? Cutting down the funds for your streets! look not at "Fleet street" alone, but others, and your environs, they are given up for sewers. The ruts and stones are our *land* "shoals" from which no "beacon" now saves us.—Cutting down the funds for your gas! why look you, citizens, have you ever been out of a dark night, through your streets, where those feeble rays each quarter of a mile, make darkness more visible, where is positive danger to those that walk, and great inconvenience to those that ride? But I will tax you no longer, save to again reiterate my disapprobation of the waste of *thousands* while the *hundreds* are cut off, which are so needful, and could be so beneficially applied. I beg for a careful consideration of this subject. How much larger is our population than it was fifteen or twenty years ago? And yet look at those staring edifices, tombs of the wasteful extravagance of our "city fathers," lasting monuments of a "little brief authority." Oh! let not another be added to the number! It is not our "friends" we will exclaim to be delivered from, but "Heaven deliver us from the 'City Fathers!'" —— GRANITE.

Don't be alarmed. There is not, in District No. 2, a single costly school house. The Cabot Street school building is very poor, and very small;—one school is kept in the *basement* of the Court House;—and one or two schools in hired rooms.

For the Chronicle.

CURIOUS.

It is a little curious how the Ladies find out where the largest and best assortment of Capes are made and sold at the lowest prices in the city. We have noticed that they all crowd into the store of Allen & Paine when they are after one of these garments. **

☞ Our State Legislature, in Convention on Friday, June 10, elected the following State officers: State Treasurer, Peter Sanborn of Concord; State Printer, Asa McFarland, editor of the Statesman, Concord; Warden of State Prison, John Foss of Concord.

POLICE COURT.—During the last week the following cases were before Justice Odell.

Wm. O'Brien and David Sheridan, marines, plead guilty to a charge of making brawl and tumult. Fined $5 each. Costs $5.03.

Albert Rowe was accused of assaulting Harriet F. Goodwin. Plea not guilty.—Found guilty, and fined $5; costs $5.45; $30 bonds to keep peace. Appealed.

Elijah Brown, charged with assaulting Sarah M. Johnson; plea not guilty. Found guilty, and fined $5; costs $4.80; $20 bonds to keep peace. Committed.

Michael Long, charged with stealing 15 lbs. coffee from Moses Noble. Plea not guilty. Found guilty. Sentenced to 30 days in jail. Costs $5.74; damages $2.00.

Thos. K. Wentworth, for abusive language to E. C. Bean, was fined $5; costs $13.59; mittimus issued.

☞ Ship Colorado, (of Portsmouth, N. H.,) Captain Moses Ricker, from Galle, Ceylon, for Tondemonar, was wrecked at Point Ceylon, April 24. Capt. Ricker, his wife and two seamen were lost.

FROM KANSAS.—*Leavenworth, June* 10. The express coaches have arrived with advices from Denver City to the 1st inst.—They contain extraordinary reports, calculated to renew the gold fever. Rich nuggets had been discovered at the north fork of Vasque's Creek, principally coarse gold, and decomposed quartz. Great excitement prevailed all through the country, and the statements of the yields of Gregory's and other running companies were almost fabulous. A company from Indiana were making from $150 to $200 a day.

There were other accounts of the same character, not varying in the least. Many of the letters received seem to have been written under the prevailing excitement, and are in strong contrast to previous gloomy reports.

The dust taken out by the Gregory Mining Company alone is estimated at $20,000.

Denver City was almost depopulated by the people leaving for the mountains.

Provisions continued scarce. $20,000 had been offered for claims.

Subsequent arrivals will determine for certainty the truth of this information, but none of the accounts now received differ in tenor. Rich specimens of gold were received by this arrival, and this community are intensely excited by the intelligence.

We give the above item verbatim as we find it, but we have no confidence in the truth of it.

SOME STEERS.—A correspondent says that Mr. David Towle of Hampton has a pair of steers (which he calls Pierce and King,) which are remarkable for size and beauty. They are six years old, measure nine feet each in girth, and are estimated to weigh between 5000 and 6000 pounds.—Good judges of cattle say they are the finest pair of cattle ever raised in New England. They are daily visited by people from all parts of the country, who regard them as perfect specimens of the ox kind. These are real Democratic cattle.—*Daily Patriot.*

If this be so, then it would be a pity to have them sold "on the auction block"—"like cattle in the market."

STEAMBOAT EXPLOSION.—The steamer John Lawton exploded near Savannah on Thursday night, killing the captain, pilot, assistant engineer, and a man named Goty of Barnwell. A number of others were scalded and bruised, some of them it is feared fatally. The number of killed and missing is eight. The steamer is a total loss.

☞ George M. Kellogg, who started for Pike's Peak, from Westfield, a few weeks since, writes from Kansas that he pursued his journey on the Plains till he met an intimate friend, who had been in the mines nine months and had made only 25 cents per day, when he returned to Geary City, Kansas, believing Pike's Peak gold to be a humbug.

☞ The French journals state that negotiations are now pending between the Court of the Tuileries and the Holy See, with a view to the canonization of Joan of Arc, who, it seems, has never yet been made a Saint.

☞ The Keene Sentinel says:—"Paul J. Wheeler, Newport, N. H., has a cow, for which he has been offered $100, from which in 18 days 21 pounds of butter were recently made—and four quarts of the milk otherwise disposed of each day."

☞ A correspondent of the New York Courier says, "It is believed that such a fleet never swam as England will have afloat before the last of the present month."

☞ John Williams died at Augusta, Me., last week, aged 115 years. He habitually walked a mile to church, till a short time before his death.

☞ Miss Clark, the Queen's milliner, who lately died in London, left a fortune of $225,000 to be divided between three nieces.

☞ Edwin Forrest has given the $500 recovered in his libel case against N. P. Willis, to the Grand Lodge of the Free Masons.

☞ Sewing machines are run by steam, in Bridgeport, Connecticut, at the rate of 1200 stitches per minute.

☞ P. T. Barnum arrived at New York from Europe on Thursday, in the Africa.

☞ The peach crop is said to look well. We are more concerned about its taste.

Oleine Diamond Oil.

GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.

For sale, wholesale and retail, at

96 Market Street, Portsmouth,

where the public are invited to call and examine for themselves.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balaum maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 30 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Trenor have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, which signs of ioxe, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

From the N. H. Gazette.

Abusing the President.

We plead *guilty* to the charge of being a very moderate admirer of President Buchanan. We can find nothing in his character, as a man or as a politician, that excites a very enthusiastic love or veneration. We revere his old age as we reverence the old age of many other people who have passed the allotted period of human existence; but old ladies and old men are not such a rarity in this climate as to call forth any great demonstrations, except occasionally, when a Joyce Heath or some other reputed nurse of George Washington is exhibited at so much a ticket. James Buchanan is a very old man, wears a very nice white cravat, carries his head very much awry, is a good feeder and a moderate drinker, is posted in the *trade* of politics, has been remarkably fortunate for a man of his ability, is an excellent hater, faithfully rewards all "original Buchanan men," was born a Federalist, talked Democracy as soon as that institution got into a paying condition, but having attained the height of his ambition, is now disposed to kick down the ladder by which he ascended, and become again an old fashioned Federalist. His day of sham is over; he now stands before the people in his original and only true political character. All this, or the substance of it, we have said before, and quite likely shall say again, for it is the *ultimatum* of our faith in the political and personal character of that individual; but we don't recollect to have said any more abusive thing of James Buchanan and his Administration than is contained in this article which we take from a leader in the Democratic Standard, edited by Edmund Burke, and recommended by some federal office holders in this city as the only Democratic paper in the State worthy of support. We hope they won't any of them for a moment reckon themselves included among the "corrupt demagogues of the North," alluded to by their political and personal friend, Burke. Here's the extract; its good for sore eyes:

Administrations owing their existence to the Southern Democracy, have not sustained their *friends* in the North. The countenance and the patronage of the Democratic Administrations have been given almost exclusively to the demagogues, and to the demoralized Democracy of the North. It is so, *now*, as it ever has been. While holding out *measures* to the South, where Democracy is strong and does not need friends, it attempts to secure the support of corrupt demagogues of the North by *patronage*, for ulterior purposes—perhaps, to procure a nomination, or to secure the success of a *favorite*. Thus have the Administrations established by the South, encouraged the demagogism of the North, and scattered the seeds of demoralization among its Democracy. We do not except the *present*.

Has the Supreme Court Decided that a territorial legislature cannot constitutionally abolish, or forbid the introduction of slavery within its limits?

The advocates of Negro Despotism assert that the Court has so decided. We affirm that it has not. Every man of common sense, who is familiar with the political and legislative history of the country, and the duties and powers of the Judiciary, knows that it was utterly impossible for the Supreme Court to have made any such decision.—Why impossible? Because no territorial legislature has as yet finally passed any act abolishing or forbidding slavery within its limits; consequently the question of the constitutionality of such an act of a territorial legislature cannot at any time have been brought before the Supreme Court for its adjudication. Every body knows that knows any thing, that the Supreme Court cannot legitimately decide supposition cases, cases that the Court are bound to know historically, have no existence in fact. The Court are bound to know the history of legislation in this country, and they are consequently bound to know *judicially* that no legislative act abolishing or forbidding slavery has ever been passed by a territory of the United States.—It is true that the judicial power of the Supreme Court *extends to all cases, in law and equity, arising under the Constitution of the United States*. But no case involving the constitutionality of an act of a territorial legislature abolishing slavery *has ever arisen*, as no such act has ever been passed, and consequently no decision denying the constitutional power of a territorial legislature to abolish or exclude slavery can have been made.

Yet the negro despotism gentry will have it that the Supreme Court have actually made such a decision! Hear the Belfast Journal—a print that is extremely anxious to hurry *territorial self government* to a judicial grave:

"The attitude of those professed Democrats who assert that a territorial legislature may abolish slavery, is that of direct hostility to the decision of a court which the constitution itself makes its own supreme arbiter."

Please tell us where this precious decision is to be found! Is it embodied in that juridical *olla podrida*, the Dred Scott argumentation? And if it there, pray tell us how it got there? It did not get in there naturally, legally or constitutionally. The Dred Scott case was simply a case where a Black Republican by the name of Chaffee, claimed the ownership of a negro by the name of Dred Scott, and the court decided, after any amount of drizzle that the black Republican owned the negro, and not the negro the black Republican. And we think it decided rightly! Yet the question of a legislative power of a territory did not arise in the case at all—certainly the power of a legislature to abolish slavery, could not have arisen, for no such fact ever had any existence. If any of the Judges in their frightfully voluminous arguments, discoursed upon territorial power, they discoursed on what had no pertinency to the case, and their talk is worth no more than the talk of any other set of men of equal intelligence. If therefore, our Belfast contemporary desires to uphold popular sovereignty in the territories, and is only deterred from doing so, by the apprehension that the Supreme Court has pronounced that cardinal doctrine of the national Democracy *unconstitutional*, we can assure him that the court has done no such thing; and that he can safely resume his position on this important plank of the Cincinnati platform, without any fear of being found in the category of the "Oberlin rioters!"—*Augusta Age.*

GOVERNMENT ADVERTISING.—Numerous inquiries have been made of us in relation to the "Marine Corps" and other government advertisements. Much surprise and inconvenience has resulted to contractors from the non-appearance of those advertisements in the Gazette. It is a matter over which we have no control. The advertisements were withdrawn from the Gazette for the same reason that induced old Sarcophagus to relieve us from any responsibility in collecting the revenue at this port. We hurrahed for Douglas, and this lovely Administration is spitting out its dirty spite by way of punishment to us and example to others.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose taken at bed time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the bowels gently and copiously.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

Only one dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them. Full and explicit directions will accompany every package, and the most inviolable secrey preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

The medicines can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivaled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a worthless article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the nature of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place for sale, except where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in fact and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking; I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LYNCHBURG, Va., Feb. 1, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that it gives a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and say all who are afflicted that way to see your remedy.

You can publish this if you think proper.

Yours, &c. S. W. HILTON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back parts of my head, had lost the covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well stocked with a promising growth of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Pine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

AMERICAN & FOREIGN PATENTS.
E. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
18 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Models, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered men elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and his SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind can at the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full copies of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All secrecy of a journey to Washington to secure a patent, and the usual great delay there, are saved inventors.
TESTIMONIALS.
Regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. E. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such a record of success shows talent and ability on the part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their case, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his FAVOR, by the Commissioner of Patents.
R. H. EDDY.

The Liver Invigorator.
PREPARED BY DR. SANFORD, COMPOUNDED *ENTIRELY* OF *VEGETABLE JUICES*, is one of the best PURGATIVE and LIVER MEDICINES now before the public.
It cures remove morbid or bad matter from the system, supposed to be their place a healthy flow of bile, increasing the stomach, causing food to digest, giving tone and strength to the whole machinery, removing the cause of the disease.—E. J. LYNDER removes all being a radical cure. ATTACKS are seldom, and what is better, prevented by the occasional use of the Liver. One dose after eating is sufficient to relieve the suffering and prevent the coming of a nightmare. One dose taken the following morning, prevents DYSPEPSIA. One dose taken every night for a month, will remove the worst case of Costiveness. One dose taken after eating will cure Dyspepsia. One dose of two teaspoonfuls taken at bedtime will always cure SICK HEADACHE. One dose immediately relieves Colic. To those who use it are giving their unanimous testimony in favor.
Take a glass of water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.
SANFORD, Proprietor, 345 Broadway, N. Y.
Sold by THACHER, PRESTON, HUTCHINGS, and Druggists everywhere. eu31 ly

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of this dangerous maladies, who still suffer from the reluctance to make known their complaints, to consult a physician, he would state that any such medicines will be sent by express or otherwise, to all who may order them, provided the description of the disease be sent by letter addressed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, more than three-fourths of this number are now upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing eyes.
Particular in finding Dr. Hughes. Do not be led from the right path, or be persuaded to try a worthless with false and fictitious remedies at the expense of destroying what is the great pillar of a healthy constitution.
The medicine can only be obtained at the Office of HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE PREVENTATIVE PILLS. These pills are unrivaled in efficacy and superior virtue in regulating all irregularities. Their action is specific and sure, producing relief in a short space of time. They are acknowledged to be the best in use.
He cautions the public to beware of impositions that are being practiced by advertising a worthless article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.
To those who are in pursuit of the genuine article, he would call on the Dr. at his office, where they may be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country, with directions. Remember the number—13 Howard street, Boston.
N.B.—The best of accommodations furnished, and kind and attentive nurses if they wish, at a reasonable rate. jd diy

TUESDAY, JUNE 14, 1859.

GREAT BREACH OF PROMISE CASE.—The evidence in the case of Miss Effie Carztang, of New York city, who sued Mr. Henry Shaw, of St. Louis, for $100,000 damages for breach of promise of marriage, is given at length in the Western papers.

We learn from the St. Louis Democrat that Miss Carztang is about thirty years of age. Her figure is tall and graceful; she has dark hair; brilliant eyes; blonde complexion, and a mouth expressive of great firmness and decision of character. Mr. Shaw is about sixty years of age; his hair is somewhat gray; his features are rather sharp, expression of countenance agreeable; he is a man of great wealth, assessed for $600,000 and worth upwards of a million according to the evidence; and Tower Grove, his country-seat, is one of the finest residences in the neighborhood of St. Louis. Mr. Shaw is one of the oldest citizens of St. Louis; and during a long residence there, has sustained a character heretofore unimpeachable.

The evidence of expressed intentions on the part of the defendant to marry the plaintiff was conclusive to the jury, who gave a verdict for the entire amount claimed.

The New York Tribune remarks:

The jury were undoubtedly governed, in the rendition of so large a verdict—the largest, probably, ever given in a case of this kind—by the great wealth of the defendant, the personal attractions of the plaintiff, and still more by the course which he, a man twice her age, had pursued toward a woman whose affections he had once sought to win. No inconsiderable fraction of the one hundred thousand dollars damages is to be regarded as 'smart money.'

The Herald, however, says:

In view of the immense wealth of the defendant, and the other circumstances of the case, this was no doubt a very righteous verdict. But it establishes a dangerous precedent. It offers a hundred thousand irresistible temptations to young ladies to bring suits for breach of promise against rich men; and we should not be surprised to see all the courts in the country, from Georgia to Maine, and from the Atlantic to the Pacific, crowded with cases of breach of promise very soon.

Miss Carztang was born and brought up in New York, her father having been a Methodist local preacher there and in Brooklyn. Her mother died in 1848, on a visit to Philadelphia, and her father lived only a year afterwards. A short time previous to his death, he went to Charleston in the hope of recovering his health, with Miss Effie, but returned to New York to die. He left his children—two daughters—some property, "enough to make them comfortable."—Soon after his death Miss Effie went to Charleston, where she had relatives, and, then being but twenty years of age, opened a millinery establishment. She next resided with an aunt in Cincinnati, meeting her sister there. The two went to St. Louis in 1854, where they lived together, the elder, Mrs. Seaman, who had not lived with her husband since 1850, taking a house and renting rooms to lodgers, having, like Mrs. Bardell, in the famous case of Bardell vs. Pickwick, a preference for single gentlemen.

The plaintiff was introduced to the defendant in the street in the Spring of 1856. He called, upon the strength of this introduction, and continued his visits till the Winter of 1857-58, a few weeks before the institution of the suit. Mr. Shaw used to visit Miss Effie two or three times a week, and at all hours of the day.

"A CHILLING FROST."—In a letter from a son of Portsmouth, dated Laughlinstown, Westmoreland Co., Penn., June 4, the writer first speaks of the vegetation there as about two weeks earlier than usual; and then says:—

Last night blasted all our prospects of early crops. To-day at noon hardly a vestige of vegetables can be seen: the ground looks as bare as when ploughed. Apples on the trees froze as hard as bullets; every plum dropped from the trees as soon as the sun appeared, and apples are falling also; our cucumbers, squashes, beans, &c., are all gone. This morning about 2 o'clock the thermometer stood at four degrees below the freezing point, and at half past four 12 degrees below. It is presumed that the late frost has killed nearly all the grain in this section, and people are busy this morning re-planting. How far this frost extended we know not. No doubt it was more severe here near the mountains.

☞ Mr. Josiah Wright, an old gentleman of 85 years, was killed in Exeter on Sunday morning, about 4 o'clock, by falling down stairs. He had just risen from his bed, and walked to the head of the stairs, and by some misstep went to the bottom, breaking his neck and collar bone. He was a native of Woburn, Mass.

☞ A child of Peter Seiger, residing in Alleghany county, Pa., was bitten by a rat in two places, on the 2d inst., while lying in the cradle, and died from the effect the same day.

A TALE OF WOE.—A correspondent of the Traveller, writing from Haverhill, Ms., furnishes the particulars of a melancholy tragedy of late occurrence in that town. A young woman of 18 years, who had been deserted by her husband, abandoned her infant child in the woods to die. Her confession in regard to the act is deeply affecting. According to her statement she gave the little one its last meal, then gathered some grass for its bed, and laid it down where it died of starvation and exposure.

She says the act was perpetrated because she could not endure the thought of having her child live, liable to become a degraded and miserable being, like herself.

A coroner's jury rendered the following verdict:—"From the evidence submitted the jury are of the opinion that the child came to its death by voluntary and wilful abandonment by its mother, Mary E. Jones, for said purpose, in the woods on the premises of S. P. Bradley, in the West Parish of Haverhill, on the thirtieth day of May, in the year of our Lord one thousand eight hundred and fifty-nine." The woman was subsequently arrested.

☞ Twelve wooden buildings, houses and stables, at North Grove street, Boston, were burnt on Sunday night, beginning at 10 o'clock.

All the buildings destroyed were owned by the heirs of the late Dr. Parkman, who was murdered by Dr. Webster, and there was not much insurance on them. The loss on the buildings is about $10,000. The tenants were not insured, and the whole loss to them will be about $4000 or $5000.

The fire was not extinguished until midnight. The steam engines were on hand, and did good service.

NAVAL.—The U. S. Sloop of war Decatur, from Realejo, had arrived at San Francisco previous to May 20.

The Secretary of the Navy has name the recently purchased steamers Mystic, Wyandotte, Sumter, Mohawk, Anacosta, and Crusader.

The Mystic and Sumpter are to be added to the African Squadron,—the others to the Gulf. Lieut. Maffit will command the Crusader, and Lieut. Craven one of the other Gulf vessels.

Commander Williamson has received preparatory orders. to the Fulton.

THE SCIENTIFIC AMERICAN.—This widely circulated and popular illustrated weekly journal of mechanics and science, will be enlarged on the first of July, and otherwise greatly improved, containing sixteen pages instead of eight, the present size, which will make it the largest and cheapest scientific journal in the world; it is the only journal of its class that has ever succeeded in this country, and maintains a character for authority in all matters of mechanics, science and the arts, which is not excelled by any other journal published. Terms $2 a year, or 10 copies for $15. Specimen copies of the paper with a pamphlet of information to inventors, furnished gratis, by mail, on application to the publishers, Munn & Co., No. 27 Park Row, New York.

The Bath Times, Democratic, says:

"The Bangor Union—the London Cordial Gin organ, as the Evening Times calls it—has come out in denunciation of that eloquent Scotchman, Peter Sinclair, Esq., who devotes his time to inculcating sound temperance principles among our children and youth. Has it come to this, that a man must not be allowed to do good because he is not a brawling politician! Mr. Sinclair is in love with prohibitory laws, but he interferes with no political party.

LIQUOR TRAFIC IN PHILADELPHIA.—The number of liquor venders by retail in this city is so enormous that numbers of them are unable to make laborers' wages.—When we remember that raw whisky costs but thirty-five cents a gallon, and when converted into "brandy" is sold at about four thousand per cent. profit, the business must be very poor if it does not yield some sort of a livelihood. The commissioners have just closed their labors. They have granted no less than two thousand four hundred licenses. The number of the "licentiates" have already starved out the business.—*North American.*

SAD.—At Gloucester, Mass., the body of a man was found lying in the water on the beach, between Rigs's and Procter's wharves, on Monday morning. It proved to be the body of Thomas Eagan, an Irishman. An inquest was held, and the verdict rendered was that the man came to his death while in a state of intoxication. It was in evidence that the man was in a drinking house at a late hour on Sunday night, and that he did then and there imbibe intoxicating liquor.

It was presumed that on his way home he wandered on the beach and fell or laid down, when the tide flowed over him and drowned him.

☞ The Somerset Telegraph, Skowhegan, announces the death of the editor of that paper, Rev. Mark Hopkins, who died in Norridgewock, June 3. He was born in Brunswick, Sept. 19, 1813. He belonged to the Methodist persuasion, and was at one time connected with the Maine Wesleyan Jounal, published in Portland, during which he won many warm freinds.

☞ Eighteen vessels sailed on Thursday, from Gloucester, Ms., for the Bay St. Lawrence, and some fifty sail have gone since. It would be a sight well worth seeing to behold in one harbor at anchor the fleet that Gloucester will send into the Bay this year. Three hundred beautiful schooners, many of them perfect yachts in model and appearance, averaging 85 tons each, and manned by from 4000 to 4200 men.

A friend says that a very destructive ail recently afflicted the young men in his section of the country, and that many ladies have taken on the disorder. It is generally spelled—*Ale.—Bath Times.*

☞ Thirty or forty feet of the rock in the centre of St. Anthony Falls on the Mississippi, has been broken off by the freshet, leaving the Falls something like a horseshoe in form.

Hampden has chosen delegates to the State Convention. The Bangor Union throws suspicion upon them by endorsing them as "sound national democrats," a phrase which, as used by that paper, signifies any thing but men who have faith in the people.—*Bath Times.*

☞ The vessels fitted out from Eastport, Me., for the herring fishery at the Magdalen Island, have been quite successful, and are returning with full fares. The catch in the aggregate will be thirty-five or forty thousand barrels.

An "Anti-cursing Club" has been formed in Grass Valley, California. We shall not join such an organization until after the Presidential election.—*Bath Times.*

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They HEM, FELL, GATHER, AND STITCH in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit dragging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

SPECIAL NOTICES.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam.* The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentlemen, speaks for itself;

REVERE, NEWPORT, N. J., May 20, 1858.

S. W. FOWLE & Co.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

(Signed) JOSIAH HOFF.

None genuine unless signed "I. BUTTS" on the outer wrapper.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. F. Packer, Greenland; and dealers everywhere. spnot 4wd&w

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful.* They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World.* Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time for fast approaches when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 21st of August, she had an attack of Hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in doses of a table-spoon doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regulated by taking one of Radway's Regulators per day. As a *tonic*, Radway's Ready Relief is superior to all astyptics in use. We have seen it stop violent bleeding of the nose, when all other means had been tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

TO THE CITIZENS OF NEW HAMPSHIRE

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Malt, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent physicians, a safe stimulant or diuretic thing in dropsy.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, void of the acrid oil of turpentine which renders other article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GRAVEL, DROPSY, GRAVEL, CHOLERA, FEVER AND AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the female sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial "not only superior to any other, but the best article kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IMPORTED.

IMPROVEMENTS.—We are glad to see that the rum-hole on Congress street, through whose trap-door so many have fallen into disgrace and ruin, has been closed, and we hope forever. The property in that vicinity will now be worth a great deal more for being rid of the nuisance of that which has so long disgusted the whole community.

Every one notices the improvement on Fleet street, by the removal of the rough stone pavement, and substituting therefor a substantial brick sidewalk from Jackson & Co's Express Office to State street. This reform has long been needed, and the energetic projectors of the change deserve the sincere thanks of all pedestrians. Fleet street, from State street to Congress street, is a great thoroughfare, and a crossing is much needed over which to pass from the new side walk on Fleet street to the north side of Congress street. A large part of our citizens living south of Congress street, on State and Court streets, pass through Fleet street daily, and in muddy travelling the want of a good crossing from the east end of the Franklin House to the west side of Fleet street opposite, is universally acknowledged. It is to be hoped that our city fathers will see the propriety of completing the improvements so well begun, by having this crossing built, and the crossing on the east side of the North Church moved far enough north, to make Market Square and Daniel street accessible to persons coming down the south side of Congress street. SUICIDE.—In Epping, Tuesday, May 31, Mr. John Thurston of Deerfield, aged 24, committed suicide in consequence, it is said, of disappointment in a love affair. It was a deliberate act. He bade his companions in the shop where he worked, good bye, went immediately to the river and jumped in. Some of his friends followed, and when he rose to the surface, tried to persuade him to come out, but he absolutely refused and sunk to the bottom. His body was recovered and buried the following day in Epping.—*News Letter.*

☞ A destructive fire broke out in Concord on Saturday night at 10 o'clock. It had its origin in a small dwelling near the South Congregational Church. The church was burnt to the ground, together with a bakery, and two or three dwelling houses besides the one where the fire began.

CALIFORNIA & SOUTH AMERICA.

NEW YORK, June 13.—The Star of the West has arrived from Aspinwall June 3. She brings $1,500,000 in treasure and 400 passengers, also the California mails of the 20th of May.

The case in which the San Francisco Bulletin is charged with uttering obscene libel for publishing Mrs. Sickles' confession, has been decided against that journal.

Gold mines in Vancouver's were yielding so largely that parties were leaving Victoria for that locality.

Geo. D. Brush, treasurer of Calaveras county, is a defaulter for a large amount.

Dates from Valparaiso are of May 1. A battle was fought April 29 between the government troops and the revolutionists, in which the latter were defeated. Loss 2000 killed. This battle has ended the revolution. Government had opened the northern ports, and business was reviving.

It was rumored that a Bolivian force, under Gen. Echenique, had invaded Peruvian territory, and President Castilla had asked for a loan of $5,000,000, and an army of 20,000 men, which Congress refused.

THE POPE'S FORCES.—The Florence correspondent of the Providence Journal, under date of May 22d, writes that it would seem as if the Pope was about to lose his whole army by desertion. Intelligence comes that nearly 1000 men, with several pieces of artillery, are now on the road between Florence and Rome, moving toward the North.

POWOW RIVER MILLS.—The Powow River company at Salisbury Mills, the Villager says, are to extend their operations by an addition to the present works of a building fifty-five feet in length and three stories high, making when completed, a building ninety feet long. The old saw-mill and grist-mill, lying contiguous to their present factory, and owned by them, are to be torn down to make room for the new building. It is to be completed by the first of October. This company has been very successful since its establishment, and for a number of years past has netted good dividends to the stockholders, leaving a large surplus profit on hand for future operations.

A NARROW ESCAPE.—The Keene Republican says:—"The buildings of Mr. Chas. Faulkner had a narrow escape from being burned up the other night. The slacking of a cask of lime in the barn burnt the boards for several feet around, which was discovered by 'the man' very early in the morning, and but a few minutes before a general conflagration would have resulted.—'The man' immediately informed Mr. Faulkner of the fire, and when asked why he didn't throw water on it, replied—'Indade, I didn't know as you would like it.'"

GREELEY MEETS A SLAVE DEALER.—We find the following going the rounds of the Western journals:—

Horace Greeley, at Leavenworth, met a gentleman who expressed great pleasure at seeing so distinguished a philanthropist, and in wishing him success. "Indeed," replied Mr. Greeley, "I am happy to hear such sentiments, and to see such men as yourself where I did not expect the least sympathy, in this land where the iniquity of the nation is so firmly rooted. God be praised; the work goes bravely on." "With your aid," returned Mr. W., "slavery will soon cease to exist in Missouri. The number of slaves is now fast decreasing. I am myself doing something towards removing them. Only last week I took away thirteen." "My good friend, how? where to?" "To New Orleans." "Great God!" exclaimed Horace, "what, a dealer in human souls!" "Yes, sir, if that is what you call it; I buy and sell negroes. I am indebted to you for the profits of my business. Slaveholders here sell me their slaves for half their value in the South, to keep your disciples from stealing them."

RATHER TOO GOOD TO BE LOST.—Thursday night, after the adjournment of the Democratic State Convention, one of delegates, from the County of Franklin, wandered to the Gayety Theatre to witness the tragedy of Othello. Mr. Crisp personated the "Moor" on that occasion, and we must say, looked the character to great perfection. The delegate from Franklin appeared highly satisfied until the scene in the duke's palace, where Othello is arraigned for marrying the beautiful Desdemona. Here he knit his brow and looked daggers at the sooty general; but when Desdemona herself entered and joined in defence of her husband, and he turned and threw his arms gently about her waist, the delegate went off in a towering passion, swearing it was a "confounded Black Republican play," not to be tolerated by the Southern people, and stalked out of the house.—*Nashville Patriot.*

MR. SUMNER IN PARIS AGAIN.—A correspondent of the New York Post writes from Paris on the 26th of May:—"Mr. Sumner has arrived here from Italy. He says he is well, and his looks correspond. He is now enjoying the strength gathered from a long vacation, and he hopes to retain enough of it to stand the fatigues of the coming session of Congress. During his stay in Italy he was received with special honor by Cardinal Antonelli, Count Cavour, and other leading men of the Peninsula."

☞ The Rocky Mountain News of May 17th, published at Pike's Peak, says that emigrants are continually arriving at the mines by the Smoky Hill route, in a famishing condition, having been deceived in regard to the length and facilities of this route by steamboat runners in Eastern Kansas, in consequence of which they started with inadequate supplies of provisions.

☞ A California paper contains the following advertisement: "Sons of New England! Two barrels of your native rum on tap, and for sale at the brick store."

Oleine Diamond Oil.

GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them.

UDOLPHO WOLFE.

SOLE MANUFACTURER AND IMPORTER,
DEPOT 22 BEAVER STREET, NEW YORK.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M's Director of the Institute of Chemical Instruction, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balalum maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with the flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," "Mears. Tracter have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was blended with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!
The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a Scrofulous Habit of Body, have proved their INVALUABLE EFFICACY in thousands of cases in Europe and America, and established the claim of the discoverer, that they are a SUE PRESERVATIVE, and a
SPECIFIC REMEDY FOR CONSUMPTION.
Dr. Churchill says: "In no single instance have I found the remedy fail to produce every thing that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previous to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE completely recovered, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."
BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *fac simile* signature is upon every bottle.
☞ Price $2 per bottle, or three bottles for $5, with full directions for use. See Pamphlet Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. Sold wholesale, at the lowest discount for cash, at the Sole General Agency by the Proprietor, JOHN WINCHESTER, American and Foreign Agency, 49 John street, New York.
Also, of P. H. NILES, No. 3 Arch street, Boston, Mass., Agent for the States of Mass., N. H., and Vt., to whom all orders must be addressed.
Boston, June 1, 1859. eodly

THE GRIFFIN AIR-LIGHT.

We respectfully announce to the public that we are now prepared to sell State and County Rights for the sale and vending of the above-named light. The Chemical from which the gas is produced was patented March 8th, 1859, and the machine for keeping the supply of gas was patented March 1, 1859. We will simply say that it is practically one of the *greatest inventions of the age*.
The Light is the
Most Brilliant and Cheapest now known.
The Machine is simple, compact, and can be managed by a child. It is kept in operation by the power of a Coil Spring, and will run 15 lights 12 hours, with one winding.
Persons purchasing Rights can be supplied with Chemical and Machines without delay.
To remove all prejudice, and counteract false rumors, we unhesitatingly say that the Chemical is
PERFECTLY HARMLESS
CAN BE USED WITH PERFECT SAFETY.
These Machines can be furnished, ready for use at $25 each, and the chemicals can be had for $1 per gallon. Each Machine will supply from 15 to 20 burners, at a cost of three mills to each burner per hour.
The light and machine may be seen at the Shoe & Leather Exchange, Hanover Street, Boston.
All communications for State or County Rights in the New England States, addressed to LORING MEIGS, Office No. 17, Shoe and Leather Exchange.

LOTTERIES.

THE LOTTERIES OF
WOOD, EDDY & CO.,
Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.
A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.
Whole tickets are $10; halves, $5; and quarters, $2.50.
No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.
Every prize drawn and the result of drawing forwarded to all purchasers.
☞ A circular showing the plan of receiving it. All communications strictly confidential.
Write your address plainly, and direct to

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, heals and keeps the scalp healthy, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, and beautiful*, and if used by the young two or three times a week' it will never fall or become gray. Then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudice with which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who have my prejudice with them, out my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being certain demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, and I thought, I suppose, from a form when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Pa., Feb. 20, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—but is fast GROWING BACK. I have used but 3 pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is much improved in its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

YOU HAD BETTER TRY
MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and happiness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to those who have and all afflicted may avail themselves of its healing qualities.
"**My Mother's Salve**" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a single article.
"**My Mother's Salve**" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"**My Mother's Salve**" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"**My Mother's Salve**" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "**My Mother's Salve**" are simple. Every mother knows how to use it, how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions renewed at times, as good judgment dictates. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M. Beck.

☞ The Cleveland Herald makes the following very just comments upon the rights of married women :—

"Talk about a man having the right to do what he will with his own! A husband's property is not his own. The wife is as much entitled to it as he is. She, if not directly, at least indirectly, has been as influential in accumulating that property as the husband has, and certainly has had it in her power, had she so chosen, to have kept him a beggar all his life.

If the words of cheer, when the horizon looks dark; if the words of caution, when speculation is rife; if the words of hope, when calamity comes; if the words of prudence when prosperity smiles, could be measured by dollars and cents, every husband would lay the bulk of his fortune at the feet of his wife as an act of naked justice, for her instrumentality in shaping his peculiar destiny.

It is downright cruelty to provide in profusion for a wife's wants during coverture, and—through thoughtlessness or recklessness—leave her at the husband's death in poverty. It is the height of meanness in a man who dies rich, to attempt to hamper his widow so that she shall not have abundance; and have it, too, absolutely her own, to do with it what she sees fit. Married women have too few 'rights' while their husbands are living, and assuredly husbands should not seek to reach out of their graves to control their widows.

GOLDEN VISIONS.—A Victoria correspondent of the English Mining Journal, who signs himself W. Radley, and is endorsed by the editor of that journal as an old correspondent, describes a visit to an inaccessible locality in New South Wales, where the ground was found literally flagged with gold in masses too heavy to carry any great distance. One mass is noticed as containing not less than six or seven tons. This almost equals the famous gold mountain story of California. A humbug, no doubt.

☞ They have a liquor law in Louisiana for the exclusive benefit of slaves—another striking evidence of paternal care. The law provides that if a liquor seller sells to a slave, or allows a slave to remain on his premises more than five minutes at once, he forfeits his license and a fine of $250. Several New Orleans grogshops have been shut up by this law.

DANGER.—The day after the late conflagration in Salem, a fireman having performed the dangerous feat of attaching a rope to the high, shaky walls of the Mansion House, on being complimented for the action, and asked if he didn't fear the danger, replied: "Danger! there is not half the danger in that as there is in a pint of *rot-gut*." There had been a liberal flow of the "perilous stuff" the night previous with sickening results.

WEDNESDAY, JUNE 15, 1859.

THE SACRED DEMOCRACY.—The Bath Times has a leader from which we make some extracts.

As the ancient Israelites, under Theocratic rule, were for their short comings delivered over to the tender mercies of the heathen nations by whom they were surrounded; so, also, the chosen political party of the present day, under democratic rule, are, from time to time, delivered over, for their short-comings, to the tender mercies of their enemies, by way of correction, until they return from the error of their ways.

It is not that the people *love* the opposition, but because they are *displeased* with the democracy, that the former are suffered to triumph. The worse the character of that opposition, the greater the punishment, and the greater also the prospect of a speedy return of the party under discipline to the path of political rectitude, and thence to power again.

In this light, we have regarded it as a waste of words to indulge in abuse of the opposition, but have been most eager to get the *democracy right*—to induce them to occupy just and tenable ground. For when the party occupies right and defensible ground, we know that its triumph is certain and secure. And it is the conviction that when the democracy deserve a triumph, they will gain it, that has induced us to labor to get it right and keep it right on the Territorial question.

It appears to us, that when a party *displeases* the people, gets *out of the path* of political rectitude, occupies unjust and untenable grounds, does not *deserve* a triumph, and goes *wrong* on a vital question,—it must be a very odd *chosen* party.

The above extracts, if we understand them, attribute all these faults to the Democratic party,—and yet suppose that by some sort of destiny or decree, popular, divine or diabolical, the party is to be preserved, purged of these faults, i. e. made just opposite to what the Times describes it now,—and *thus* and *then* restored to power.

But query,—When all these changes and reformations shall have taken place, whether it will be the same party.

☞ The Coolie slavery, which seems to have come up to eke out the old institution of negro slavery, is not in a very promising condition at Cuba, where over 38,000 coolies have been landed. A correspondent of the New Orleans Delta, writes from Havana, that there is insubordination among the coolies, and that this extends among the negroes with whom they come in contact.—The coolies, he says, are enfeebled by opium eating, and die by a little exposure or hardship, and they are peculiarly liable to any epidemic that may be prevailing. The opium is brought in in small quantities, the better to evade the revenue laws, and distributed by Chinese agents of the European speculators. The African race quickly learn the use and become the slaves of their enervating narcotic, the evil effect of which is already daily seen on every plantation where the two races have been domesticated together.

HOW "SIXTHLY" RAN OFF.—At the old school presbyterian assembly in Indianapolis, an old long-winded D. D. was making a speech which he read from manuscript: As fast as he finished a sheet or two, he passed them over to a reporter for the Cincinnati Gazette. The cars were to leave at 5 P. M., and when the Dr. made a pause, at about 5 minutes before 5, the Reporter grabbed the pile of MS. and rushed for the cars. The doctor's pause ended. *Sixthly*, says he—but where is sixthly? Sure enough, where was it?—Gone—gone to Cincinnati to be printed!—The doctor was dumbfounded,—sat down himself, and bro't down the house in convulsions of laughter.

COAL ON LOCOMOTIVES.—Coal, says the Manchester American, has now been used for locomotives on the Boston and Providence Railroad for three years, and there is shown on the books an annual saving of 65 per cent. They estimate that 1900 lbs. of coal are equal to two cords of wood. When on the tender, ready for the fire, the wood is worth $6 per cord, and the coal $5 50 per ton. The coal used is fine screenings, and can be nowhere used but in furnaces of great draught. Coal locomotives are much cleaner than wood burners, and throw off no cinders and dust. The cost of altering a "wooder" to a "coaler" is only $14, and $100 to inventors of the right, per engine to use.

☞ Mr. Dempster declined to pay a $10 license in Detroit the other day for the privilege of giving a concert, and therefore gave a free concert which was largely attended. A Deputy Marshal ordered Mr. Dempster to desist, when the audience sided with the vocalist, and the officer left the Hall. Some excitement was occasioned, and by unanimous request, he went on and finished the concert.

☞ The Supreme Court of California has decided that idol-worship is not forbidden by the Constitution. Of course, hasn't every young man his idol?

☞ Phillips, Sampson & Co., Boston, have established a select Circulating library.

Correspondence of the Chronicle.

CONCORD, June 13, 1859.

Messrs. Editors:—At about 10 o'clock last evening, the cry of fire ran through our streets, and soon the South Church (Congregational) and the bakery and dwelling house of Mr. Norris, the residence and out-building of Dr. Simpson, and several other buildings near it, were in flames and were soon burnt down. The fire was a great one, and the loss is quite heavy.

Mr. Norris lost about $4500, and was insured to the amount of $2600; Dr. Simpson lost about $2500, and was insured $1200; the loss to the pew owners of the church, in building, bell, organ, &c., cannot be less than $15,000, with, we believe, only one pew insured. The other buildings, indifferent houses, barns, sheds, &c., were worth probably about $4000 more.

The fire was undoubtedly the work of an incendiary, and is one of ten or fifteen in the city, during the last eight months, growing out of troubles connected with a quarrel among some of the companies, or the encouragements given to a boys' company or two. To gain popularity with the Fire Department, a high time was planned and prosecuted, last autumn, at the expense of the city, by men who were anxious to obtain influence in the city government, and a bad feeling was then gotten up between two of the companies, and troubles have followed it from that day to this. Our fires are generally attributed to the desperate young men of intemperate habits.

The society is a large one whose house was consumed last evening; and as the Episcopalian Society occupy the City Hall while their new church is being built, and as the Catholics occupy Phenix Hall, we have no other place spacious enough to contain the audience. I presume the liberal and christian offer of the Unitarians will be accepted, to occupy their elegant and spacious house one half day each Sunday until August, and the whole in August, and then each Sunday a half day, until the City Hall shall be vacated in October, by the Episcopalians retiring from it to occupy their new house.

When the Unitarian church was burnt, a few years since, the South Church invited that society to occupy the house just now consumed, a part of the time, and now the compliment is returned. Sectarianism is not very bitter in this city. Many of all denominations here are ready to exclaim,—

"Theories, which millions cherish,
Pass like clouds that sweep the sky;
Creeds and dogmas, all may perish,
Truth herself can never die."

Sectarianism must every where give place to true and vital religion, and well would it be if the love of party could be made every where to give place to the love of country. When will man learn that his brother man has like interests with himself in the realities of this life and of the life to come?—Adversity makes man love and honor his fellow man, much more than does prosperity. In prosperity no change of houses is expected between conflicting sects, but in adversity kind acts are frequent, even where creeds are strict and conflicting.

METHODIST BIBLICAL INSTITUTE.—At a meeting of the Alumni of this institution at Concord, on Wednesday, resolutions were unanimously passed declaring it to be highly desirable that the institution be removed to some place in the vicinity of Boston, provided a sufficient sum is pledged by its friends to justify the removal. The trustees were requested to take such steps as they may deem advisable for the removal and permanent endowment of the institution during the present year. The trustees also took action favoring the removal, and appointed a committee to solicit subscriptions.

☞ We "country papers" (as the proud city editors term us) are considerably dependent on the larger means and superior advantages of our Boston cotemporaries, for material from which to make up our sheets. We have been favored by our Boston brothers in the editorial fraternity, with an exchange with their entire Daily press of that city, from the start of the Chronicle. The more we clip from them, the more is our appreciation shown; and our adoption of their sentiments, evinces our approval. The Boston press never rated so high, in our opinion, as at present. We could wish it a little more harmonious family.

ST. LOUIS, June 13.—The express has arrived here, with dates from Denver City to the 7th inst., and $1400 in gold dust.—The accounts received are of the same nature as those previously reported, and the practicability of the mines is considered to be established. The first supply trains had arrived at the mines with provisions, which commanded good prices and ready sales.

The Utah mail has arrived here, but it brings no news of importance. The Republicans have a majority of three in the Constitutional Convention.

The negroes' crop of Dr. Laucas, near Montgomery, Ala, was recently purchased for $1800 in cash, every dollar of which goes to the negroes. This looks as if the negroes down South are making more money than some white folks up North.—*Post.*

☞ We are often indebted to Mr. Wm. H. Raynes, now at Vallejo, Cal., for California papers.

☞ The famous yacht Wanderer has returned to Savannah from her trip to Havana; so the minds of those who imagined that she was bound for a cargo of slaves, may now rest at ease on that point.

☞ The new union paper in Portland, is to be issued twice a day; the morning edition to be called The Advertiser, and the evening edition The State of Maine.

Mrs. Partington says she did not marry her second husband because she loved the male sex, but just because he was the size of her first protector, and would wear his old clothes out.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is required to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their purpose will be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the encurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through its natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum for life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has long and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not shown the virtue that is claimed for it, but more because many prepazations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Added to the painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall resume the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Worms, Costiveness, Dropsy, Dirt, Tetter, Tetter and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent persons, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER's and take no other. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

SPECIAL NOTICES.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen.*—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

(Signed) JOSIAH HOFF.

None genuine unless signed "I. BUTTS" on the outer wrapper.

Prepared by S. W. FOWLE & CO., Boston, and sold by W. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful.* They speedily cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and other diseases arising from a disordered Stomach, or bad Blood, are broken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World.* Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO. 4 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m13

A young lady at Stephentown, New York, in the month of June, 1856, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in sou water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a aperic,* Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. For Coughs, Colds, Consumption, in the earlier stages, the R. R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some other valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and most efficacious diuretic stimulant in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnappa so objectionable.

Though not intended solely as a medicine, it is recommended by the medical faculty as a cure of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER AND AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, and is a safe for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

LOCAL.

☞ Another of the old houses in this city has come down, viz. the house in Court Street, formerly occupied by Capt. Joseph Chase, and known in more ancient days as the Atkinson House.—The fire of 1813 singed the north side of it, but it was spared to be a dwelling for several years, and an eyesore for several more. It now gives place to the fine garden of Mr. Downie whose house is on State Street.

Capt. Joseph Chase was one of the numerous sons of Portsmouth, who perished in the privateer of that name about the close of the war with Great Britain, 1815.

The former occupant and builder of the house was Hon. Theodore Atkinson, who erected it about 125 years ago, in the very best style of that day.

T. B. Aldrich has celebrated the old house, in a poem. This summer, if he sits in the opposite house, he may find the theme for another poem or at least for a sonnet, in the happy exchange and great improvement, from an old unsightle wreck, to a cultivated and beautiful garden.

NAVAL.—A paragraph is going the rounds of the papers stating that it is a fact worth noting, that every available vessel belonging to the Navy of the United States, not at present in commission, is being fitted out for immediate service.

In the list of vessels fitting is mentioned the frigate Constitution at this yard. We think that if Old Iron Sides is fitting for sea the fact must be kept very secret, and doubt if even Old Hickory himself at the ships' head has as yet discovered the work being done on the ship.

The writer probably has forgotten that the Santee at this station, has been launched for several years, and is still waiting orders to be fitted for sea, and that the Steamer Franklin remains on the stocks without any work being done upon her. It is thought that the Steamer Mohican will be sent to sea by November, while the Sloop-of-war Dale remains ready for orders to be repaired. While the other yards are lively with workmen, ours possesses the quiet of a well-regulated village on a Sunday morning. H.

☞ Among the items of appropriations for the U. S. Marine Service for the year ending June 30th, 1860, is this:

Portsmouth.—For gun skids, shot beds, new powder magazine, and repairs of all kinds, forty-six thousand four hundred and ninety-seven dollars.

DIED SUDDENLY.—Under this head, the San Francisco Call of May 12th, says John L. Huntress, formerly of Portsmouth, N. H., aged 35, died in Coloma, El Dorado county, on Saturday evening. He had been drinking, and it is supposed fell and fractured his skull.

N. H. LEGISLATURE.—*Tuesday, June* 14. In the House, to-day, the bill prohibiting Banks from paying interest on deposits was defeated.

Both branches have agreed to finally adjourn on the 25th inst. Much business will have to be deferred if the resolution is adhered to.

Senator Wilson and Hon. Eli Thayer today visited the Legislature.

WASHINGTON, June 13.—Recently received information from Madrid, of an altogether reliable character, shows that, however desirable it may be for the United States to acquire Cuba, there is no prospect whatever of such a consummation, nor is there any probability of the negotiation of a commercial treaty between Spain and this country.

The Grand Jury this morning found a true bill against Mr. Seamans, ex-Superintendent of Public Printing, for malfeasance in office.

The contract for carrying the mails between New Orleans and Key West, semi-monthly, has been re-let to the Southern Steamship Company. They are to receive $69,000, or $11,000 less than heretofore.—The Company also agree to extend the trips to Havana, and the postage to be the only compensation.
